1	JOINT RESOLUTION CALLING FOR REFORM OF THE
2	INTERNATIONAL TRAFFIC IN ARMS REGULATIONS
3	2017 GENERAL SESSION
4	STATE OF UTAH
5	Chief Sponsor: Karianne Lisonbee
6	Senate Sponsor: Lincoln Fillmore
7	
8	LONG TITLE
9	General Description:
10	This joint resolution urges that gunsmith operations be removed from being labeled as
11	manufacturing activities.
12	Highlighted Provisions:
13	This resolution:
14	• expresses concern over the Directorate of Defense Trade Controls' interpretation of
15	gunsmith activities as manufacturing activities; and
16	 urges the President and Congress to take action to cease labeling gunsmithing
17	activities and to define the term "engaged in business" as found in the Gun Control
18	Act of 1968.
19	Special Clauses:
20	None
21	
22	Be it resolved by the Legislature of the state of Utah:
23	WHEREAS, the United States Department of State's Directorate of Defense Trade
24	Controls is responsible for the export and temporary import of defense articles and services
25	governed by the Arms Export Control Act and Executive Order 13637;
26	WHEREAS, the International Traffic in Arms Regulations implements the Arms
27	Export Control Act;
28	WHEREAS, the Arms Export Control Act requires a person engaged in manufacturing
29	defense articles to register with the Directorate of Defense Trade Controls, pay an exorbitant

30	fee, and be subject to onerous paperwork whether or not they import or export defense-related
31	articles and services;
32	WHEREAS, gunsmiths have not previously been subject to the types of fees and
33	paperwork required by the Directorate of Defense Trade Controls, such as the guidelines on the
34	applicability of the International Traffic in Arms Regulations registration requirement, which
35	were issued in a Directorate of Defense Trade Controls letter on July 22, 2016, to firearms
36	manufacturers and gunsmiths;
37	WHEREAS, these guidelines define many common gunsmith operations as
38	"manufacturing" when they clearly are not and subject gun owners to the regulations for
39	performing these same common gunsmith operations on their privately owned guns, including
40	such innocuous activities as drilling into the receiver of their gun to install a new sight;
41	WHEREAS, the Directorate of Defense Trade Controls began labeling commercial
42	gunsmiths as "manufacturers" for performing relatively simple work such as threading a barrel
43	or fabricating a small custom part for an older firearm;
44	WHEREAS, under the Arms Export Control Act "manufacturers" are required to
45	register with the Directorate of Defense Trade Controls at significant expense or risk onerous
46	criminal penalties;
47	WHEREAS, the guidance letter states that the Directorate of Defense Trade Controls
48	applies "the ordinary, contemporary, common meaning for manufacturing," however, it
49	neglects to define manufacturing and instead lists a wide variety of gunsmith activities while
50	declaring arbitrarily that they constitute manufacturing;
51	WHEREAS, none of these activities are considered manufacturing activities by
52	common definition or by the Bureau of Alcohol, Tobacco, Firearms and Explosives;
53	WHEREAS, the International Traffic in Arms Regulations state that "deemed export"
54	violations are committed by providing any regulated good or service or any regulated technical
55	information to a "non-US-person," even within the United States, such that a gunsmith doing
56	routine gunsmithing for a "non-US-person" would constitute a violation;
57	WHEREAS, neither ignorance of nor lack of intention to violate arcane and

complicated provisions buried in over 100 pages of legal statute, with ever-changing lists of regulated materials and information, is a defense to any violation;

WHEREAS, violations of the International Traffic in Arms Regulations can result in civil penalties of more than \$1,000,000 per incident and criminal penalties of up to \$1,000,000 and 20 years in prison, both of which can be levied against individual gunsmithing business employees;

WHEREAS, the International Traffic in Arms Regulations have been applied in a manner not intended, such as regulating information related to general scientific, mathematical, or engineering principles that are commonly taught in schools and colleges or information that is in the public domain; and

WHEREAS, subjecting gunsmithing activities to the International Traffic in Arms Regulations will result in small gunsmith businesses being forced out of business due to regulatory costs and the significant risks of committing technical violations of extremely complex laws and regulations:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah urges the United States Congress to enact legislation to remove common gunsmithing activities listed on the July 22, 2016, Directorate of Defense Trade Controls letter as activities that constitute manufacturing under the International Traffic in Arms Regulations.

BE IT FURTHER RESOLVED that the President of the United States is urged to direct the United States Department of State's Directorate of Defense Trade Controls to cease labeling gunsmiths as manufacturers.

BE IT FURTHER RESOLVED that the United States Congress is urged to define the term "engaged in business" under the International Traffic in Arms Regulations as found in the Gun Control Act of 1968, which is "a person who devotes time, attention, and labor to manufacturing firearms as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the firearms manufactured."

BE IT FURTHER RESOLVED that copies of this resolution be sent to the President of the United States, the Majority Leader of the United States Senate, the Speaker of the United
