1 *Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

1 SEC. 2. FINDINGS; PURPOSE.

2 (a) FINDINGS.—Congress finds that—

3 (1) healthy populations of fish depend on the
4 conservation, protection, restoration, and enhance-
5 ment of fish habitats in the United States;

6 (2) fish habitats (including wetlands, streams,
7 rivers, lakes, estuaries, and coastal and marine habi-
8 tats) perform numerous valuable environmental
9 functions that sustain environmental, social, and cul-
10 tural values, including recycling nutrients, purifying
11 water, attenuating floods, augmenting and maintain-
12 ing stream flows, recharging ground water, acting as
13 primary producers in the food chain, and providing
14 essential and significant habitat for plants, fish,
15 wildlife, and other dependent species;

16 (3) the extensive and diverse fish habitat re-
17 sources of the United States are of enormous signifi-
18 cance to the economy of the United States, pro-
19 viding—

(A) recreation for 60,000,000 anglers;

(B) more than 828,000 jobs and approximately \$115,000,000,000 in economic impact
in year relating to recreational fishing; and

(C) approximately 575,000 jobs and an additional \$36,000,000,000 in economic impact by year relating to commercial fishing;

(4) at least 40 percent of all threatened species
endangered species in the United States are di-

(5) certain fish species are considered to be ecological indicators of fish habitat quality, such that the presence of those species reflects high-quality habitat for fish species;

(6) loss and degradation of fish habitat, riparian habitat, water quality, and water volume caused by activities such as alteration of watercourses, stream blockages, water withdrawals and diversions, erosion, pollution, sedimentation, and destruction or modification of wetlands have—

(A) caused significant declines in fish populations throughout the United States, especially declines in native fish populations; and

(B) resulted in economic losses to the United States;

1 (7)(A) providing for the conservation and sus-
2 tainability of fish populations has not been fully re-
3 alized, despite federally funded fish and wildlife res-
4 toration programs and other activities intended to
5 conserve fish habitat; and

6 (B) conservation and sustainability may be sig-
7 nificantly advanced through a renewed commitment
8 and sustained, cooperative efforts that are com-
9 plementary to existing fish and wildlife restoration
10 programs and clean water programs;

11 (8) the National Fish Habitat Action Plan pro-
12 vides a framework for maintaining and restoring fish
13 habitats to perpetuate populations of fish species;

14 (9) the United States can achieve significant
15 progress toward providing fish habitats for the con-
16 servation and restoration of fish species through a
17 voluntary, nonregulatory incentive program that is
18 based on technical and financial assistance provided
19 by the Federal Government;

20 (10) the creation of partnerships between local
21 citizens, Indian tribes, Alaska Native organizations,
22 corporations, nongovernmental organizations, and
23 Federal, State, and tribal agencies is critical to the
24 success of activities to restore fish habitats;

(11) the Federal Government has numerous land and water management agencies that are critical to the implementation of the National Fish Habitat Action Plan, including—

(A) the United States Fish and Wildlife Service;

7 (B) the Bureau of Land Management;

8 (C) the National Park Service;

9 (D) the Bureau of Reclamation;

10 (E) the Bureau of Indian Affairs;

11 (F) the National Marine Fisheries Service;

12 (G) the Forest Service;

15 (I) the Environmental Protection Agency;

(A) the protection, restoration, and enhancement of the fish communities and fish habitats in the United States; and

(B) the development, operation, and long-term success of fish habitat partnerships and project implementation;

(14) the State and Territorial fish and wildlife agencies play a vital role in—

(B) the development, operation, and long-term success of fish habitat partnerships and project implementation; and

23 (b) PURPOSE.—The purpose of this Act is to encourage
24 and facilitate the formation of public-private partnerships among public agencies and other inter-

1 ested parties consistent with the mission and goals of the

2 National Fish Habitat Action Plan—

3 (1) to promote intact and healthy fish habitats;

4 (2) to improve the quality and quantity of fish
5 habitats and overall health of fish species;

6 (3) to increase the quality and quantity of fish
7 habitats that support a broad natural diversity of
8 fish and other aquatic species;

9 (4) to improve fish habitats in a manner that
10 leads to improvement of the annual economic output
11 from recreational, subsistence, and commercial fish-
12 ing;

13 (5) to enhance fish and wildlife-dependent
14 recreation;

15 (6) to coordinate and facilitate activities carried
16 out by Federal departments and agencies under the
17 leadership of—

18 (A) the Director of the United States Fish
19 and Wildlife Service;

20 (B) the Assistant Administrator for Fish-
21 eries of the National Oceanic and Atmospheric
22 Administration; and

23 (C) the Director of the United States Geo-
24 logical Survey; and

(7) to achieve other purposes in accordance with the mission and goals of the National Fish Habitat Action Plan.
