A BILL

To ensure affordable abortion coverage and care for every person, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Equal Access to Abor-
5 tion Coverage in Health Insurance Act of 2021” or the
6 “EACH Act of 2021”.

1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) All people should have access to abortion
4 services regardless of actual or perceived race, color,
5 ethnicity, language, ancestry, citizenship, immigra-
6 tion status, sex (including a sex stereotype; preg-
7 nancy, childbirth, or a related medical condition;
8 sexual orientation or gender identity; and sex char-
9 acteristics), age, disability, or sex work status or be-
10 havior.

11 (2) A person's income level, wealth, or type of
12 insurance should not prevent them from having ac-
13 cess to a full range of pregnancy-related health care,
14 including abortion services.

15 (3) No person should have the decision to have,
16 or not to have, an abortion made for them based on
17 the ability or inability to afford the health care serv-
18 ice.

19 (4) Since 1976, the Federal Government has
20 banned the use of Federal funds to pay for abortion
21 services and allows for exceptions only in very nar-
22 row circumstances. This ban affects people of repro-
23 ductive age in the United States who are insured
24 through the Medicaid program, as well as individuals
25 who receive insurance or care through other feder-
26 ally funded health programs and plans.

1 (5) Women make up the majority of Medicaid
2 enrollees (54 percent) and, in 2019, approximately
3 14,000,000 women of reproductive age relied on the
4 program for care. Due to systematic barriers and
5 discrimination, a disproportionately higher number
6 of women of color and Lesbian, Gay, Bisexual,
7 Transgender, or Queer (LGBTQ) individuals are en-
8 rolled in the program.

9 (6) Women of color are more likely to be in-
10 sured by the Medicaid program. Nationwide, 29 per-
11 cent of Black women and 25 percent of Hispanic
12 women aged 15 to 49 were enrolled in Medicaid in
13 2018, compared with 15 percent of White women.

14 (7) In the aggregate, nearly one-fifth (19 per-
15 cent) of Asian-American and Pacific-Islander women
16 are enrolled in the Medicaid program, while enroll-
17 ment rates for certain Asian ethnic subgroups are
18 much higher (at 62 percent of Bhutanese women, 43
19 percent of Hmong women and 32 percent of Paki-
20 stani women).

21 (8) Medicaid also provides coverage to more
22 than 1 in 4 (27 percent) non-elderly American In-
23 dian and Alaska Native (AIAN) adults and half of
24 AIAN children.

1 (9) In a 2014 nationwide survey of LGBT peo-
2 ple with incomes less than 400 percent Federal Pov-
3 erty Level (FPL), 61 percent of all respondents had
4 incomes in the Medicaid expansion range—up to
5 138 percent of the FPL—including 73 percent of
6 African-American respondents, 67 percent of Latino
7 respondents, and 53 percent of White respondents.
8 Another survey found that 32 percent of Asian and
9 Native Hawaiian/Pacific Islander transgender people
10 were living in poverty.

11 (10) Of women aged 15 through 44 enrolled in
12 Medicaid in 2018, 55 percent lived in the 34 States
13 and the District of Columbia where Medicaid does
14 not cover abortion services except in limited cir-
15 cumstances. This amounted to 7,200,000 women of
16 reproductive age, including 3,000,000 women living
17 below the FPL. Of this population, Black, Indige-
18 nous, and other People of Color (BIPOC) women ac-
19 counted for 51 percent of those enrolled.

20 (11) The Indian Health Service (IHS) is the
21 federally funded health program for American Indi-
22 ans and Alaska Natives. The IHS serves a popu-
23 lation of approximately 2,560,000 and as a federally
24 funded system, since 1988, it has been barred from
25 providing abortion services except for very limited

1 cases. American Indians and Alaska Natives often
2 face higher levels of poverty and limited access to
3 health care for a number of intersecting oppressions
4 thus leaving them without recourse for the Federal
5 ban on abortion services.

6 (12) Moreover, 26 States also prohibit coverage
7 of abortion services in the marketplaces and 11 pro-
8 hibit coverage in private health insurance plans
9 under the Patient Protection and Affordable Care
10 Act (Public Law 111–148).

11 (13) A recent report details how restrictions on
12 abortion services coverage interfere with a person’s
13 individual decision making, with their health and
14 well-being, with their economic security, with their
15 vulnerability to intimate partner violence, and with
16 their constitutionally protected right to a safe and
17 normal health care service.

18 (14) About 25 percent of women covered by
19 Medicaid seeking abortion services must carry their
20 pregnancies to term because they are unable to ob-
21 tain funds for their care. Government-imposed bar-
22 riers to abortion services restrict people’s decisions
23 on if, when, and how to parent, and have long-last-
24 ing and life-altering harmful effects on the pregnant
25 person, their families and their communities. Those

1 who seek and are denied abortion services are more
2 likely to remain in or fall into poverty than those
3 who access the care they need.

4 (15) Restrictions on abortion service coverage
5 have a disproportionately harmful impact on women
6 with low incomes, women of color, immigrant
7 women, LGBTQ people, and young women. Addi-
8 tionally, numerous State-imposed barriers make it
9 disparately difficult for low-income people, people of
10 color, immigrants, LGBTQ people, and young people
11 to access the health care and resources necessary to
12 prevent unintended pregnancy or to assure that they
13 are able to carry healthy pregnancies to term. Fur-
14 thermore, young people of reproductive age (ages 15
15 to 24) are more likely to have a lower income than
16 those older than that, and this income gap is greater
17 for young BIPOC. More than 40 percent of youth
18 and children under age 19 and almost a quarter of
19 young people age 19 to 25 have health insurance
20 through government programs. Without insurance
21 coverage for abortion services, young people are at
22 greater risk of not having the economic means to af-
23 ford care outside of insurance. Young people face
24 disproportionate access barriers to abortion services,
25 including parental involvement requirement (notifi-

1 cation and consent) and cost, in addition to barriers
2 to contraception and inadequate and incomplete sex-
3 ual and sexuality education. These challenges, which
4 are magnified for BIPOC and queer, trans, and non-
5 binary youth, can cause significant delays in access
6 to needed care, and could ultimately harm the life of
7 the young person seeking abortion services. These
8 institutionalized barriers deny young people’s right
9 to bodily autonomy and can force young people to
10 encounter an abusive parent or guardian, ignores
11 trusted relationships young people may have with
12 adults other than a parent or legal guardian, and in
13 the case of the judicial bypass process, may force
14 young BIPOC to interact with a legal system that
15 has historically targeted and caused harm to com-
16 munities of color.

17 (16) These and other government-created and
18 government-institutionalized barriers—including the
19 restriction on funding for abortion services in Fed-
20 eral programs—exacerbate and create poverty and
21 racial inequality in income, wealth-generation, and
22 access to services.

23 (17) Access to health care, including abortion
24 services, promotes the general welfare of people liv-
25 ing in the United States. Singling out abortion serv-

1 ices for funding restrictions in health care programs
2 otherwise designed to promote the health and well-
3 being of people in the United States has cost preg-
4 nant people their lives, their livelihoods, their ability
5 to obtain or maintain economic security for them-
6 selves and their families, their ability to meet their
7 family’s basic needs, their ability to continue their
8 education without disruption, and their ability to
9 break free of abusive relationships.

10 (18) Like other health care and health insur-
11 ance markets in the United States, abortion services
12 and public insurance programs are commercial ac-
13 tivities that affect interstate commerce. Providers
14 and patients travel across State lines, and otherwise
15 engage in interstate commerce, to provide and access
16 abortion services. Material goods, services, and fed-
17 erally regulated medications used in abortion serv-
18 ices circulate in interstate commerce.

19 (19) Congress has the authority to enact this
20 Act to ensure affordable coverage of abortion serv-
21 ices pursuant to—

22 (A) its powers under the necessary and
23 proper clause of Section 8, Article I of the Con-
24 stitution of the United States;

1 (B) its powers under the commerce clause
2 of Section 8, Article 1 of the Constitution of the
3 United States;

4 (C) its powers to tax and spend for the
5 general welfare under Section 8, Article 1 of
6 the Constitution of the United States; and

7 (D) its powers to enforce section 1 of the
8 Fourteenth Amendment under Section 5 of the
9 Fourteenth Amendment to the Constitution of
10 the United States.

11 (20) Congress has exercised these constitutional
12 powers to create, expand, and insure health care ac-
13 cess for people in the United States for decades.
14 Pursuant to this constitutional authority, Congress
15 has enacted, and subsequently reauthorized, numer-
16 ous health care programs including title XVIII of
17 the Social Security Act (Medicare, enacted in 1965);
18 title XIX of the Social Security Act (Medicaid, en-
19 acted in 1965); and title XXI of the Social Security
20 Act (Children’s Health Insurance Program, enacted
21 in 1997).
