2 **SEC. 2. FINDINGS.**

3 Congress finds the following:

- 4 (1) The Bureau of Labor Statistics states that
 5 employment of social workers is expected to increase.
 6 The increase is expected to be greater than the aver-
 7 age increase in employment (estimated to be 22 per-
 8 cent) during the period of 2006 through 2016, dem-
 9 onstrating a substantial need for social workers. The
 10 need is even greater for social workers in the area
 11 of aging. The National Association of Social Work-
 12 ers Center for Workforce Studies estimates that 9
 13 percent of, or 30,000, licensed social workers spe-
 14 cialize in gerontology. By 2010, as more people
 15 reach the age of 65, the National Institute on Aging

1 projects that 60,000 to 70,000 social workers will be
2 needed.

3 (2) Social work salaries are among the lowest
4 for professionals in general and for those with mas-
5 ter's level educations in particular. A survey con-
6 ducted by the John A. Hartford Foundation found
7 that between 1992 and 1999 the annual rate of
8 wage growth for degree-holding social workers was
9 0.8 percent. According to the National Association
10 of Social Workers Center for Workforce Studies, 60
11 percent of full-time social workers earn between
12 \$35,000 and \$59,999 per year, with 25 percent
13 earning between \$40,000 and \$49,999 per year. So-
14 cial workers who earn lower salaries are more likely
15 to work in challenging agency environments and to
16 serve more vulnerable clients. They are also more
17 likely to leave the profession.

18 (3) According to one study by the Council on
19 Social Work Education, 68 percent of individuals
20 surveyed who held a master's degree in social work
21 graduated with an average debt of \$26,777. Addi-
22 tionally, the United States Public Interest Research
23 Group states that 37 percent of public 4-year grad-
24 uates have too much debt to manage as a starting
25 social worker. While social workers may be in posi-

1 tions that are personally fulfilling, due to their high
2 loan debt and low income, many struggle financially.

3 (4) Social work can be a dangerous profession.
4 According to the American Federation of State,
5 County, and Municipal Employees, 70 percent of
6 caseworkers report that front line staff in their
7 agency have been victims of violence or have received
8 threats of violence. Social workers are considerably
9 safer when measures such as use of global posi-
10 tioning systems, self-defense training, and conflict
11 prevention are implemented.

12 (5) According to a study by the University of
13 Michigan, approximately 1 in 7 adults over the age
14 of 70 have some form of dementia, and 9.7 percent
15 (or 2,400,000) of those found with dementia were
16 also found to have Alzheimer's disease. Social work-
17 ers in gerontology settings work with older adults,
18 including those with dementia, to support their phys-
19 iological, psychological, and social needs through
20 mental health therapy, caregiver and family coun-
21 seling, health education, program coordination, and
22 case management. Those professionals also assist
23 the hundreds of thousands of older persons who are
24 abused, neglected, frail, or vulnerable. Between 2000
25 and 2004, there was a 19.7 percent increase in the

1 total number of reports of elder and vulnerable adult
2 abuse and neglect.

3 (6) The Children's Defense Fund states that
4 every 36 seconds a child is confirmed as abused or
5 neglected. The Administration for Children and
6 Families states that 510,000 children were in the
7 United States foster care system in 2006. Most of
8 the children in foster care are placed in foster care
9 due to parental abuse or neglect. Research shows
10 that social workers in child welfare agencies are
11 more likely to find permanent homes for children
12 who were in foster care for 2 or more years. Unfor-
13 tunately, fewer than 40 percent of child welfare
14 workers are social workers.

15 (7) The Department of Health and Human
16 Services estimates that 26.2 percent of (or 1 in 4)
17 individuals in the United States age 18 or older ex-
18 periences a diagnosable mental health disorder. Ad-
19 ditionally, 1 in 5 children and adolescents experi-
20 ences a mental health disorder. At least 1 in 10, or
21 about 6,000,000, young people have a serious emo-
22 tional disturbance. Social workers provide the major-
23 ity of mental health counseling services in the
24 United States, and are often the only providers of
25 such services in rural areas.

1 (8) The Department of Veterans Affairs esti-
2 mates that there are 23,977,000 veterans in the
3 United States. More than 1,100,000 members of the
4 Armed Forces have been deployed to Iraq or Af-
5 ghanistan since 2001. A once declining veteran pop-
6 ulation is now surging and is in dire need of mental
7 health treatment to address issues such as post trau-
8 matic stress disorder, depression, drug and alcohol
9 addiction, and suicidal tendencies. Veterans make up
10 25 percent of homeless people in the United States,
11 even though veterans comprise only 11 percent of
12 the general population. Social workers working with
13 veterans and their families provide case manage-
14 ment, crisis intervention, mental health interven-
15 tions, housing and financial counseling, high risk
16 screening, and advocacy among other services. The
17 Department employs over 5,000 social workers and
18 is the single largest employer of social workers in
19 the Nation. Social workers in the Department also
20 coordinate the Community Residential Care Pro-
21 gram, the oldest and most cost effective of the De-
22 partment's extended care programs.

23 (9) The American Cancer Society estimates
24 that there were 1,437,180 new cases of cancer and
25 565,650 cancer deaths in 2008 alone. The incidence

1 of cancer will increase dramatically as the population
2 grows older. The Centers for Disease Control and
3 Prevention report that at the end of 2003 there were
4 1,039,000 to 1,285,000 people living with HIV or
5 AIDS in the United States. In 2006, 1,300,000 peo-
6 ple received care from hospice providers in the
7 United States. Health care and medical social work-
8 ers practice in areas related to all of those cir-
9 cumstances and provide outreach for prevention of
10 health issues, help individuals and their families
11 adapt to their circumstances, provide grief coun-
12 seling, and act as a liaison between individuals and
13 their medical team, helping patients make informed
14 decisions about their care.

15 (10) The National Center for Education Statis-
16 tics states that in 2005 the national dropout rate for
17 high school students was 9.3 percent. White stu-
18 dents dropped out at a rate of 5.8 percent. African-
19 American students dropped out at a rate of 10.7
20 percent. Hispanic students dropped out at a rate of
21 22.1 percent. Some vulnerable communities have
22 dropout rates of 50 percent or higher. Social work-
23 ers in school settings help students avoid dropping
24 out through early identification, prevention, inter-
25 vention, counseling, and support services.

1 (11) According to the Department of Justice,
2 every year more than 650,000 ex-offenders are re-
3 leased from Federal and State prisons. Social work-
4 ers employed in the corrections system address dis-
5 proportionate minority incarceration rates, provide
6 treatment for mental health problems and drug and
7 alcohol addiction, and work within as well as outside
8 of the prison to reduce recidivism and increase posi-
9 tive community reentry.
