

1 **CONCURRENT RESOLUTION SUPPORTING CREATION OF**
2 **THE UTAH STATE UNIVERSITY INSTITUTE OF LAND,**
3 **WATER, AND AIR**

4 2021 GENERAL SESSION

5 STATE OF UTAH

6 **Chief Sponsor: Casey Snider**

7 Senate Sponsor: Scott D. Sandall

8
9 **LONG TITLE**

10 **General Description:**

11 This resolution acknowledges Utah State University's dedication to research and
12 community engagement throughout the state and commends the university's Institute of
13 Land, Water, and Air for the institute's work in preserving and improving the quality of
14 the state's land, water, and air.

15 **Highlighted Provisions:**

16 This resolution:

- 17 ▶ recognizes Utah State University's dedication to research and community
18 engagement throughout the state, including through the work of Utah State
19 University Extension;
- 20 ▶ highlights the past and current commitment of Utah State University in protecting
21 and preserving the state's public lands;
- 22 ▶ acknowledges that Utah State University is a long-standing national leader in
23 research on agriculture, natural resources, and physical science; and
- 24 ▶ commends the university for creating the Institute of Land, Water, and Air to
25 promote research related to preserving and improving the quality of the state's land,
26 water, and air.

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, Utah State University is the land grant university for the state of Utah;

WHEREAS, federal legislation dictates that teaching, research, and extension are the three functional pillars of land grant institutions, and Utah State University's stated mission is to serve the public through learning, discovery, and community engagement;

WHEREAS, research and discovery have historically been and continue to be distinguishing characteristics of Utah State University, dating back to the creation of Utah Agricultural Experiment Station operations in 1890;

WHEREAS, a core characteristic of Utah State University is engagement with communities and individuals to stimulate economic development, improve quality of life, and prioritize development of human capital throughout the state of Utah;

WHEREAS, Utah State University's dedication to communities and individuals throughout Utah is exemplified by the university's creation and operation of the Utah Cooperative Extension Service, founded in 1914 and later renamed Utah State University Extension;

WHEREAS, Utah State University Extension provides research-based programs and resources, disseminates practical information, provides opportunities for university faculty and staff to engage with and learn from community members and leaders in each of Utah's 29 counties, offers educational opportunities through satellite facilities located throughout the state, and facilitates the creation of relationships and partnerships between members of the university, public and private entities, and citizens of the state of Utah;

WHEREAS, Utah State University is a long-standing national leader in agriculture, natural resources, and physical and life sciences;

WHEREAS, public lands make up approximately 74.4% of the state of Utah, totaling approximately 40.4 million acres;

WHEREAS, Utah provides unparalleled opportunities for outdoor recreational

56 activities and hosts an impressive array of scenic landscapes;

57 WHEREAS, the state of Utah has continuously demonstrated its commitment to and
58 interest in the state's water quality, air quality, and public land protection and preservation;

59 WHEREAS, over the last 130 years, Utah State University has proved to be a key
60 partner with the state of Utah in establishing quality research and scientific study in Utah,
61 especially in areas related to land, water, and air;

62 WHEREAS, the Utah Research Water Lab, the Utah Climate Center, the Center for
63 Colorado River Studies, the Utah Cooperative Fish and Wildlife Research Unit, and the
64 Institute of Outdoor Recreation and Tourism are each located at Utah State University;

65 WHEREAS, over 140 Utah State University faculty members are currently engaged in
66 academic scholarship and research related to the study and improvement of land, water, and air;
67 and

68 WHEREAS, Utah State University has a demonstrated history of providing integral
69 data to state agencies, such as the Division of Wildlife Resources, the Division of Forestry,
70 Fire, and State Lands, the Division of Water Quality, and the Division of Air Quality:

71 NOW, THEREFORE, BE IT RESOLVED that the Legislature, the Governor
72 concurring therein, support and celebrate Utah State University President Noelle E. Cockett
73 and the Utah State University Board of Trustees in creating, developing, and operating the
74 Institute of Land, Water, and Air, which will deliver a collaborative annual report to the
75 Governor and the Legislature on the state of Utah's natural resources.

76 BE IT FURTHER RESOLVED that the Legislature, the Governor concurring therein,
77 support the mission of the Institute of Land, Water, and Air to promote effective and practical
78 research related to the preservation and quality improvement of land, water, and air, and to
79 engage community and policy leaders in critical and productive conversations regarding these
80 important topics.
