

115TH CONGRESS
1ST SESSION

S. 1354

To establish an Individual Market Reinsurance fund to provide funding for State individual market stabilization reinsurance programs.

IN THE SENATE OF THE UNITED STATES

JUNE 14, 2017

Mr. CARPER (for himself, Mr. KAINE, Mrs. SHAHEEN, Mr. NELSON, Ms. HASSAN, and Mr. CARDIN) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To establish an Individual Market Reinsurance fund to provide funding for State individual market stabilization reinsurance programs.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Individual Health In-
5 surance Marketplace Improvement Act”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

8 (1) Before the passage of the Patient Protec-
9 tion and Affordable Care Act (Public Law 114–148)

1 in 2010, Americans with pre-existing conditions
2 faced unfair barriers to accessing health insurance
3 coverage and health care costs had risen rapidly for
4 decades.

5 (2) Since 2010, the rate of uninsured Ameri-
6 cans has declined to a historic low, with more than
7 20,000,000 Americans gaining access to health in-
8 surance coverage.

9 (3) Since 2010, America has experienced the
10 slowest growth in the price of health care in over
11 five decades.

12 (4) Thanks to the Patient Protection and Af-
13 fordable Care Act (Public Law 114–148), Americans
14 can no longer be denied insurance or charged more
15 on the basis of their health status, more Americans
16 than ever have insurance, and the health care they
17 receive is continually improving.

18 (5) Starting in 2016, independent, non-partisan
19 organizations, including the Congressional Budget
20 Office, have determined that the individual health
21 insurance markets have stabilized and improved.

22 (6) The cost-sharing reduction payments in the
23 Patient Protection and Affordable Care Act provide
24 stability in the individual health insurance market,
25 lower insurance premiums by nearly 20 percent, and

1 encourage competition among health insurers. The
2 payments reduce costs for approximately 6,000,000
3 people with incomes below 250 percent of the pov-
4 erty line by an average of about \$1,100 per person
5 and should be increased to help more Americans.

6 (7) Risk mitigation programs, such as the rein-
7 surance program for the Medicare Part D prescrip-
8 tion drug benefit program, have provided additional
9 stability to the health insurance markets, restrained
10 premium growth, and lowered taxpayer costs by
11 helping health insurers predict and bear risk associ-
12 ated with managing health care costs for a popu-
13 lation.

14 (8) From 2014 to 2016, the temporary reinsur-
15 ance program established under the Affordable Care
16 Act helped to stabilize the new insurance market-
17 places and reduced insurance premiums in the indi-
18 vidual health insurance market by as much as 10
19 percent.

20 (9) Throughout his Presidential campaign, the
21 President of the United States repeatedly promised
22 the American people that his health care plan will
23 result in reduced rates of uninsured, lower costs,
24 and higher quality care, stating on January 14,
25 2017, that “We’re going to have insurance for every-

1 body. There was a philosophy in some circles that if
2 you can't pay for it, you don't get it. That's not
3 going to happen with us"; and on January 25, 2017,
4 that "I can assure you, we are going to have a bet-
5 ter plan, much better health care, much better serv-
6 ice treatment, a plan where you can have access to
7 the doctor that you want and the plan that you
8 want. We're gonna have a much better health care
9 plan at much less money".

10 (10) The goal of any health care legislation
11 should be to build on the Affordable Care Act to
12 continue expanding coverage and make health care
13 more affordable for Americans. Improving afford-
14 ability and expanding coverage will also broaden the
15 individual market risk pool, contributing to lower
16 premiums and strengthening market stability.

17 **SEC. 3. INDIVIDUAL MARKET REINSURANCE FUND.**
