

112TH CONGRESS
2^D SESSION

S. RES. 416

Supporting the designation of April as Parkinson's Awareness Month.

IN THE SENATE OF THE UNITED STATES

MARCH 29, 2012

Ms. STABENOW (for herself, Mr. UDALL of Colorado, Mr. JOHANNNS, Mr. ISAKSON, Mr. BROWN of Ohio, Ms. LANDRIEU, and Mrs. HUTCHISON) submitted the following resolution; which was considered and agreed to

RESOLUTION

Supporting the designation of April as Parkinson's
Awareness Month.

Whereas Parkinson's disease is the second most common neurodegenerative disease in the United States, second only to Alzheimer's disease;

Whereas there is inadequate comprehensive data on the incidence and prevalence of Parkinson's disease, as of 2011, it is estimated that the disease affects from 500,000 to 1,500,000 people in the United States;

Whereas although research suggests the cause of Parkinson's disease is a combination of genetic and environmental factors, the exact cause and progression of the disease is still unknown;

Whereas there is no objective test for Parkinson’s disease,
and the rate of misdiagnosis can be high;

Whereas symptoms of Parkinson’s disease vary from person
to person and include tremors, slowness, difficulty with
balance, swallowing, chewing, speaking, rigidity, cognitive
problems, dementia, mood disorders, such as depression
and anxiety, constipation, skin problems, and sleep dis-
ruptions;

Whereas medications mask some symptoms of Parkinson’s
disease for a limited amount of time each day, often with
dose-limiting side effects;

Whereas ultimately the medications and treatments lose their
effectiveness, generally after 4 to 8 years, leaving the per-
son unable to move, speak, or swallow;

Whereas there is no cure, therapy, or drug to slow or halt
the progression of Parkinson’s disease; and

Whereas increased education and research are needed to help
find more effective treatments with fewer side effects
and, ultimately, an effective treatment or cure for Par-
kinson’s disease: Now, therefore, be it

1 *Resolved*, That the Senate—

2 (1) supports the designation of April as Parkin-
3 son’s Awareness Month;

4 (2) supports the goals and ideals of Parkinson’s
5 Awareness Month;

6 (3) continues to support research to find better
7 treatments, and eventually, a cure for Parkinson’s
8 disease;

1 (4) recognizes the people living with Parkin-
2 son's who participate in vital clinical trials to ad-
3 vance knowledge of the disease; and

4 (5) commends the dedication of local and re-
5 gional organizations, volunteers, and millions of
6 Americans across the country working to improve
7 the quality of life of persons living with Parkinson's
8 disease and their families.
