

118TH CONGRESS
2D SESSION

S. 4310

To exchange non-Federal land held by the Chugach Alaska Corporation for certain Federal Land in the Chugach Region, and for other purposes.

IN THE SENATE OF THE UNITED STATES

MAY 9, 2024

Ms. MURKOWSKI (for herself and Mr. SULLIVAN) introduced the following bill; which was read twice and referred to the Committee on Energy and Natural Resources

A BILL

To exchange non-Federal land held by the Chugach Alaska Corporation for certain Federal Land in the Chugach Region, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Chugach Alaska Land
5 Exchange Oil Spill Recovery Act of 2024”.

6 **SEC. 2. PURPOSE; FINDINGS.**

7 (a) PURPOSE.—The purposes of this Act are—

1 (1) to authorize, direct, and expedite the ex-
2 change of land and interests in land between Chu-
3 gach Alaska and the United States; and

4 (2) to consolidate Federal ownership of the sur-
5 face and subsurface estate of Federal land and in-
6 terests acquired under the Program.

7 (b) FINDINGS.—Congress finds that—

8 (1) on March 24, 1989, the oil tanker Exxon
9 Valdez ran aground in Prince William Sound, Alas-
10 ka, spilling 11,000,000 gallons of crude oil, spread-
11 ing in the months that followed and covering ap-
12 proximately 1,300 miles of coastline, with immense
13 impact for fish and wildlife and their habitats, and
14 for local industries and communities;

15 (2) civil settlement funds of \$900,000,000 paid
16 by Exxon to the United States and the State of
17 Alaska were used to establish the Exxon Valdez Oil
18 Spill Trustee Council (referred to in this section as
19 “EVOSTC”) and to develop the Program;

20 (3) through the Program, the EVOSTC dedi-
21 cated nearly 60 percent of the funds to acquire fee
22 title of, and conservation easements on, the surface
23 estate of more than 600,000 acres in the area im-
24 pacted by the oil spill, including 241,000 acres of
25 surface estate land and conservation easements in

1 the Chugach Region, giving the United States own-
2 ership of, and conservation easements on, 241,000
3 acres of formerly Native-owned land within the Chu-
4 gach Region;

5 (4) the conflict described in the Chugach Re-
6 gion Land Study Report and in this Act occurred
7 when surface estate was purchased by the EVOSTC
8 for conservation purposes while development rights
9 remained for the subsurface (dominant estate)
10 owned by Chugach Alaska, which shall be resolved
11 by Chugach Alaska trading 231,036 acres of sub-
12 surface estate under surface fee and conservation
13 easements on surface land owned by the Federal
14 Government for 65,403 acres of fee simple land
15 owned by the Federal Government;

16 (5) most of the surface land and conservation
17 easements on surface land in the Chugach Region
18 described in paragraph (3) that were acquired by the
19 EVOSTC were purchased from 4 Alaska Native Vil-
20 lage Corporations—

21 (A) Chenega Corporation;

22 (B) the English Bay (Nanwalek Corpora-
23 tion);

24 (C) the Eyak Corporation; and

25 (D) the Tatitlek Corporation;

1 (6) in accordance with section 14 of the Alaska
2 Native Claims Settlement Act (43 U.S.C. 1613),
3 when a Village Corporation selects and receives title
4 to the surface estate to fulfill its land entitlement,
5 the Regional Corporation receives title to the sub-
6 surface, resulting in split ownership between Alaska
7 Native entities from the same region;

8 (7) Chugach Alaska holds the dominant sub-
9 surface estate to approximately 241,000 acres of
10 surface land acquired by the EVOSTC from the Vil-
11 lage Corporations under paragraph (5) that is pro-
12 tected under the Program;

13 (8) none of the acquisitions described in para-
14 graph (5) by the EVOSTC included the subsurface
15 interests owned by Chugach Alaska, despite aware-
16 ness by the EVOSTC of the provisions in the Alaska
17 Native Claims Settlement Act (43 U.S.C. 1601 et
18 seq.) creating split ownership and the existing right
19 of the subsurface owner to use the surface if it con-
20 stitutes reasonable use in the development of sub-
21 surface resources;

22 (9) due to the split estate ownership described
23 in paragraph (8), which became a split between Chu-
24 gach Alaska and the Federal Government, there is
25 a clear conflict with the preservation goal of the Pro-

1 gram and the responsibility of Chugach Alaska, on
2 behalf of the Alaska Native shareholders of Chugach
3 Alaska, to develop the subsurface estate under the
4 land;

5 (10) recognizing the conflicts between the man-
6 dates in the Alaska Native Claims Settlement Act
7 (43 U.S.C. 1601 et seq.) on Native Corporations
8 and the goals of the Program, and the significant
9 social and economic impact of the Program on the
10 region and on Chugach Alaska and the land held by
11 Chugach Alaska, Congress directed, in section 1113
12 of the John D. Dingell, Jr. Conservation, Manage-
13 ment, and Recreation Act (Public Law 116–9; 133
14 Stat. 614), that the Bureau of Land Management
15 conduct a study and identify accessible and economi-
16 cally viable Federal land that could be exchanged
17 with Chugach Alaska, and to recommend exchange
18 options that would consolidate ownership of the sur-
19 face and subsurface estates of land in the Program;

20 (11) the Bureau of Land Management sub-
21 mitted the Chugach Region Land Study Report to
22 Congress in December 2022, over a year after the
23 18-month deadline;

24 (12) in the Chugach Region Land Study Re-
25 port, the Bureau of Land Management explained

1 that the Program acquisitions have greatly increased
2 the complexity and the costs of any development by
3 Chugach Alaska of its subsurface interests, signifi-
4 cantly reduced Native-owned land and Native control
5 over management of land in the region, and, along
6 with the larger oil spill cleanup effort, highly dis-
7 rupted the socio-cultural environment and economies
8 in the Alaska Native communities in the region;

9 (13) the Chugach Region Land Study Report
10 identifies land available for exchange from both the
11 Federal Government and Chugach Alaska to inform
12 a land exchange to address the impact of the Pro-
13 gram on Chugach Alaska and the ability of Chugach
14 Alaska to meet its responsibilities to its Native
15 shareholders under the Alaska Native Claims Settle-
16 ment Act (43 U.S.C. 1601 et seq.);

17 (14) the land exchange between Chugach Alas-
18 ka and the Federal Government in this Act—

19 (A) furthers objectives under the Alaska
20 Native Claims Settlement Act (43 U.S.C. 1601
21 et seq.), including balancing land selections be-
22 tween areas that are significant in cultural his-
23 tory and traditions and areas that have poten-
24 tial economic value for development; and

1 (B) facilitates more efficient Federal land
2 management of the Program by Federal acqui-
3 sition of nearly 231,000 acres of subsurface es-
4 tate that underlies federally owned surface fee
5 and conservation easements to perfect conserva-
6 tion of the surface, which is the purpose of the
7 Program; and

8 (15) the land exchange in this Act, based on
9 the findings in this section, is in the public interest.
