

117TH CONGRESS
1ST SESSION

S. 1181

To authorize the establishment of HOPE Account Pilot Projects, HOPE Action Plans Pilot Projects, and competitive grants for pilot projects.

IN THE SENATE OF THE UNITED STATES

APRIL 15, 2021

Mrs. GILLIBRAND introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To authorize the establishment of HOPE Account Pilot Projects, HOPE Action Plans Pilot Projects, and competitive grants for pilot projects.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Health, Opportunity,
5 and Personal Empowerment Act of 2021” or the “HOPE
6 Act of 2021”.

7 **SEC. 2. FINDINGS.**

8 Congress finds the following:

9 (1) In 2018, according to the Department of
10 Agriculture, 37,200,000 individuals in the United

1 States (including 11,100,000 children) lived in food
2 insecure households. That equals 1 in 9 individuals
3 and 1 in 7 children.

4 (2) In 2020, during the COVID–19 pandemic,
5 food insecurity in the United States soared, with the
6 Census Household Pulse Survey finding that at least
7 22 percent of Americans, and 28 percent of children
8 in the United States, suffered from food insecurity
9 in the height of the pandemic.

10 (3) In 2018, according to the Bureau of the
11 Census, 34,000,000 individuals (including
12 10,500,000 children) lived below the Federal poverty
13 line. The majority of these individuals living in pov-
14 erty were working people, children, older individuals,
15 and individuals with disabilities.

16 (4) Many low-income individuals work multiple
17 jobs and, contrary to common misconceptions, if un-
18 employed, they spend a great deal of time looking
19 for work. They often travel by public transportation,
20 laboriously making multiple connections to shuttle
21 between home, work, social service agencies, houses
22 of worship, and grocery stores. For those living in
23 rural and suburban areas far from work and without
24 adequate public transportation they rely upon vehi-
25 cles to get to work, but these are often less reliable

1 secondhand vehicles, that often break down. From
2 traveling greater distances between available jobs
3 and livable areas with affordable housing options,
4 seeking out scarce childcare options that fit a tight
5 budget and a constrained travel schedule, and caring
6 for elderly parents or grandparents because a senior
7 living facility is not financially realistic, low-income
8 individuals have little spare time.

9 (5) While government safety net programs help
10 tens of millions of individuals avoid starvation,
11 homelessness, and other outcomes even more dread-
12 ful than everyday poverty, there are significant ob-
13 stacles that those seeking and maintaining govern-
14 ment assistance face for as long as they are eligible.
15 Qualified applicants are often required to travel sig-
16 nificant distances to multiple government offices,
17 preparing and submitting piles of nearly identical
18 paperwork to access the different government assist-
19 ance programs. Even when the application process
20 begins online, the eligible applicant is typically still
21 required to physically follow up with each govern-
22 ment office with physical copies, for near identical
23 meetings. As a result, many low-income people are
24 actually unaware of all the government benefits for
25 which they are eligible, reducing the amount of help

1 going to individuals in need by tens of billions of
2 dollars every year. The lines in these offices can
3 seem endless, and sometimes clients need to wait
4 outside, for hours, in the worst kinds of weather.
5 Many offices don't have weekend or night hours, so
6 an applicant is at risk of losing wages when often
7 their only option is to apply for government help
8 during work hours.

9 (6) Each year, many vital government programs
10 go underutilized because eligible beneficiaries are
11 hindered by obtrusive, time consuming, and repet-
12 itive application barriers. In 2017, according to the
13 Department of Agriculture, 16 percent of all people
14 eligible for supplemental nutrition assistance pro-
15 gram (SNAP), 53 percent of the "working poor" eli-
16 gible for SNAP, and 52 percent of adults over 60
17 who were eligible failed to receive it.

18 (7) The United States has hundreds of thou-
19 sands of nonprofit groups providing high quality and
20 much needed social services, but it is nearly impos-
21 sible for struggling people to determine which of
22 those organizations provides services they need,
23 whether the organization is conveniently located, and
24 for which services they are eligible. If they do deter-
25 mine that a nonprofit (or multiple nonprofits) could

1 help, they need to take yet more time to visit each
2 one.

3 (8) Since many government and nonprofit pro-
4 grams require frequent reapplications and recertifi-
5 cations, a low-income person often has to repeat the
6 same endless and frustrating process.

7 (9) Technology has fundamentally revamped the
8 lives of most individuals, usually for the better. Ac-
9 cording to the Pew Research Center, 71 percent of
10 low-income individuals have a smart phone as of
11 2019 (not because a smart phone is a luxury but be-
12 cause it is an essential tool of learning and work in
13 modern America) but they rarely can use these de-
14 vices to apply for benefits. Digital technology, com-
15 bined with policy improvements, can simplify the
16 lives and boost the long-term self-sufficiency of our
17 lowest income residents.

18 **SEC. 3. DEFINITIONS.**

8 target populations of individuals to partner with govern-
9 ment and nonprofit organizations by entering into vol-
10 untary agreements to carry out long-term HOPE action
11 plans that—

12 (1) specify exactly how the parties to such plans
13 will help such individuals and their families earn,
14 learn, and save better in order to ensure greater eco-

6 the long-run, the extent to which the accuracy and

24 which the pilot makes it easier, quicker, and less costly
25 for low-income individuals to access a variety of benefits,

1 the extent to which the pilot will save administrative funds
2 over the long-term, the extent to which the accuracy and
3 integrity of the benefits programs included are maintained
4 or improved, and the extent to which low-income house-
5 holds are able to more easily obtain free or low-cost bank-

13 county that has had 20 percent or more of its popu-
14 lation living in poverty over the past 30 years, as
15 measured by the 1990, 2000, and 2010 decennial
16 censuses.
