## RESOLUTION

Expressing support for the inaugural Heart Recovery  
Awareness Day on February 20, 2025.

Whereas cardiovascular disease is the leading cause of death  
both globally and in the United States;

Whereas one-third of all global deaths in 2021 were caused  
by a cardiovascular condition;

Whereas cardiovascular disease accounted for 12 percent of  
total United States health expenditures from 2018–2019;

Whereas heart recovery, which preserves the native heart, is  
a burgeoning field of medicine;

Whereas heart recovery will positively impact Medicare re-  
sources through reduced hospital expenditures, reduced  
length of hospital stays, and fewer repeat hospital visits;

Whereas heart recovery is increasingly helping patients live longer and fuller lives with their native hearts intact; and

Whereas February 20, 2025, is designated to observe Heart Recovery Awareness Day:

Now, therefore, be it

1       *Resolved*, That the House of Representatives sup-  
2 ports—

3           (1) the goals of Heart Recovery Awareness  
4 Day;

5           (2) increasing awareness of innovative treat-  
6 ments available to patients with cardiovascular dis-  
7 ease;

8           (3) improving outcomes and quality of life for  
9 patients with heart failure; and

10          (4) expanding access to treatments that change  
11 the standard of care for heart failure, such that all  
12 Americans regardless of age, gender, or geography  
13 can have an opportunity to preserve their native  
14 heart.
