

111TH CONGRESS
1ST SESSION

S. 901

To establish the Oregon Task Force on Sustainable Revenue for Counties,
and for other purposes.

IN THE SENATE OF THE UNITED STATES

APRIL 27, 2009

Mr. MERKLEY (for himself and Mr. WYDEN) introduced the following bill;
which was read twice and referred to the Committee on Energy and Nat-
ural Resources

A BILL

To establish the Oregon Task Force on Sustainable Revenue
for Counties, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Sustainable Revenue
5 for Oregon Counties Act of 2009”.

6 **SEC. 2. FINDINGS.**

7 Congress finds that—

8 (1) more than half of the land in the State of
9 Oregon is owned by the Federal Government;

1 (2) in many counties of the State, significant
2 portions of the land of the counties (often signifi-
3 cantly more than half of the land of the counties) is
4 owned by the Federal Government;

5 (3) the land described in paragraph (2) includes
6 Forest Service land and Oregon and California grant
7 land;

8 (4) the counties described in paragraph (2) are
9 unable to derive revenue from property taxes on land
10 owned by the Federal Government;

11 (5) historically, payments made by the Federal
12 Government based on revenues from harvesting tim-
13 ber (including Oregon and California grant land and
14 Forest Service payments) have provided a revenue
15 substitute for property taxes;

16 (6) the Secure Rural Schools and Community
17 Self-Determination Act of 2000 (16 U.S.C. 500
18 note; Public Law 106–393) augmented the payments
19 described in paragraph (5) because of a significant
20 decline in timber harvest revenues;

21 (7) Congress extended the payments described
22 in paragraph (6) for 1 year in 2007, and for 4 years
23 effective beginning in 2008, to provide time to de-
24 velop a long-term sustainable alternative to the pay-
25 ments described in paragraph (6);

1 (8) the prospects for a long-term extension are
2 uncertain because of concerns regarding Federal
3 budget deficits and long-term financial assistance to
4 local governments of the State;

5 (9) counties of the State that have historically
6 received the payments described in paragraph (5)
7 are in need of a sustainable, long-term revenue
8 source;

9 (10) there are opportunities for the conduct of
10 activities in the Federal forest land of the counties
11 of the State that could be structured to be economi-
12 cally and environmentally sustainable, including—

13 (A) the harvesting of timber (including
14 thinning to restore forest health) in a sustain-
15 able manner and in sustainable quantities;

16 (B) the removal of biomass material from
17 the forest land for—

18 (i) the generation of electricity; and

19 (ii) the production of cellulosic
20 biofuels;

21 (C) the conduct of activities that could—

22 (i) increase the sequestration by the
23 forest land of atmospheric carbon; or

24 (ii) provide other ecosystem services
25 for communities, such as clean water; and

- 1 (D) the conduct of recreational activities;
- 2 (11) other sources of revenue, including State
- 3 and local revenue sources, should also be considered
- 4 in selecting a sustainable, long-term revenue source;
- 5 and
- 6 (12) payments made by the Federal Govern-
- 7 ment could be continued under a variety of different
- 8 payment methodologies.
