

117TH CONGRESS  
1ST SESSION

# S. RES. 461

Commemorating and supporting the goals of World AIDS Day.

---

IN THE SENATE OF THE UNITED STATES

NOVEMBER 30, 2021

Mr. BOOKER (for himself and Mr. SULLIVAN) submitted the following resolution; which was referred to the Committee on Foreign Relations

---

## RESOLUTION

Commemorating and supporting the goals of World AIDS  
Day.

Whereas, as of the end of 2020, an estimated 37,700,000 people were living with human immunodeficiency virus (HIV) or acquired immunodeficiency syndrome (AIDS), including 1,720,000 children;

Whereas, in the United States, more than 770,000 people with AIDS have died since the beginning of the HIV epidemic, including nearly 16,000 deaths among people with diagnosed HIV in 2019, with the disease disproportionately affecting communities of color;

Whereas each year nearly 40,000 people become newly diagnosed with HIV in the United States;

Whereas communities of color are disproportionately affected by HIV in the United States;

Whereas, in order to address the HIV epidemic in the United States, on August 18, 1990, Congress enacted the Ryan White Comprehensive AIDS Resources Emergency Act (Public Law 101–381; commonly referred to as the “Ryan White CARE Act”) to provide primary medical care and essential support services for people living with HIV who are uninsured or underinsured;

Whereas the Ryan White HIV/AIDS Program provides services and support for over half of all people diagnosed with HIV in the United States;

Whereas, to further focus attention on the HIV/AIDS epidemic among minority communities in the United States, in 1998 the Minority AIDS Initiative was established to provide funds to State and local institutions and organizations to best serve the health care costs and support the needs of racial and ethnic minorities living with HIV;

Whereas the United Nations Sustainable Development Goals established a global target to end AIDS as a public health threat by 2030;

Whereas, in order to further address the global HIV/AIDS epidemic, in 2003, Congress and the White House created the President’s Emergency Plan for AIDS Relief (PEPFAR);

Whereas the United States President’s Emergency Plan for AIDS Relief (PEPFAR) program remains the largest commitment in history by any country to combat a single disease;

Whereas, as of 2020, PEPFAR has supported treatment for approximately 17,200,000 people, and has enabled 2,800,000 infants of mothers living with HIV to be born HIV-free;

Whereas, in fiscal year 2020, PEPFAR directly supported HIV testing and counseling for 50,000,000 people;

Whereas the Global Fund to Fight AIDS, Tuberculosis and Malaria was launched in 2002, and, as of 2020, has helped provide antiretroviral therapy to approximately 21,900,000 people living with HIV/AIDS and to 686,000 pregnant women to prevent the transmission of HIV/AIDS to their children, saving an estimated 44,000,000 lives;

Whereas the United States is the largest donor to the Global Fund to Fight AIDS, Tuberculosis and Malaria, and every \$1 contributed by the United States leverages an additional \$2 from other donors, as required by law;

Whereas considerable progress has been made in the fight against HIV/AIDS, including a nearly 30-percent reduction in new HIV infections, an over 50-percent reduction in new HIV infections among children, and an over 45-percent reduction in the number of AIDS-related deaths between 2010 and 2020;

Whereas approximately 27,500,000 people had access to antiretroviral therapy in 2020, compared to only 7,800,000 people who had access to such therapy in 2010;

Whereas research funded by the National Institutes of Health found that HIV treatment not only saves the lives of people living with HIV, but people living with HIV on effective antiretroviral therapy and who are durably virally suppressed cannot sexually transmit HIV—proving that HIV treatment is prevention;

Whereas it is estimated that, without treatment, half of all infants living with HIV will die before their second birthday;

Whereas, despite the remarkable progress in combating HIV, significant challenges remain;

Whereas there were approximately 1,500,000 new HIV infections in 2020 globally, structural barriers continue to make testing and treatment programs inaccessible to highly vulnerable populations, and an estimated 6,100,000 people living with HIV globally still do not know their HIV status;

Whereas the Centers for Disease Control and Prevention reports that nearly 37,000 people were diagnosed with HIV in the United States in 2018 and 14 percent of the 1,200,000 people in the United States living with HIV are not aware of their HIV status;

Whereas men who have sex with men (MSM), particularly young MSM of color, are the population most affected by HIV in the United States;

Whereas southern States bear the greatest burden of HIV in the United States, accounting for 51 percent of new infections in 2018;

Whereas people living with HIV are frequently susceptible to other infections, such as hepatitis B and C and tuberculosis;

Whereas the opioid and heroin epidemics have led to increased numbers of new HIV infections among people who inject drugs, and the crisis has disproportionately affected nonurban areas, where HIV prevalence rates have been low historically and have limited services for HIV

prevention and treatment and substance use disorder treatment;

Whereas the COVID–19 pandemic has placed a significant burden on the public health systems across the United States and the globe;

Whereas December 1 of each year is internationally recognized as “World AIDS Day”; and

Whereas, in 2021, commemorations for World AIDS Day recognize the need for “Ending the HIV Epidemic: Equitable Access, Everyone’s Voice”: Now, therefore, be it

1       *Resolved*, That the Senate—

2           (1) supports the goals and ideals of World  
3       AIDS Day, including the goal to achieve zero new  
4       HIV infections, zero discrimination, and zero AIDS-  
5       related deaths;

6           (2) commends the efforts and achievements in  
7       combating HIV/AIDS through the Ryan White HIV/  
8       AIDS Treatment Extension Act, the Minority HIV/  
9       AIDS Initiative, the Centers for Disease Control and  
10      Prevention, the National Institutes of Health, the  
11      Substance Abuse and Mental Health Services Ad-  
12      ministration, the Office of Minority Health, and the  
13      Office of the Secretary of Health and Human Serv-  
14      ices;

15          (3) commends the efforts and achievements in  
16      combating HIV/AIDS made by PEPFAR, the Global

1 Fund to Fight AIDS, Tuberculosis and Malaria, and  
2 the Joint United Nations Programme on HIV/AIDS;

3 (4) supports efforts to end the HIV epidemic in  
4 the United States and around the world by 2030;

5 (5) supports continued funding for prevention,  
6 care, and treatment services, and research programs  
7 for communities impacted by HIV and people living  
8 with HIV in the United States and globally;

9 (6) urges, in order to ensure that an AIDS-free  
10 generation is achievable, rapid action by all countries  
11 toward further expansion and scale-up of  
12 antiretroviral treatment programs, including efforts  
13 to reduce disparities and improve access for children  
14 to life saving medications;

15 (7) encourages the scaling up of comprehensive  
16 prevention services, including biomedical and struc-  
17 tural interventions, to ensure inclusive access to pro-  
18 grams and appropriate protections for all people at  
19 risk of contracting HIV, especially in communities  
20 disproportionately impacted;

21 (8) calls for greater focus on the HIV-related  
22 vulnerabilities of women and girls, including women  
23 and girls at risk for or who have survived violence  
24 or faced discrimination as a result of the disease;

1           (9) supports continued leadership by the United  
2 States in domestic, bilateral, multilateral, and pri-  
3 vate sector efforts to fight HIV;

4           (10) encourages input from civil society in the  
5 development and implementation of domestic and  
6 global HIV policies and programs that guide the re-  
7 sponse;

8           (11) encourages and supports greater degrees  
9 of ownership and shared responsibility by developing  
10 countries in order to ensure the sustainability of the  
11 domestic responses to HIV/AIDS by those countries;  
12 and

13           (12) urges other members of the international  
14 community to sustain and scale up their support for  
15 and financial contributions to efforts around the  
16 world to combat HIV.
