

112TH CONGRESS
2D SESSION

S. RES. 529

Recognizing that the occurrence of prostate cancer in African-American men has reached epidemic proportions and urging Federal agencies to address that health crisis by supporting education, awareness outreach, and research specifically focused on how prostate cancer affects African-American men.

IN THE SENATE OF THE UNITED STATES

JULY 26, 2012

Mr. KERRY (for himself, Mr. CHAMBLISS, Mr. INOUE, Mr. WYDEN, Mr. AKAKA, and Mr. CARDIN) submitted the following resolution; which was considered and agreed to

RESOLUTION

Recognizing that the occurrence of prostate cancer in African-American men has reached epidemic proportions and urging Federal agencies to address that health crisis by supporting education, awareness outreach, and research specifically focused on how prostate cancer affects African-American men.

Whereas the incidence of prostate cancer in African-American men is more than one and a half times higher than in any other racial or ethnic group in the United States;

Whereas African-American men have the highest mortality rate of any ethnic and racial group in the United States,

dying at a rate that is approximately two and a half times higher than other ethnic and racial groups;

Whereas that rate of mortality represents the largest disparity of mortality rates in any of the major cancers;

Whereas prostate cancer can be cured with early detection and the proper treatment, regardless of the ethnic or racial group of the cancer patient;

Whereas African Americans are more likely to be diagnosed at an earlier age and at a later stage of cancer progression than all other ethnic and racial groups, leading to lower cure rates and lower chances of survival;

Whereas, for patients diagnosed early, studies show a 5-year survival rate of nearly 100 percent, but the survival rate drops significantly to 28 percent for patients diagnosed in late stages; and

Whereas recent genomics research has increased the ability to identify men at high risk for aggressive prostate cancer: Now, therefore, be it

1 *Resolved*, That the Senate—

2 (1) recognizes that prostate cancer has created
3 a health crisis for African-American men;

4 (2) recognizes the importance of health cov-
5 erage and access to care, as well as promoting in-
6 formed decisionmaking between men and their doc-
7 tors, taking into consideration the known risks and
8 potential benefits of screening and treatment options
9 for prostate cancer;

10 (3) urges Federal agencies to support—

1 (A) research to address and attempt to end
2 the health crisis created by prostate cancer;

3 (B) efforts relating to education, aware-
4 ness, and early detection at the grassroots level
5 to end that health crisis; and

6 (C) the Office of Minority Health of the
7 Department of Health and Human Services in
8 focusing on improving health and healthcare
9 outcomes for African Americans at an elevated
10 risk of prostate cancer; and

11 (4) urges investment by Federal agencies in re-
12 search focusing on the improvement of early detec-
13 tion and treatment of prostate cancer, such as the
14 use of—

15 (A) biomarkers to accurately distinguish
16 indolent forms of prostate cancer from lethal
17 forms; and

18 (B) advanced imaging tools to ensure the
19 best level of individualized patient care.
