1ST SESSION

S. 1308

To amend the National Energy Conservation Policy Act to encourage the increased use of performance contracting in Federal facilities.

IN THE SENATE OF THE UNITED STATES

JULY 16 (legislative day, JULY 15), 2013

Mr. COONS introduced the following bill; which was read twice and referred to the Committee on Energy and Natural Resources

A BILL

To amend the National Energy Conservation Policy Act to encourage the increased use of performance contracting in Federal facilities.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Energy Savings
5 Through Public-Private Partnerships Act of 2013”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) Private sector funding and expertise can
9 help address the energy efficiency challenges facing
10 the United States.

1 (2) The Federal Government spends more than
2 \$6 billion annually in energy costs.

3 (3) Reducing Federal energy costs can help
4 save money, create jobs, and reduce waste.

5 (4) Energy savings performance contracts and
6 utility energy service contracts are tools for utilizing
7 private sector investment to upgrade Federal facil-
8 ties without any up-front cost to the taxpayer.

9 (5) Performance contracting is a way to retrofit
10 Federal buildings using private sector investment in
11 the absence of appropriated dollars. Retrofits seek to
12 reduce energy use, improve infrastructure, protect
13 national security, and cut facility operations and
14 maintenance costs.

15 **SEC. 3. USE OF ENERGY EFFICIENCY MEASURES IN FED-
16 ERAL BUILDINGS.**

18 FICIENCY MEASURES.—Section 543(f)(4) of the National
