53 Section 2. Section **78B-3-406** is amended to read:

54 **78B-3-406. Failure to obtain informed consent -- Proof required of patient --**
55 **Defenses -- Consent to health care.**

56 (1) (a) When a person submits to health care rendered by a health care provider, it is

57 presumed that actions taken by the health care provider are either expressly or impliedly
58 authorized to be done.

59 (b) For a patient to recover damages from a health care provider in an action based
60 upon the provider's failure to obtain informed consent, the patient must prove the following:

61 (i) that a provider-patient relationship existed between the patient and health care
62 provider;

63 (ii) the health care provider rendered health care to the patient;

64 (iii) the patient suffered personal injuries arising out of the health care rendered;

65 (iv) the health care rendered carried with it a substantial and significant risk of causing
66 the patient serious harm;

67 (v) the patient was not informed of the substantial and significant risk;

68 (vi) a reasonable, prudent person in the patient's position would not have consented to
69 the health care rendered after having been fully informed as to all facts relevant to the decision
70 to give consent; and

71 (vii) the unauthorized part of the health care rendered was the proximate cause of
72 personal injuries suffered by the patient.

73 (2) In determining what a reasonable, prudent person in the patient's position would do
74 under the circumstances, the finder of fact shall use the viewpoint of the patient before health
75 care was provided and before the occurrence of any personal injuries alleged to have arisen
76 from said health care.

77 (3) It shall be a defense to any malpractice action against a health care provider based
78 upon alleged failure to obtain informed consent if:

79 (a) the risk of the serious harm which the patient actually suffered was relatively
80 minor;

81 (b) the risk of serious harm to the patient from the health care provider was commonly
82 known to the public;

83 (c) the patient stated, prior to receiving the health care complained of, that he would
84 accept the health care involved regardless of the risk; or that he did not want to be informed of
85 the matters to which he would be entitled to be informed;

86 (d) the health care provider, after considering all of the attendant facts and
87 circumstances, used reasonable discretion as to the manner and extent to which risks were

88 disclosed, if the health care provider reasonably believed that additional disclosures could be
89 expected to have a substantial and adverse effect on the patient's condition; or

90 (e) the patient or the patient's representative executed a written consent which sets forth
91 the nature and purpose of the intended health care and which contains a declaration that the
92 patient accepts the risk of substantial and serious harm, if any, in hopes of obtaining desired
93 beneficial results of health care and which acknowledges that health care providers involved
94 have explained the patient's condition and the proposed health care in a satisfactory manner and
95 that all questions asked about the health care and its attendant risks have been answered in a
96 manner satisfactory to the patient or the patient's representative.

97 (4) The written consent shall be a defense to an action against a health care provider
98 based upon failure to obtain informed consent unless the patient proves that the person giving
99 the consent lacked capacity to consent or shows by clear and convincing evidence that the
100 execution of the written consent was induced by the defendant's affirmative acts of fraudulent
101 misrepresentation or fraudulent omission to state material facts.

102 (5) This act may not be construed to prevent any person 18 years old or over from
103 refusing to consent to health care for the patient's own person upon personal or religious
104 grounds.

105 (6) Except as provided in Section [76-7-304.5](#), the following persons are authorized and
106 empowered to consent to any health care not prohibited by law:

109 (c) any person temporarily standing in loco parentis, whether formally serving or not,
110 for the minor under that person's care and any guardian for the guardian's ward;

112 reason of age, physical or mental condition, to provide such consent;

- 119 (j) a minor who has contracted a lawful marriage; [~~and~~]

121 Homeless Assistance Act of 1987, Pub. L. 100-77, as amended, who is 15 years old or older[-];
122 and
123 (l) a minor receiving tobacco and nicotine cessation services under Section [26B-7-522](#).
124 (7) A person who in good faith consents or authorizes health care treatment or
125 procedures for another as provided by this act may not be subject to civil liability.
126 (8) Notwithstanding any other provision of this section, if a health care provider fails to
127 comply with the requirement in Section [58-1-509](#), the health care provider is presumed to have
128 lacked informed consent with respect to the patient examination, as defined in Section
129 [58-1-509](#).
