

117TH CONGRESS
2^D SESSION

H. R. 9476

To protect against seasonal and pandemic influenza, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

DECEMBER 8, 2022

Mr. LARSEN of Washington (for himself, Ms. ROSS, Mr. BERA, Ms. NORTON, Mr. CARBAJAL, and Ms. BARRAGÁN) introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committees on the Budget, and Financial Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To protect against seasonal and pandemic influenza, and
for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Protecting America
5 from Seasonal and Pandemic Influenza Act of 2022”.

6 **SEC. 2. FINDINGS.**

7 The Congress finds the following:

1 (1) Influenza occurs seasonally each year, and
2 throughout history has caused devastating
3 pandemics. The 1918 influenza pandemic killed an
4 estimated 675,000 Americans.

5 (2) In an average season, influenza results in
6 12,000 to 52,000 deaths in the United States, in-
7 cluding over 100 pediatric deaths. Additionally, in-
8 fluenza causes hundreds of thousands of hospitaliza-
9 tions and millions of illnesses.

10 (3) The Council of Economic Advisors issued a
11 report in 2019 estimating that seasonal influenza
12 costs the United States approximately
13 \$361,000,000,000 per year, and that an influenza
14 pandemic has the potential to cause up to
15 \$3,790,000,000,000 in losses. This report was
16 issued prior to the COVID–19 pandemic, which will
17 cost the United States an estimated
18 \$16,000,000,000,000.

19 (4) Most funding for pandemic influenza pre-
20 paredness up until fiscal year 2018 was derived from
21 supplemental appropriations that dated back to the
22 2009 H1N1 pandemic.

23 (5) Centers for Disease Control and Prevention
24 (in this preamble referred to as the “CDC”) studies
25 of influenza hospitalization rates by race and eth-

1 nicity during 10 influenza seasons from 2009 to
2 2019 showed that people from racial and ethnic mi-
3 nority groups are at higher risk for being hospital-
4 ized with influenza.

5 (6) The COVID–19 pandemic response has
6 been built on the pandemic influenza response eco-
7 system.

8 (7) Strategies that increase seasonal influenza
9 vaccination rates will also improve pandemic readi-
10 ness.

11 (8) The National Influenza Vaccine Moderniza-
12 tion Strategy of 2020–2030 of the Department of
13 Health and Human Services should be implemented
14 as quickly as possible to ensure the Nation’s vaccine
15 enterprise is highly responsive, flexible, scalable, and
16 effective at reducing the impact of seasonal and pan-
17 demic influenza viruses.

18 (9) Influenza surveillance has been improved
19 significantly over the last several years by deploying
20 next-generation gene sequencing tools to analyze cir-
21 culating influenza viruses. The technology allows the
22 CDC to study more influenza viruses faster and in
23 more detail, and to monitor genetic changes in influ-
24 enza viruses to better understand and improve the
25 effectiveness of influenza vaccines.

1 (10) Vaccine hesitancy in the United States has
2 reached a tipping point where it is adversely affect-
3 ing public health. Misinformation is widely available
4 on social media, and traditional sources of informa-
5 tion on the value and efficacy of vaccines are not
6 trusted by many Americans, especially those who are
7 vaccine hesitant.

8 (11) Support for vaccine communication, out-
9 reach, and administration across public health and
10 health care settings is critical to drive demand of in-
11 fluenza vaccines, treatments, and medical counter-
12 measures and ensure equitable uptake of these inno-
13 vations.

14 **SEC. 3. STRENGTHENING AND DIVERSIFYING INFLUENZA**
15 **VACCINE DEVELOPMENT, MANUFACTURING,**
16 **AND SUPPLY CHAIN.**

17 (a) **TIMELY DELIVERY OF FIRST DOSES OF FIN-**
18 **ISHED INFLUENZA VACCINE.—**

19 (1) **NATIONAL GOAL.—**It is a national goal for
20 the United States, not later than 3 years after the
21 date of enactment of this Act, to have the capacity
22 to deliver first doses of finished influenza vaccine
23 within 12 weeks of emergence of an influenza strain
24 with pandemic potential.

1 (2) PLAN.—Not later than 6 months after the
2 date of enactment of this Act, the Secretary of
3 Health and Human Services, the Assistant Secretary
4 for Preparedness and Response, and the Director of
5 the Biomedical Advanced Research and Development
6 Authority shall publish a plan to achieve the goal
7 specified in paragraph (1).

8 (b) UNIVERSAL INFLUENZA VACCINE.—

9 (1) NATIONAL GOAL.—It is a national goal for
10 the United States, not later than 10 years after the
11 date of enactment of this Act, to have developed a
12 universal influenza vaccine.

13 (2) PLAN.—

14 (A) PUBLICATION.—Not later than 1 year
15 after the date of enactment of this Act, the Sec-
16 retary of Health and Human Services, the Di-
17 rector of the National Institutes of Health, and
18 the Director of the Biomedical Advanced Re-
19 search and Development Authority shall publish
20 a plan to achieve the goal specified in para-
21 graph (1) in partnership with vaccine manufac-
22 turers.

23 (B) INTERIM SUPPORT.—The plan under
24 subparagraph (A) shall include provisions, as
25 necessary to achieve such goal, for support over

1 the period of 5 years following the publication
2 of such plan of the following:

3 (i) Incremental vaccine efficacy im-
4 provements.

5 (ii) The research workforce.

6 (c) STRENGTHENING THE VACCINE SUPPLY
7 CHAIN.—

8 (1) PUBLIC-PRIVATE PARTNERSHIPS.—

9 (A) IN GENERAL.—The Secretary of
10 Health and Human Services shall establish pub-
11 lic-private partnerships to strengthen the do-
12 mestic vaccine supply chain.

13 (B) DOMESTIC VACCINE SUPPLY CHAIN.—
14 For purposes of this paragraph, the term “do-
15 mestic vaccine supply chain” includes the full
16 domestic supply chain, including—

17 (i) production of ingredients and man-
18 ufacturing and distribution of finished vac-
19 cines;

20 (ii) fill-finish capacity; and

21 (iii) the supply chain of ancillary sup-
22 plies such as needles and syringes.

23 (2) EVALUATION OF USING DPA.—The Sec-
24 retary of Health and Human Services, in coordina-
25 tion with the Administrator of the Federal Emer-

1 agency Management Agency and the Secretary of De-
2 fense, shall—

3 (A) evaluate the use of the Defense Pro-
4 duction Act of 1950 (50 U.S.C. 4501 et seq.)
5 for COVID–19 pandemic response;

6 (B) not later than 1 year after the date of
7 enactment of this Act, complete such evaluation
8 and submit a report to the Congress on the re-
9 sults of such evaluation; and

10 (C) include in such report—

11 (i) recommendations on using the De-
12 fense Production Act of 1950 (50 U.S.C.
13 4501 et seq.) for building domestic capac-
14 ity to respond to an influenza pandemic;
15 and

16 (ii) input from external stakeholders.

17 (d) NATIONAL INFLUENZA VACCINE MODERNIZA-
18 TION STRATEGY.—The Secretary of Health and Human
19 Services shall—

20 (1) implement the portions of the National In-
21 fluenza Vaccine Modernization Strategy 2020–2030
22 that are within the authority of the Department of
23 Health and Human Services to carry out (under
24 other applicable provisions of law); and

1 (2) by June 15 each calendar year through
2 2030, submit to the Congress a report on such im-
3 plementation.

4 (e) ASSISTANT SECRETARY FOR PREPAREDNESS AND
5 RESPONSE.—Section 2811 of the Public Health Service
6 Act (42 U.S.C. 300hh–10) is amended—

7 (1) in subsection (b)—

8 (A) in paragraph (3), by inserting “, in-
9 cluding the pandemic influenza medical counter-
10 measures program under paragraphs (2)(E)
11 and (4)(G) of section 319L(c)” after “qualified
12 pandemic or epidemic products (as defined in
13 section 319F–3)”;

14 (B) in paragraph (7), by inserting “, in-
15 cluding through the pandemic influenza medical
16 countermeasures program under paragraphs
17 (2)(E) and (4)(G) of section 319L(c)” after
18 “for each such threat”;

19 (2) in subsection (d)(2)—

20 (A) in subparagraph (J), by striking “and”
21 at the end;

22 (B) by redesignating subparagraph (K) as
23 subparagraph (L); and

24 (C) by inserting after subparagraph (J)
25 the following:

1 “(K) evaluate progress with respect to im-
2 plementing the National Influenza Vaccine
3 Modernization Strategy, issued in June 2020,
4 or any successor strategy; and”.

5 (f) BIOMEDICAL ADVANCED RESEARCH AND DEVEL-
6 OPMENT AUTHORITY.—

7 (1) PREPAREDNESS ACTIVITIES.—Section
8 319L(c) of the Public Health Service Act (42 U.S.C.
9 247d–7e(c)) is amended—

10 (A) in paragraph (2)—

11 (i) in subparagraph (C), by striking
12 “and” at the end;

13 (ii) in subparagraph (D), by striking
14 the period at the end and inserting “;
15 and”; and

16 (iii) by adding at the end of the fol-
17 lowing:

18 “(E) supporting pandemic influenza coun-
19 termeasure preparedness.”; and

20 (B) in paragraph (4), by adding at the end
21 of the following:

22 “(G) PANDEMIC INFLUENZA MEDICAL
23 COUNTERMEASURES PROGRAM.—In carrying
24 out paragraph (2)(E), the Secretary shall estab-
25 lish and implement a program that—

1 “(i) supports research and develop-
2 ment activities for qualified pandemic or
3 epidemic products (as defined in section
4 319F–3), including by—

5 “(I) developing innovative tech-
6 nologies to enhance rapid response to
7 pandemic influenza threats;

8 “(II) developing influenza vac-
9 cines with potential universal vaccina-
10 tion capability;

11 “(III) developing enhanced influ-
12 enza vaccines with longer lasting
13 broad spectrum protective immunity
14 against a wider range of antigenically
15 divergent influenza strains;

16 “(IV) developing novel small- and
17 large-molecule novel influenza
18 antivirals, monoclonal antibodies, and
19 other products that provide better in-
20 fluenza treatment and prevention; and

21 “(V) implementing the National
22 Influenza Vaccine Modernization
23 Strategy, issued in June 2020, or any
24 successor strategy;

1 “(ii) ensures readiness to respond to
2 qualified pandemic and epidemic threats,
3 including by—

4 “(I) supporting development and
5 manufacturing of influenza virus
6 seeds, clinical trial lots, and stockpiles
7 of novel influenza strains;

8 “(II) supporting the stockpile of
9 influenza antivirals through diversi-
10 fying and replenishing the existing
11 stockpile of influenza antivirals;

12 “(III) supporting manufacturing
13 and fill-finish rapid response infra-
14 structure needed to meet the goals of
15 the National Influenza Vaccine Mod-
16 ernization Strategy, issued in June
17 2020, or any successor strategy; and

18 “(IV) testing and evaluating pan-
19 demic threat rapid response capabili-
20 ties through regular preparedness
21 drills with key public and private sec-
22 tor partners that examine the range
23 of activities (including production and
24 clinical testing of influenza vaccines)

1 required to effectively respond to
2 novel threats; and

3 “(iii) builds, sustains, and replenishes
4 qualified pandemic and epidemic stockpiles
5 of bulk antigen and adjuvant material, in-
6 cluding by—

7 “(I) annually testing the potency
8 and shelf life potential of all existing
9 pandemic and epidemic stockpiles held
10 by the Department of Health and
11 Human Services; and

12 “(II) developing, and dissemi-
13 nating to key public and private sector
14 partners, a life cycle management
15 plan.”.

16 (g) AUTHORIZATION OF APPROPRIATIONS.—Section
17 319L(d) of the Public Health Service Act (42 U.S.C.
18 247d–7e(d)) is amended by adding at the end the fol-
19 lowing:

20 “(3) PANDEMIC INFLUENZA.—To carry out this
21 section and section 2811 with respect to pandemic
22 influenza, in addition to amounts authorized to be
23 appropriated by paragraph (2) and any amounts au-
24 thorized to be appropriated by section 2811, there is
25 authorized to be appropriated \$382,000,000 for each

1 of the fiscal years 2023 through 2027, to remain
2 available until expended.”.

3 **SEC. 4. PROMOTING INNOVATIVE APPROACHES AND USE**
4 **OF NEW TECHNOLOGIES TO DETECT, PRE-**
5 **VENT, AND RESPOND TO INFLUENZA.**

6 (a) EXPANDED GENOMIC SEQUENCING.—

7 (1) GRANTS.—The Director of the Centers for
8 Disease Control and Prevention may award grants
9 to State and local laboratories, academic research in-
10 stitutions, and other private entities to expand
11 genomic sequencing.

12 (2) SOURCES OF DATA.—The sequencing sup-
13 ported pursuant to paragraph (1) may rely on mul-
14 tiple sources of data, including human, animal,
15 plant, and environmental data necessary to track
16 zoonotic diseases.

17 (b) CENTERS OF EXCELLENCE IN GENOMIC EPIDE-
18 MIOLOGY.—The Director of the Centers for Disease Con-
19 trol and Prevention may—

20 (1) designate Centers of Excellence in Genomic
21 Epidemiology; and

22 (2) award grants to such Centers of Excellence
23 to establish and implement partnerships between
24 State and local health departments and academic in-

1 stitutions to improve genomic epidemiology, includ-
2 ing through the conduct or support of research.

3 (c) SENSE OF CONGRESS.—It is the sense of Con-
4 gress that the Centers for Disease Control and Prevention
5 should support interoperable immunization information
6 systems that enable bidirectional data exchange among
7 States, localities, and community immunization providers.

8 (d) PRIORITIZING INFLUENZA AND PATHOGEN AG-
9 NOSTIC TOOLS.—

10 (1) NIH.—The Director of the National Insti-
11 tutes of Health may conduct or support basic re-
12 search prioritizing the development of—

13 (A) agnostic tools to detect influenza and
14 other pathogens; and

15 (B) technologies that automate sample
16 preparation for such tools.

17 (2) BARDA.—The Director of the Biomedical
18 Advanced Research and Development Authority may
19 conduct or support advanced development of novel
20 sequencing modalities prioritizing tools described in
21 paragraph (1)(A) and technologies described in
22 paragraph (1)(B).

23 (e) DEVELOPMENT OF POINT-OF-PERSON
24 DIAGNOSTICS.—The Director of the Biomedical Advanced
25 Research and Development Authority, in collaboration

1 with the Director of the Centers for Disease Control and
2 Prevention, the Director of the National Institutes of
3 Health, and the Commissioner of Food and Drugs, may
4 conduct or support development of rapid, accurate, easily
5 accessible, self-administrable, and readable point-of-person
6 diagnostic tests.

7 (f) INCORPORATING DIAGNOSTICS SUPPLY CHAIN
8 RESILIENCY INTO INFLUENZA PANDEMIC PLANNING.—
9 The Assistant Secretary for Preparedness and Response,
10 in collaboration with the Commissioner of Food and Drugs
11 and the Director of the Centers for Disease Control and
12 Prevention, shall—

13 (1) incorporate diagnostics supply chain resili-
14 iency into influenza pandemic planning; and

15 (2) not later than 1 year after the date of en-
16 actment of this Act, publish a plan for rapidly ex-
17 panding public and private diagnostic testing capac-
18 ity (including at clinical laboratories, at public
19 health department laboratories, and by means of
20 self-testing) in an influenza pandemic.

21 (g) COORDINATING THE INTEGRATION OF POINT-OF-
22 PERSON DIAGNOSTIC TEST RESULTS IN DATABASES.—
23 The Director of the Centers for Disease Control and Pre-
24 vention shall carry out activities to provide for the coordi-
25 nation of the integration of data and results from point-

1 of-person diagnostic tests in local, State, and Federal
2 health databases.

3 (h) SCALING UP PROPHYLACTIC INFLUENZA ANTI-
4 BODY PRODUCTS THAT ADDRESS GAPS IN COVERAGE.—

5 The Director of the Biomedical Advanced Research and
6 Development Authority may conduct or support novel pre-
7 ventive approaches, including those still in preclinical and
8 clinical stages, to rapidly scale up prophylactic influenza
9 antibody products that address gaps in vaccine coverage.

10 (i) MODERNIZING POTENCY ASSAYS.—The Commis-
11 sioner of Food and Drugs shall work with vaccine manu-
12 facturers to modernize potency assays across a variety of
13 manufacturing technologies so as to reduce by 6 weeks
14 the period required to first evaluate new vaccine can-
15 didates during a pandemic.

16 (j) IMPROVED INFLUENZA THERAPEUTICS.—The Di-
17 rector of the Biomedical Advanced Research and Develop-
18 ment Authority may conduct or support improved influ-
19 enza therapeutics that—

20 (1) are more broadly protective; and

21 (2) meet the needs of high-risk and high-expo-
22 sure patients.

23 (k) REPORT.—Not later than 1 year after the date
24 of enactment of this Act, the Secretary of Health and
25 Human Services shall submit to the Congress a plan to

1 strengthen and diversify the public health and health care
2 workforce so as to ensure the capacity of such workforce
3 to effectuate advances pursuant to subsections (a) through
4 (j).

5 **SEC. 5. INCREASING INFLUENZA VACCINE AND THERA-**
6 **PEUTICS ACCESS AND COVERAGE ACROSS**
7 **ALL POPULATIONS.**

8 (a) **ANNUAL REPORT ON PUBLIC COMMUNICATION**
9 **STRATEGY.**—The Director of the Centers for Disease Con-
10 trol and Prevention shall submit an annual report to the
11 Congress on the public communication strategy of the
12 Centers to increase public confidence in the safety and ef-
13 fectiveness of vaccines.

14 (b) **SENSE OF CONGRESS.**—It is the sense of Con-
15 gress that the National Institutes of Health, the Director
16 of the Centers for Disease Control and Prevention, the
17 Secretary of Defense, the Secretary of Veterans Affairs,
18 the Administrator of the Centers for Medicare & Medicaid
19 Services, and the Commissioner of Food and Drugs should
20 support research using large data sets from multiple
21 sources of health data to further support and evaluate vac-
22 cine safety and effectiveness over multiple influenza sea-
23 sons.

24 (c) **ADDRESSING MISINFORMATION AND**
25 **DISINFORMATION.**—The Secretary of Health and Human

1 Services shall create partnerships to address misinforma-
2 tion and disinformation with respect to influenza vaccines.

3 (d) COMMUNICATIONS PUBLIC-PRIVATE PARTNER-
4 SHIP.—The Secretary of Health and Human Services may
5 provide for the establishment of a communications public-
6 private partnership initiative for increasing vaccine con-
7 fidence that—

8 (1) includes an independent, nongovernmental,
9 nonprofit entity;

10 (2) supports behavioral research evaluating in-
11 dividual behavior analysis and influence;

12 (3) identifies and targets vaccine hesitant indi-
13 viduals; and

14 (4) provides information on vaccine safety and
15 effectiveness.

16 (e) INCORPORATING HEALTH EQUITY INTO SEA-
17 SONAL AND PANDEMIC INFLUENZA PLANNING AND RE-
18 SPONSE.—The Director of the Centers for Disease Control
19 and Prevention and the Assistant Secretary for Prepared-
20 ness and Response shall—

21 (1) incorporate health equity into the seasonal
22 and pandemic influenza planning and response pro-
23 grams overseen by such officials; and

24 (2) in so doing—

1 (A) emphasize the inclusion of all popu-
2 lations; and

3 (B) include strategies to reach commu-
4 nities of color, communities with lower socio-
5 economic status, seniors, and individuals with
6 disabilities.

7 (f) REPORT ON LESSONS LEARNED FROM COVID-
8 19 FEDERAL RETAIL PHARMACY PROGRAM.—Not later
9 than 6 months after the date of enactment of this Act,
10 the Secretary of Health and Human Services shall—

11 (1) submit a report to the Congress on lessons
12 learned from the COVID-19 Federal Retail Phar-
13 macy Program; and

14 (2) identify positive aspects of such Program
15 that could be applied with respect to influenza.

16 (g) CREATING ADMINISTRATION PATHWAYS.—The
17 Secretary of Health and Human Services may award
18 grants to States to create administration pathways for
19 pharmacy personnel to administer influenza vaccines, in
20 order to increase vaccination rates for adults and children.

21 (h) STRATEGIC NATIONAL STOCKPILE.—The Sec-
22 retary of Health and Human Services shall incorporate
23 into the Strategic National Stockpile under section 319F-
24 2 of the Public Health Service Act (42 U.S.C. 247d-6b)

1 products needed to respond to pandemic influenza, includ-
2 ing through—

3 (1) dynamic management of aging antivirals;

4 and

5 (2) diversification of stockpiled products.

6 (i) MONITORING AND DISTRIBUTING INFLUENZA
7 ANTIVIRAL SUPPLIES.—The Secretary of Health and
8 Human Services shall—

9 (1) monitor influenza antiviral supplies
10 throughout the country; and

11 (2) establish a process, to be used in pandemic
12 situations, to distribute products rapidly and effec-
13 tively to areas of urgent need in close coordination
14 with manufacturers and State and local health offi-
15 cials.

16 (j) PLAN FOR ENSURING ACCESS TO APPROPRIATE
17 INFLUENZA THERAPEUTICS AND PROPHYLAXIS.—

18 (1) IN GENERAL.—Not later than 1 year after
19 the date of enactment of this Act, the Secretary of
20 Health and Human Services shall publish a plan for
21 ensuring access to appropriate influenza therapeutics
22 and prophylaxis for—

23 (A) high-risk patients, such as nursing
24 home and pediatric patients; and

1 (B) high-exposure patients, such as first
2 responders and health care workers.

3 (2) COMMUNICATIONS EFFORTS.—The plan re-
4 quired by paragraph (1) shall include communica-
5 tions efforts to educate the public about the benefits
6 of early use of influenza therapeutics and prophylaxis.
7

8 **SEC. 6. AUTHORIZING SUSTAINABLE FUNDING FOR THE IN-**
9 **FLUENZA ECOSYSTEM.**

10 (a) INFLUENZA PLANNING AND RESPONSE PRO-
11 GRAM.—There is authorized to be appropriated
12 \$251,000,000 for fiscal year 2025 and each subsequent
13 fiscal year for programs and activities of the Centers for
14 Disease Control and Prevention relating to influenza plan-
15 ning and response.

16 (b) STRATEGIC NATIONAL STOCKPILE.—There is au-
17 thorized to be appropriated \$1,657,000,000 for fiscal year
18 2023 and each subsequent fiscal year for the Strategic
19 National Stockpile under section 319F–2 of the Public
20 Health Service Act (42 U.S.C. 247d–6b).

21 (c) HOSPITAL PREPAREDNESS PROGRAM.—There is
22 authorized to be appropriated \$474,000,000 for fiscal year
23 2023 and each subsequent fiscal year for Hospital Pre-
24 paredness Program of the Assistant Secretary for Pre-
25 paredness and Response.

1 (d) UNIVERSAL FLU VACCINE RESEARCH.—There is
2 authorized to be appropriated \$260,000,000 for fiscal year
3 2023 and each subsequent fiscal year for research of the
4 National Institutes of Health to develop a universal flu
5 vaccine.

6 (e) IMMUNIZATION PROGRAM.—There is authorized
7 to be appropriated \$1,130,000,000 for fiscal year 2023
8 and each subsequent fiscal year for the immunization pro-
9 gram of the Centers for Disease Control and Prevention
10 under section 317 of the Public Health Service Act (42
11 U.S.C. 247b).

12 (f) PUBLIC HEALTH EMERGENCY PREPAREDNESS
13 PROGRAM.—There is authorized to be appropriated
14 \$824,000,000 for fiscal year 2023 and each subsequent
15 fiscal year for the Public Health Emergency Preparedness
16 Program of the Centers for Disease Control and Preven-
17 tion.

18 (g) INFECTIOUS DISEASE RAPID RESPONSE RE-
19 SERVE FUND.—There is authorized to be appropriated
20 \$35,000,000 for fiscal year 2023 and each subsequent fis-
21 cal year for the Infectious Disease Rapid Response Re-
22 serve Fund of the Centers for Disease Control and Preven-
23 tion.

24 (h) DATA MODERNIZATION INITIATIVE.—There is
25 authorized to be appropriated \$250,000,000 for fiscal year

1 2023 and each subsequent fiscal year for the Public
2 Health Data Modernization Initiative of the Centers for
3 Disease Control and Prevention.

4 (i) HEALTH DEFENSE OPERATIONS BUDGET MAT-
5 TERS.—

6 (1) DESIGNATION.—Section 251(b)(2) of the
7 Balanced Budget and Emergency Deficit Control
8 Act of 1985 (2 U.S.C. 901(b)(2)) is amended by
9 adding at the end the following:

10 “(F) HEALTH DEFENSE OPERATIONS.—(i)
11 If, for any fiscal year, appropriations for discre-
12 tionary accounts are enacted that the Congress
13 designates in statute on an account by account
14 basis as being for health defense operations,
15 then the adjustment for that fiscal year shall be
16 the total of such appropriations for that fiscal
17 year.

18 “(ii) Any report or explanatory statement
19 accompanying an appropriations Act that con-
20 tains an account with amounts that are des-
21 ignated as being for health defense operations
22 pursuant to clause (i) shall specify each pro-
23 gram, project, or activity that will be funded by
24 such amounts, and a specific dollar amount pro-

1 vided for each such program, project, or activ-
2 ity.”.

3 (2) PROFESSIONAL BYPASS BUDGET.—Title IV
4 of the Public Health Service Act (42 U.S.C. 281 et
5 seq.) is amended by inserting after section 402B the
6 following:

7 **“SEC. 402C. HEALTH DEFENSE OPERATIONS PROFES-**
8 **SIONAL BYPASS BUDGET.**

9 “(a) IN GENERAL.—For fiscal year 2024 and each
10 fiscal year thereafter, the Director of the Centers for Dis-
11 ease Control and Prevention, the Director of the National
12 Institutes of Health, and the Assistant Secretary for Pre-
13 paredness and Response shall prepare and submit directly
14 to the President for review and transmittal to Congress,
15 after reasonable opportunity for comment, but without
16 change, by the Secretary of Health and Human Services,
17 an annual budget estimate (including an estimate of the
18 number and type of personnel needs for the Institutes)
19 for amounts to be designated as being for health defense
20 operations pursuant to subparagraph (F) of section
21 251(b)(2) of the Balanced Budget and Emergency Deficit
22 Control Act of 1985.

23 “(b) PROGRAMS, PROJECTS, AND ACTIVITIES.—Any
24 budget estimate submitted pursuant to subsection (a) by
25 the Director shall include any program, project, or activity

1 that received funds designated under such subparagraph
2 (F) for the fiscal year during which such budget is sub-
3 mitted, except that the Director may modify the programs,
4 projects, or activities contained in such budget estimate
5 as circumstances warrant.”.
