IN THE HOUSE OF REPRESENTATIVES

BOYLE of Pennsylvania, Mr. GRIJALVA, Mr. McEACHIN, Ms. JAYAPAL, and Ms. DELAURO) submitted the following resolution; which was referred to the Committee on Education and Labor, and in addition to the Committees on Energy and Commerce, Transportation and Infrastructure, Natural Resources, and Agriculture, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

RESOLUTION

Recognizing the duty of the Federal Government to implement an agenda to Transform, Heal, and Renew by Investing in a Vibrant Economy (“THRIVE”).

Whereas families and communities throughout the United States share similar hopes and dreams of a good life that is free from worry about meeting basic needs, with reliable and fulfilling work, a dignified and healthy standard of living, and the ability to enjoy time with loved ones;

Whereas the United States faces the stress of multiple, overlapping crises—old and new—that prevent the achievement of these fundamental human rights and needs, in which the COVID–19 pandemic has killed over 400,000 United States residents; more than 10,000,000 United States workers remain unemployed; rising economic inequality has made working families vulnerable; tens of millions of individuals do not get the health care they need; and intensifying climate change increases the threats to our health, economy, and livelihoods;

Whereas these health, economic, and climate crises have magnified centuries-old injustices, causing high rates of death and hardship among Black, Brown, and Indigenous communities due to long-standing systemic racism—a fact spotlighted by an emerging, multiracial movement to end violence against Black people;

Whereas these crises are causing the inequitable workloads of women—particularly women of color—to grow, especially as women of color overwhelmingly make up the essential workforce, bearing the weight of the increased care needs of children, the elderly, and the sick;

Whereas, even before the COVID–19 crisis, many rural communities and independent family farmers suffered from poverty, declining economic opportunity, and alarming rates of farm bankruptcy, including loss of land from Black farmers and the exploitation of Black, Brown, and Indigenous farmers caused by predatory and racist public, private, and governmental institutions and policies;

Whereas the root of our interlocking economic and environmental crises is society’s historical willingness to treat some communities and workers as disposable;

Whereas it is necessary to counteract systemic injustice and value the dignity of all individuals in order to address unemployment, pandemics, or climate change and ensure the survival of the Nation and the planet;

Whereas the choices made in response to these crises will shape the United States direction for the 21st century and beyond, offering an opportunity to reshape our society to provide a good life for each of us and for our children and grandchildren; and

Whereas the United States has the means to support fulfilling livelihoods for millions of people—Black, Indigenous, Brown, Latinx, Asian/Pacific Islander, White, immigrant, urban and rural, old and young, of many faiths, genders, abilities, and talents—while working to heal harms, protect communities, and invest in a future that fosters justice, not crisis: Now, therefore, be it

1 *Resolved*, That it is the sense of the House of Rep-
2 resentatives that—

3 (1) it is the duty of the Federal Government to
4 respond to the crises of racial injustice, mass unem-
5 ployment, a pandemic, and climate change with a
6 bold and holistic national mobilization, an Agenda to
7 Transform, Heal, and Renew by Investing in a Vi-
8 brant Economy (“THRIVE”) (referred to in this re-
9 solving clause as the “Agenda”), to build a society
10 that enables—

11 (A) greater racial, economic, and gender
12 justice;

25 wetlands, forests, and public lands,

1 and cleaning up pollution in our com-
2 munities;

19 wages and benefits, including child
20 care support;

21 (II) ensure safe workplaces;

8 jobs, as well as millions of existing low-
9 wage jobs across the economy, become the
