

118TH CONGRESS
1ST SESSION

S. 1773

To amend the Public Health Service Act to provide for a national outreach and education strategy and research to improve behavioral health among the Asian American, Native Hawaiian, and Pacific Islander population, while addressing stigma against behavioral health treatment among such population.

IN THE SENATE OF THE UNITED STATES

MAY 31 (legislative day, MAY 30), 2023

Ms. HIRONO (for herself, Ms. CORTEZ MASTO, and Mr. BOOKER) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To amend the Public Health Service Act to provide for a national outreach and education strategy and research to improve behavioral health among the Asian American, Native Hawaiian, and Pacific Islander population, while addressing stigma against behavioral health treatment among such population.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Stop Mental Health
5 Stigma in Our Communities Act”.

1 **SEC. 2. DEFINITIONS.**

2 In this Act:

3 (1) AANHPI.—The term “AANHPI” means
4 Asian American, Native Hawaiian, and Pacific Is-
5 lander.

6 (2) SECRETARY.—Except as otherwise speci-
7 fied, the term “Secretary” means the Secretary of
8 Health and Human Services.

9 **SEC. 3. FINDINGS.**

10 Congress finds the following:

11 (1) The AANHPI community is among the
12 fastest growing population groups in the United
13 States. It is a diverse population representing over
14 30 countries, making up more than 50 distinct eth-
15 nic groups, and speaking more than 100 languages
16 and dialects.

17 (2) There is a growing mental health crisis in
18 the United States, particularly for AANHPI individ-
19 uals. AANHPI individuals with mental health chal-
20 lenges have the lowest rates of mental health service
21 utilization compared to other racial or ethnic popu-
22 lations. In 2021, only 25 percent of Asian adults
23 with a mental health challenge received treatment in
24 the past year. Although suicide is the eleventh lead-
25 ing cause of death, it is the leading cause of death
26 for AANHPI youth. From 2018 to 2020, AANHPI

1 youth between the ages of 10 to 24 years were the
2 only racial or ethnic population in this age category
3 where suicide was the leading cause of death.

4 (3) Such mental health disparities within the
5 AANHPI community may be attributed to systemic
6 barriers to accessing mental health services, includ-
7 ing stigma attached to mental health, limited avail-
8 ability of and access to culturally and linguistically
9 appropriate services, and insufficient research.

10 (4) Insufficient research on AANHPI commu-
11 nities often leads to an inaccurate representation of
12 their experiences and needs. It is imperative to
13 disaggregate AANHPI population data to better un-
14 derstand the range of mental health issues for each
15 subpopulation so that specific culturally and linguis-
16 tically appropriate solutions can be developed.

17 (5) Critical investments are necessary to reduce
18 stigma and improve mental health within AANHPI
19 communities, including increasing culturally and lin-
20 guistically appropriate outreach education and men-
21 tal health services, improving representation of
22 AANHPI individuals among behavioral health pro-
23 viders, and strengthening disaggregated data collec-
24 tion in research.

1 **SEC. 4. NATIONAL AANHPI BEHAVIORAL HEALTH OUT-**
 2 **REACH AND EDUCATION STRATEGY.**

3 Part D of title V of the Public Health Service Act
 4 (42 U.S.C. 290dd et seq.) is amended by adding at the
 5 end the following new section:

 15 waiian, and Pacific Islander individuals or communities,

 17 strategy to promote behavioral health and reduce stigma
 18 associated with mental health and substance use disorders
 19 within the Asian American, Native Hawaiian, and Pacific

2 groups, such as gender, gender identity, age, sexual
3 orientation, or ethnicity;

5 turally and linguistically appropriate, and adapted
6 interventions and treatments;

9 velopment and implementation of materials; and

11 both individuals in Asian American, Native Hawai-
12 ian, and Pacific Islander communities and stake-
13 holders serving such communities to use a com-
