## A BILL

To amend the Public Health Service Act to enhance the roles of dentists and allied dental personnel in the Nation's disaster response framework, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the  
5 “Dental Emergency Responder Act of 2009”.

6 (b) TABLE OF CONTENTS.—The table of contents for  
7 this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Findings.

## TITLE I—PUBLIC HEALTH AND MEDICAL RESPONSE

Sec. 101. National health security strategy.

Sec. 102. All-hazards public health and medical response curricula and training.

## TITLE II—HOMELAND SECURITY

Sec. 201. National response framework.

Sec. 202. National preparedness system.

Sec. 203. Chief medical officer.

1 **SEC. 2. FINDINGS.**

2 The Congress finds as follows:

3 (1) The terrorist attacks of September 11,  
4 2001, and the Gulf Coast hurricanes of 2005 re-  
5 vealed substantial shortcomings in the Nation's abil-  
6 ity to provide for the medical and other health-re-  
7 lated needs of disaster victims when a community's  
8 basic medical infrastructure is overwhelmed or sud-  
9 denly compromised.

10 (2) The dental workforce can do much to en-  
11 hance the Nation's medical surge capacity. Dentists  
12 take many of the same core health care courses as  
13 do physicians, and their training may even exceed  
14 the basic health care curricula of most paramedics  
15 and emergency medical technicians. Most dental fa-  
16 cilities can also be used as decentralized treatment  
17 centers and drug storage and distribution sites when  
18 hospital facilities become overwhelmed.

19 (3) Most Federal disaster response policies,  
20 plans, and programs do not reflect the full extent to

1 which dentists and auxiliary dental personnel can  
2 contribute to the Nation’s medical surge capacity.  
3 Dental schools, for example, have at times been de-  
4 nied Federal public health and medical response  
5 training funds on the grounds that dentists are not  
6 identified by name in the Federal definitions of  
7 “public health worker” and “emergency response  
8 provider”.

9 (4) Dentists and allied dental personnel are  
10 often willing to support the medical and public  
11 health response to disasters and, with little addi-  
12 tional training, could easily be incorporated into an  
13 all-hazards emergency health care paradigm.

## 14 **TITLE I—PUBLIC HEALTH AND** 15 **MEDICAL RESPONSE**
