

117TH CONGRESS
1ST SESSION

S. RES. 298

Designating July 15, 2021, as “National Leiomyosarcoma Awareness Day”
and the month of July 2021 as “National Sarcoma Awareness Month”.

IN THE SENATE OF THE UNITED STATES

JULY 13, 2021

Ms. STABENOW submitted the following resolution; which was referred to the
Committee on the Judiciary

RESOLUTION

Designating July 15, 2021, as “National Leiomyosarcoma
Awareness Day” and the month of July 2021 as “Na-
tional Sarcoma Awareness Month”.

Whereas sarcoma is a rare type of cancer that—

- (1) arises in the connective tissue of the body; and
- (2) accounts for approximately 1 percent of all newly
diagnosed cancers;

Whereas the National Institutes of Health designates sar-
coma, which contains approximately 70 different
subtypes, as a rare form of cancer;

Whereas sarcomas are largely resistant to current chemo-
therapy agents, immunotherapy agents, and radiation
therapies, posing a formidable challenge for researchers
and specialists;

Whereas sarcoma subtypes largely have not benefitted from immunotherapies because of the complexity of the DNA, genomes, and mutations associated with the many variations in the sarcoma subtype landscape;

Whereas leiomyosarcoma (referred to in this preamble as “LMS”) is a malignant, aggressive subtype of sarcoma derived from smooth muscle cells typically of uterine, gastrointestinal, or soft tissue origin that can metastasize to the bone, spine, brain, and liver;

Whereas the National Institutes of Health classifies LMS, which encompasses at least 4 different LMS subtypes, as a rare disease, accounting for approximately 15 percent of all sarcomas;

Whereas LMS primarily affects adults without regard to gender;

Whereas, with respect to LMS—

- (1) research and clinical trials remain complicated;
- and
- (2) survival and longevity remain difficult;

Whereas multidisciplinary care coordination teams, because of their expertise and experience, are critical to the health of sarcoma and LMS patients;

Whereas sarcoma and LMS research will—

- (1) allow medical professionals to improve the quality of care for affected patients;
- (2) lead to better clinical outcomes; and
- (3) promote longer survival for patients; and

Whereas increased education and awareness about sarcoma and LMS will contribute to the well-being of the communities of the United States: Now, therefore, be it

1 *Resolved*, That the Senate—

1 (1) designates July 15, 2021, as “National
2 Leiomyosarcoma Awareness Day”;

3 (2) designates the month of July 2021 as “Na-
4 tional Sarcoma Awareness Month”;

5 (3) recognizes the challenges faced by sarcoma
6 and leiomyosarcoma patients; and

7 (4) commends the dedication of organizations,
8 volunteers, researchers, and caregivers across the
9 United States working to improve the quality of life
10 of sarcoma and leiomyosarcoma patients and their
11 families.
