| Total \$ | 0 | 106,000 | 106,000 | 128,000 | 117,000 |

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 101 - New section. Legislative findings.

Section 201 - New section. Adding to RCW 70A.207. Authorizing the Department of Ecology (Ecology) to create grant programs to support activities that reduce emissions from landfills and waste-to-energy facilities through the diversion of organic materials and food waste prevention, rescue, and recovery.

Section 202 - New section. Adding to RCW 70A.207. Authorizing Ecology to create grant programs to support the implementation of RCW 70A.205.540 and RCW 70A.205.545, relating to organize waste collection.

Section 203 - Technical amendments to RCW 70A.207.020.

Section 204 - New section. Adding to RCW 43.32. Requiring the Department of Agriculture (AGR) to implement the Washington State (WA) commodities donation grant program.

Section 205 - Amending RCW 70A.214.100. Allocating \$1 million per biennium to the Waste Not Washington awards program.

Section 301 - Amending 70A.205.540. Miscellaneous amendments to the organic solid waste collections services provisions. Sets out dates when certain collection services must start and what the collection services must include. This section does not impact pest and noxious weed control.

Section 302 - Technical amendments to 70A.205.545.

Section 303 - New section. Adding to RCW 70A.2005. Requiring color containers for certain recyclable and organic materials. Authorizing Ecology to make rules regarding such containers.

Section 401 - New section. Ecology in consultation with AGR must carry out a study and submit a report the legislature by September 1, 2025 addressing the status of produce sticker technologies.

Section 501 - Technical amendments to RCW 70A.455.02.

Section 502 - Technical amendments to RCW 70A.455.040.

Section 503 - Technical amendments to RCW 70A.455.070.

Section 504 - New section. Adding to RCW 70A.455. Creating requirements as to home compostable labeling.

Section 505 - Amending RCW 70A.455.090. Requiring cities or counties seeking to enforce the chapter to notify AGR, with a letter of intent that includes certain specified information.

Section 601 - Technical amendments to RCW 15.04.420.

Section 602 - Technical amendments to RCW 43.19A.150.

Section 701 - New section. Adding to RCW 19.27. Authorizing the governing body of each county or city to amend building codes applicable to providing storage for solid waste as applied to multifamily residential buildings.

Section 702 - New section. Requiring Ecology’s Center of Sustainable Food Management to convene a work group to address mechanisms to mandate or otherwise improve the rescue of food waste. Requiring Ecology to submit a report to the legislature by September 1, 2025. Describing the requirements of the composition of the workgroup.

Section 703 - New section. Severability clause.

Section 704 - New section. If specific funding for this act is not provided by June 30, 2024, the act is null and void.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Cash receipts are assumed to equal the Legal Services Revolving Account (LSRA) cost estimates. These will be billed through the revolving account to the client agency.

The client agencies are the Department of Agriculture (AGR) and Department of Ecology (Ecology). The Attorney General’s Office (AGO) will bill all clients for legal services rendered.

These cash receipts represent the AGO’s authority to bill and are not a direct appropriation to the AGO. The direct appropriation is reflected in the client agencies’ fiscal note. Appropriation authority is necessary in the AGO budget.

AGO AGENCY ASSUMPTIONS:

AGR will be billed for non-King County rates:

FY 2025: \$88,000 for 0.3 Assistant Attorney General FTE (AAG) and 0.2 Paralegal 1 FTE (PL1)

FY 2026 and in each even FY thereafter: \$68,000 for 0.3 AAG and 0.2 PL1

FY 2027 and in each odd FY thereafter: \$49,000 for 0.2 AAG and 0.1 PL1

Ecology will be billed for non-King County rates:

FY 2025: \$18,000 for 0.1 AAG and 0.1 PL1

FY 2026: \$11,000 for 0.1 AAG and 0.1 PL1

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Attorney General’s Office (AGO) Agency Assumptions:

This bill is assumed effective 90 days after the end of the 2024 legislative session.

Location of staffing is assumed to be in a non-King County office building.

Total workload impact in this request includes standard assumption costs for goods & services, travel, and capital outlays for all FTE identified.

Agency administration support FTE are included in the tables. The Management Analyst 5 FTE (MA), is used as a representative classification. An example ratio is for every 1.0 Assistant Attorney General FTE (AAG), the AGO includes 0.5 Paralegal 1 FTE (PL1) and 0.4 MA.

1. Assumptions for the AGO Agriculture and Health Division’s (AHD) Legal Services for the Department of Agriculture

(AGR):

The AGO will bill AGR for legal services based on the enactment of this bill. Section 204 would require AGR to establish a \$25 million Center for Sustainable Food Management Grants program. AHD estimates this work would require new legal services for rulemaking and advice on implementation 520 hours in FY 2025. Ongoing advice would be required on program administration. Grant agreements will likely coincide with the biennial cycle, assuming more legal services will be needed in the first biennial years, estimated at 416 hours per FY. The second biennial years will require slightly less legal advice, estimated at 312 hours per year. Section 601 would require AGR to make changes to the Compost Reimbursement Program, which would require 12 hours of legal services in FY 2025.

AHD: Total non-King County workload impact:

FY 2025: \$88,000 for 0.3 AAG and 0.1 PL1

FY 2026 and in each even FY thereafter: \$68,000 for 0.3 AAG and 0.2 PL1

FY 2027 and in each odd FY thereafter: \$49,000 for 0.2 AAG and 0.1 PL1

2. Assumptions for the AGO Ecology Division’s (ECY) Legal Services for the Department of Ecology (Ecology):

The AGO will bill Ecology for legal services based on the enactment of this bill. ECY will provide advice on rulemaking to add five new grant programs under Ecology’s Center for Sustainable Food Management. Additional advice on rulemaking for standards by which local jurisdictions may exempt individuals from only using curbside collection services to discard organic materials by January 1, 2026.

ECY: Total non-King County workload impact:

FY 2025: \$18,000 for 0.1 AAG and 0.1 PL1

FY 2026: \$11,000 for 0.1 AAG and 0.1 PL1

3. AHD has reviewed this bill and determined it will not increase or decrease the division’s workload in representing the Department of Commerce (Commerce) or Department of Health (DOH). Neither Commerce nor DOH have new responsibilities or authorities under the bill. Therefore, no costs are included in this request.

Total AGO non-King County workload impact:

FY 2025: \$106,000 for 0.4 AAG and 0.2 PL1

FY 2026: \$79,000 for 0.3 AAG and 0.2 PL1

FY 2027 and in each odd FY thereafter: \$49,000 for 0.2 AAG and 0.1 PL1

FY 2028 and in each even FY thereafter: \$68,000 for 0.3 AAG and 0.2 PL1

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

| Account | Account Title | Type | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|-----------------|-------------------|-------|---------|---------|---------|---------|---------|
| 405-1 | Legal Services | State | 0 | 106,000 | 106,000 | 128,000 | 117,000 |
| | Revolving Account | | | | | | |
| Total \$ | | | 0 | 106,000 | 106,000 | 128,000 | 117,000 |

III. B - Expenditures by Object Or Purpose

| | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|----------------------------|---------|---------|---------|---------|---------|
| FTE Staff Years | | 0.8 | 0.4 | 0.5 | 0.5 |
| A-Salaries and Wages | | 72,000 | 72,000 | 89,000 | 81,000 |
| B-Employee Benefits | | 22,000 | 22,000 | 26,000 | 24,000 |
| E-Goods and Other Services | | 11,000 | 11,000 | 13,000 | 12,000 |
| G-Travel | | 1,000 | 1,000 | | |
| Total \$ | 0 | 106,000 | 106,000 | 128,000 | 117,000 |

III. C - Operating FTE Detail: *List FTEs by classification and corresponding annual compensation. Totals need to agree with total FTEs in Part I and Part IIIA*

| Job Classification | Salary | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|----------------------------|---------|---------|---------|---------|---------|---------|
| Assistant Attorney General | 129,100 | | 0.4 | 0.2 | 0.3 | 0.3 |
| Management Analyst 5 | 95,184 | | 0.2 | 0.1 | 0.1 | 0.1 |
| Paralegal 1 | 69,072 | | 0.2 | 0.1 | 0.2 | 0.2 |
| Total FTEs | | | 0.8 | 0.4 | 0.5 | 0.5 |

III. D - Expenditures By Program (optional)

| Program | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|-------------------------------------|---------|---------|---------|---------|---------|
| Agriculture & Health Division (AHD) | | 88,000 | 88,000 | 117,000 | 117,000 |
| Ecology Division (ECY) | | 18,000 | 18,000 | 11,000 | |
| Total \$ | | 106,000 | 106,000 | 128,000 | 117,000 |

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 701 is a new section added to chapter 19.27 RCW allowing the governing body of each county or city to amend requirements in the state building code, as it applies within the jurisdiction of the county or city, that apply to providing for the storage of solid waste in multifamily residential buildings.

The Department of Enterprise Services (DES) manages all statewide contracts. The work associated with updating statewide contracts impacted by this bill can be done within existing resources. Section 701 does not require the State Building Code Council to develop any new codes, therefore any work needed to implement this section can be done within existing resources.

There is no fiscal impact to the Department of Enterprise Services.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Changes compared to SHB 2301

Section 205(2):

- Strikes “five thousand dollars” and replaces it with “\$5,000 until 2026, and no more than \$10,000 beginning January 1, 2026”.
- Informs that awards will be granted each year to the schools that achieve the greatest level of waste reduction and recycling and that each award will be no more than \$5,000 until 2026, and no more than \$10,000 beginning January 1, 2026.
- Informs that a single award of not less than \$5,000 until 2026 or \$10,000 beginning in 2026 may be presented to the school having the best recycling program.
- Informs that a single award of not less than \$5,000 until 2026 or \$10,000 beginning in 2026 may be presented to the school having the best waste reduction program.
- Language added informing that the intent of the legislature to allocate at least \$1,000,000 per biennium, starting in calendar year 2026.

Section 702(2): Language added requiring all meetings of the work group be carried out in a virtual-only format.

Summary of P2SHB 2301

Section 205 (Amended)

Section 205(2):

- Language revised informing that participating schools in the waste reduction and recycling program may receive an award no more than \$5,000 until 2026, and no more than \$10,000 beginning January 1, 2026. Strikes previous amount of five thousand dollars.
- Language revised indicating that a single award of not less than \$5,000 until 2026 or \$10,000 beginning in 2026 may be presented to the school having the best recycling program as determined by the Office of Waste Management. Strikes previous amount of five thousand dollars.
- Language revised indicating that a single award of not less than \$5,000 until 2026 or \$10,000 beginning in 2026 may be presented to the school having the best waste reduction program as determined by the Office of Waste Management. Strikes previous amount of five thousand dollars.
- Language added informing that it is the intent of the legislature to consistently and sustainably allocate at least \$1,000,000 per biennium, continuing over multiple biennia and starting in calendar year 2026, to the awards program established in this section.

Section 702 (New Section)

Section 702(1):

- Requires the Department of Ecology’s center for sustainable food management to create a workgroup to address mechanisms to mandate or otherwise improve the rescue of edible food waste from commercial generators, including food service, retail establishments, and processors that generate excess supply of edible food.
- Requires the workgroup to consider the following:
 - o Logistics to phase in edible food donation programs, including incentives;
 - o The food recovery network systems necessary to support increased donation of edible food by commercial generators;
 - o Assess asset gaps and food infrastructure development needs.
 - o Facilitate the creation of networks and partnerships to address gaps and needs and develop innovative partnerships and models where appropriate;
 - o Actions taken, costs, and lessons learned by other jurisdictions in the United States that have enacted policies focused on reducing edible commercially generated food waste and from voluntary pilot projects carried out by commercial generators of food waste.

Section 702(2):

- Requires the Department of Ecology to submit a report to the legislature by September 1, 2025, containing the recommendations of the workgroup.
- Requires all meetings of the work group to be carried out in a virtual-only format.
- Requires the report to include recommendations where general stakeholder consensus has been achieved and note varied opinions where stakeholder consensus has not been achieved.

Section 702(3):

Requires the Department of Ecology to select at least one member of the work group from various cities, counties, organizations, state agencies, to include the Office of Superintendent of Public Instruction.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No cash receipts impact anticipated.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 205 is a grant program through the Office of Waste Reduction, in consultation with OSPI, to award schools participating in a waste reduction and recycling program. The amount of the awards has been revised from \$5,000 to \$10,000.

There is no fiscal impact to OSPI for this section. There is no new work identified for OSPI.

Section 702 requires the Department of Ecology’s center for sustainable food management to create a workgroup and select at least one member from various cities, counties, associations, organizations, and state agencies, to address mechanisms to mandate or otherwise improve the rescue of edible food waste from commercial generators, including food service, retail establishments, and processors that generate excess supply of edible food. OSPI is identified as a required member of the workgroup.

To accomplish this work, OSPI assumes the following staffing:

- In FY25, a .05 FTE of a Program Supervisor’s time would be required to attend meetings. collaborate with external stakeholders and/or workgroup members, assist with the creation of networks and partnerships to address gaps and needs to develop innovative partnership and models, assess asset gaps and food infrastructure development needs, examine actions taken, costs, and lessons learned by other jurisdictions in the United States, and contribute to the report to the legislature.
- In FY26, a .01 FTE of a Program Supervisor’s time would be required to assist in finalizing the report by the September 1, 2025 submission deadline.

The cost for this staffing is estimated at \$9,000 in FY25 and \$2,000 in FY26.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

| Account | Account Title | Type | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|-----------------|---------------|-------|---------|---------|---------|---------|---------|
| 001-1 | General Fund | State | 0 | 9,000 | 9,000 | 2,000 | 0 |
| Total \$ | | | 0 | 9,000 | 9,000 | 2,000 | 0 |

III. B - Expenditures by Object Or Purpose

| | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|--------------------------------------|---------|---------|---------|---------|---------|
| FTE Staff Years | | 0.1 | 0.0 | 0.0 | |
| A-Salaries and Wages | | 4,708 | 4,708 | 942 | |
| B-Employee Benefits | | 3,052 | 3,052 | 922 | |
| C-Professional Service Contracts | | | | | |
| E-Goods and Other Services | | 338 | 338 | 68 | |
| G-Travel | | 338 | 338 | 68 | |
| J-Capital Outlays | | 564 | 564 | | |
| M-Inter Agency/Fund Transfers | | | | | |
| N-Grants, Benefits & Client Services | | | | | |
| P-Debt Service | | | | | |
| S-Interagency Reimbursements | | | | | |
| T-Intra-Agency Reimbursements | | | | | |
| 9- | | | | | |
| Total \$ | 0 | 9,000 | 9,000 | 2,000 | 0 |

III. C - Operating FTE Detail: *List FTEs by classification and corresponding annual compensation. Totals need to agree with total FTEs in Part I and Part IIIA*

| Job Classification | Salary | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|--------------------|--------|---------|---------|---------|---------|---------|
| Program Supervisor | 94,165 | | 0.1 | 0.0 | 0.0 | |
| Total FTEs | | | 0.1 | 0.0 | 0.0 | 0.0 |

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

No capital budget impact anticipated.

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Individual State Agency Fiscal Note

| | | |
|----------------------------------------------|-----------------------------------------|------------------------------------------|
| Bill Number: 2301 P 2S HB H-3133.1 | Title: Waste material management | Agency: 461-Department of Ecology |
|----------------------------------------------|-----------------------------------------|------------------------------------------|

Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

| | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|-------------------------------------------------------|---------|-----------|-----------|-----------|-----------|
| FTE Staff Years | 0.0 | 8.8 | 4.4 | 5.4 | 2.2 |
| Account | | | | | |
| Model Toxics Control Operating Account-State 23P-1 | 0 | 1,557,881 | 1,557,881 | 2,186,708 | 1,217,847 |
| Total \$ | 0 | 1,557,881 | 1,557,881 | 2,186,708 | 1,217,847 |

In addition to the estimates above, there are additional indeterminate costs and/or savings. Please see discussion.

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Compared to SHB 2301, P2SHB 2301 (H-3133.1) has the following substantive changes:

- Section 201 eliminates the role of the Washington State Department of Agriculture (WSDA) in the development and implementation of the new food waste and waste food reduction grant programs administered by the Department of Ecology's Center for Sustainable Food Management.
- Section 205 delays the increase in the limit of Waste Not Washington awards from \$5,000 to \$10,000 per award until 2026.
- Eliminates changes to compost facility and anaerobic digester facility training requirements (section 302 in SHB).
- Eliminates prohibitions on the use of organic material feedstocks containing certain chemicals at organic material management facilities (section 305 in SHB).
- Section 303 amends solid waste collection container coloring requirements, including by (1) delaying the effective date of restrictions on new containers from July 1, 2024 until July 1, 2026; (2) providing that all plastic containers must be replaced to match bin coloring requirements regardless of size by 2036, rather than requiring large plastic containers to be repainted; (3) providing that larger non-plastic containers owned by a local government undertaking solid waste collection are exempt from the 2030 repainting requirement if sufficient funds have not been distributed to the local government through grants from the Department of Ecology's center for sustainable food management; and (4) exempting certain large containers used on a temporary basis by multiple customers and for multiple types of solid waste from coloring requirements.
- Section 501 eliminates the changes to the types of ASTM standards that a product may meet while being labeled as compostable.
- Section 601 clarifies that facilities with a solid waste handling permit must accept food waste feedstocks in order for the compost the produce to be eligible for the WSDA's compost purchase reimbursement program for farmers.
- Section 702 requires meetings of the work group on edible food rescue from businesses to be conducted in a virtual format.
- Section 704 adds a null and void clause.

The changes in this bill would change the fiscal impact to Ecology.

Under current law, Ecology implements the Organics Management Law, which establishes the Washington Center for Sustainable Food Management (Food Center) within Ecology and requires diversion of organic materials from landfill disposal to food rescue programs and organics management facilities.

The bill would:

- Establish five new grant programs under the Food Center to support food waste reduction, food rescue, and other organic material management system improvements.
- Increase the award thresholds for the Waste Not Washington School Awards from \$5,000 to \$10,000 and establish the intent to allocate a minimum of \$1,000,000 per biennium beginning on January 1, 2026.
- Mandate year-round source-separated collection of organic materials for jurisdictions that implement local solid waste plans beginning April 1, 2027. This would require jurisdictions to provide collection on a nonelective basis for both food and yard waste by 2030.
- Specify that facilities must have year-round capacity and are willing to accept increased volumes of organic materials to be included in Business Organic Management Area.
- Standardize trash, recycling, and organics collection bin colors, and add criteria to label products as home compostable.
- Require Ecology, in consultation with the Washington State Department of Agriculture, to study sticker technology

compostability, performance, printability, and cost and submit a report to the Legislature by September 1, 2025.

- Require Ecology to convene a workgroup to improve edible food rescue in Washington and prepare a legislative report with the outcomes from the workgroup by September 1, 2025.

PART 2 – FUNDING FOR SUSTAINABLE FOOD MANAGEMENT PRIORITIES

Section 201 would require Ecology to develop and administer four grant programs through the Center for Sustainable Food Management (Food Center). These grant programs would support activities that reduce emissions from landfills and waste-to-energy facilities through diversion of organic materials and food waste prevention, rescue, and recovery. Ecology would be required to design these grant programs with input from the, Department of Health (DOH), and other stakeholders.

Section 202 would require Ecology to develop and administer the Sustainable Food Management Policy Implementation Grants to support implementation of organics management laws, with priority given to grants that implement RCW 70A.205.540 and 70A.205.545.

Section 203 would amend the Washington Center for Sustainable Food Management law, RCW 70A.207.020, to include the grant programs in sections 201 and 202 and other pertinent agency costs to implement this bill.

Section 204 would establish the Washington Commodities Donation Grant Program within the Washington State Department of Agriculture (WSDA).

Section 205 would amend the Waste Not Washington Awards, RCW 70A.214.100, to increase the maximum award amounts from \$5,000 to \$10,000 and establish the intent of the Legislature to allocate a minimum of \$1,000,000 per biennium beginning January 1, 2026.

PART 3 – AMENDMENTS TO SOLID WASTE LAWS

Section 301 would amend RCW 70A.205.540 to mandate source-separated collection of organic materials for jurisdictions that implement local solid waste plans. Beginning April 1, 2027, jurisdictions would be required to provide year-round collection for source-separated organic solid waste services. By April 1, 2030, jurisdictions would be required to provide collection on a nonelective basis for both food and yard waste, and organics management facilities would be required to accept food waste. Ecology would be authorized to grant waivers for jurisdictions to reduce collection frequency for the collection of dehydrated food waste or to address food waste managed through other technologies that reduce volume or odors. Ecology may adopt rules to amend jurisdictional organics management requirements if 2030 organic material diversion rates are not met. Ecology would identify which jurisdictions would need to comply with the requirements and create and maintain a map of those jurisdictions. Ecology would develop resources, provide outreach to notify jurisdictions of the requirements and support with technical assistance needed to comply. Ecology may grant 5-year renewable waivers for jurisdictions to exclude them organics collection requirements. Ecology would be required to adopt standards by January 1, 2026, which local jurisdictions may use to exempt persons from this requirement if organic materials will be managed through an alternative mechanism that provides equal or better environmental outcomes.

Section 302 would amend RCW 70A.205.545 to specify that facilities must have year-round capacity and be willing to accept increased volumes of organic materials. The bill would require local governments to request exclusions from business organic management areas and provide supporting evidence for their request. Ecology would be required to confirm the supporting evidence to grant an exclusion. The bill would adjust the 2026 threshold for mandatory collection from businesses from four cubic yards of solid waste to 96 gallons of organic waste.

Section 303 would standardize the colors of collection containers. Ecology would be authorized to determine, by rule, appropriate container or containers to be used for materials that could conceivably be placed in multiple containers.

Ecology would be authorized to adopt rules to prohibit additional waste stream contaminants from being placed in the wrong containers.

PART 4 – STATUS ASSESSMENT OF PRODUCE STICKER TECHNOLOGIES

Section 401 would require Ecology, in consultation with WSDA, to carry out a study addressing produce sticker technologies including options that do not include plastic stickers or adhesives or that otherwise meet compostability standards. A report is due to the legislature by September 1, 2025.

PART 5 – PRODUCT DEGRADABILITY RESTRICTIONS

Section 501 would amend RCW 70A.455.020 to include amending the definition for “Producer.”

Section 502 would amend definitions in RCW 70A.455.040 and clarify the definition of “compostable” products including adding the ASTM standard D8410 or include a fiber-based substrate that is 99% fiber by weight with no plastic or polymer additives or coatings.

Section 503 would define “tinting” and would allow previously prohibited color schemes on non-compostable products to be used in lettering or logos to identify a brand.

Section 504 would define “home compostable,” and “home compostable,” labeling requirements. Ecology would need to develop resources and technical assistance tools to communicate the new definitions.

Section 505 would amend RCW 70A.455.090 to include city and county enforcement reporting requirements. Cities or counties issuing labeling requirement enforcement would be required to notify Ecology with a letter of intent including details of enforcement activities, geographic boundaries within the enforcement, and details of technical assistance or support requested of Ecology.

PART 6 – COMPOST PURCHASES

Section 601 would amend RCW 15.04.420 to specify compost reimbursement program eligibility requirements. The amendment would remove solid waste terminology and add reimbursement eligibility for compost containing vegetative waste feedstocks or food waste feedstocks. This compost would be required to meet the applicable requirements for compost established by Ecology under chapter 70A.205 RCW.

Section 602 would change reporting for the compost procurement ordinances to occur annually instead of every other year.

PART 7 - MISCELLANEOUS

Section 701 would authorize county and city governments to amend requirements in the state building code. The amended building code for multifamily residential buildings solid waste requirements include providing adequate space for the colocation of organic material waste and recycling collection containers with garbage containers, signage for organics and recycling container locations, and the distribution of educational and outreach materials.

Section 702 would establish a food rescue workgroup housed under the Food Center and task Ecology to develop a report to the Legislature by September 1, 2025. The workgroup would address mechanisms to mandate or otherwise improve the rescue of edible food waste from commercial generators and would be required to consider the following:

- Logistics to phase in edible food donation programs, including incentives
- The food recovery network systems necessary to support increased donations of edible food from commercial generators.

- Assess gaps and food infrastructure development needs.
- Actions taken, costs, and lessons learned by other jurisdictions in the US that have enacted food waste reduction and food rescue policies.

Section 703 provides a severability clause.

Section 704 would make this act null and void if funding is not provided by June 30, 2024.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The expenditure impact to Ecology under this bill is estimated to be greater than \$50,000 in Fiscal Year (FY) 2025 and ongoing to implement the requirements of sections 201, 202, 205, 301-303, 401, 504, and 702. Expenditures for grant administration in sections 201 and 202 are indeterminate.

Ecology's costs to implement this bill are assumed to be funded with MTCA-Operating, the same fund source that supports the implementation of the Organics Management Law.

Food Center Grant Programs (Section 201)

Section 201 would require Ecology to develop and administer grant programs through the Center for Sustainable Food Management (Food Center). These grant programs would support activities that reduce emissions from landfills and waste-to-energy facilities through diversion of organic materials and food waste prevention, rescue, and recovery. Ecology would be required to design these grant programs in consultation with DOH and other stakeholders.

Ecology assumes four grant programs would be developed under this section with different eligibility criteria, applicants, and uses of funds. Ecology assumes rulemaking would be required to establish the grant programs and program development would be concurrent with rulemaking. Program development concurrent with rulemaking would include conducting the agency process to establish new grant programs including the environmental justice assessment and drafting guidelines. Finalizing the grant programs, including application forms, providing internal and external training, and remaining guidance development would occur after rulemaking is complete.

Based on our experience in establishing other grant programs, the development of the four grant programs is estimated to require:

0.50 FTE Environmental Planner 4 (EP4) in FY 2025 to develop guidelines, outreach materials, application forms, and new grant program training materials for four grant programs. And 0.20 FTE EP4 in FY 2026 to continue guideline work concurrent with rulemaking. Ecology assumes we would conduct an Environmental Justice Assessment in FY 2025 as required under the HEAL Act, Chapter 70A.02 RCW.

0.40 FTE Communications Consultant 3 (CC3) in FY 2025 to review and edit the outreach materials prepared by the EP-4 and create an agency website to publish the material for four grant programs.

Additional costs to establish four new grant programs and applications in the Agency's Administration of Grants and Loans (EAGL) system are \$80,000 in FY 2025, as shown in Goods and Services (Object E). EAGL system maintenance cost is \$10,000 each year (part of ongoing implementation costs; thus, this is not included in the costs of this fiscal note).

INDETERMINATE COST ASSUMPTIONS: Ecology assumes implementation of the grant programs under this section is indeterminate since the appropriation level for the grant programs is not provided in this bill. If an appropriation is not provided during the 2024 legislative session, Ecology would request funding authority during the next budget to implement these grant programs. Ecology's costs to administer the grant programs depend on the complexity and size of the programs. Ecology assumes staff resources would be required to provide technical assistance and training to grant recipients, write and manage grant agreements, and coordinate with agency grant system administration staff on grant application forms.

Sustainable Food Management Policy Implementation Grants (Section 202)

Section 202 would require Ecology to develop and administer the Sustainable Food Management Policy Implementation Grants to support the implementation of organics management laws, with priority given to grants that implement RCW 70A.205.540 and 70A.205.545.

Ecology assumes one grant program would be developed under this section. Ecology assumes rulemaking would be required to establish this grant program and it would be combined with the rulemaking for section 201. Ecology assumes grant program development would be concurrent with rulemaking. For example, concurrent with rulemaking, Ecology would initiate stakeholder work, conduct an environmental justice assessment, and begin building the internal grant structure based on legislatively established applicant and project eligibility.

Based on our experience in establishing other grant programs, the development of the grant program is estimated to require:

0.15 FTE Environmental Planner 4 (EP4) in FY 2025 to develop guidelines, outreach materials, application forms, and new grant program training materials for the grant program. And 0.06 FTE EP4 in FY 2026 to continue guideline work concurrent with rulemaking. Ecology assumes we would conduct an Environmental Justice Assessment in FY 2025 as required under the HEAL Act, Chapter 70A.02 RCW.

0.05 FTE Communications Consultant 3 (CC3) in FY 2025 to review and edit the outreach materials prepared by the EP-4 and create an agency website to publish the material for four grant programs.

Additional costs to establish a new grant program and applications in the Agency's Administration of Grants and Loans (EAGL) system are \$20,000 in FY 2025, as shown in Goods and Services (Object E). EAGL system maintenance cost is \$10,000 each year (part of ongoing implementation costs; thus, this is not included in the costs of this fiscal note).

INDETERMINATE COST ASSUMPTIONS: Ecology assumes implementation of the grant program under this section is indeterminate since the appropriation level for the grant programs is not provided in this bill. If an appropriation is not provided during the 2024 legislative session, Ecology would request funding authority during the next budget to implement these grant programs. Ecology's costs to administer the grant programs depend on the complexity and size of the programs. Ecology assumes staff resources would be required to provide technical assistance and training to grant recipients, write and manage grant agreements, and coordinate with agency grant system administration staff on grant application forms.

RULEMAKING: ESTABLISHING GRANT PROGRAMS (Sections 201 and 202)

Ecology assumes rulemaking would be required to establish five grant programs under sections 201 and 202. Ecology would use rulemaking to establish participant and project eligibility, additional grant eligibility, and reporting criteria. For example, the 2021 Use Food Well Washington (UFWW) plan recommended 30 specific actions and associated implementation costs to rescue edible food and to recover food waste. Rulemaking would establish specific criteria to ensure applicants and projects helped implement UFWW plan recommendations, such as funding staff and infrastructure to improve the donated food supply cold chain.

Ecology assumes this rulemaking would be highly complex and generate substantial public interest and input. It would require at least 2 years, from October 2024 to September 2026. Ecology assumes we would create a rule advisory committee to develop draft language throughout the rulemaking process. Based on the chapter 70A.245 RCW rule, we assume this type of rulemaking would include three preproposal meetings to gather input from stakeholders, and then three public hearings to accept comments on the rule proposal. Ecology would perform an environmental justice assessment required under the HEAL Act, Chapter 70A.02 RCW. Ecology would conduct targeted outreach and consult with organization types indicated as grant recipients as well as overburdened communities and vulnerable populations across the state throughout the rulemaking process.

Rulemaking Administrative Coordinator: A rule coordinator to oversee the rulemaking process to comply with the Administrative Procedures Act; oversee the rule development and communication plan; review and file the CR-101; coordinate and conduct public meetings; file the CR-102 and hold public hearings with webinar access; work with an economist on economic impact analysis; work with technical staff to finalize rule language; and file the CR-103 for adoption. This would require 0.12 FTE Regulatory Analyst 3 (RA3) in FY 2025, 0.10 FTE RA3 in FY 2026, and 0.08 FTE RA3 in FY 2027 to complete a 2-year moderately complex rule.

Rule development for this program would include the development of guidelines, reporting requirements, application forms, and coordinate with other agencies as needed.

Rulemaking Lead: Ecology estimates that an Environmental Planner 5 (EP5) would spend 0.60 FTE in FY 2025, 0.75 FTE in FY 2026, and 0.15 FTE in FY 2027 to provide policy expertise oversee rule timeline management, and lead the rulemaking effort, draft, and revise rule language, lead public meetings and hearings, and work with other program staff as needed to execute the rule development plan.

Technical Leads: Ecology estimates that an Environmental Specialist 5 (ES5) would spend 0.60 FTE in FY 2025, 0.75 FTE in FY 2026, and 0.15 FTE in FY 2027 to convene stakeholders, develop the design, criteria, and allocations consistent with legislative appropriations and logistics of the grant program, collect data, support analysis of potential policy outcomes, provide support to the rulemaking lead and subject matter experts.

Environmental Specialist 4 (ES4) would spend 0.42 FTE in FY 2025, 0.50 FTE in FY 2026, and 0.08 FTE in FY 2027 to collect information from stakeholders, support analysis of potential policy outcomes, provide support to the rulemaking lead and subject matter experts, and coordinate with communications staff to provide technical support for public outreach. This includes any need for regional support.

Environmental Planner 4 (EP4) would spend 0.21 FTE in FY 2025, 0.25 FTE in FY 2026, and 0.04 FTE in FY 2027 to support analysis of potential policy outcomes, provide support to the rulemaking lead and subject matter experts, and coordinate with communications staff to provide technical support for public outreach. This includes any need for regional support.

Based on previous rulemaking experience and the variety of interested parties and affected stakeholders, communications and outreach support is included to ensure robust public engagement in the rulemaking process. The following positions would support public engagement:

A communications lead would coordinate an outreach strategy and media engagement. This would require a Communications Consultant 5 (CC5) 0.12 FTE in FY 2025, 0.10 FTE in FY 2026, and 0.02 FTE in 2027

An outreach coordinator would organize rule advisory committee meetings and public meetings, prepare informational materials, assist with rule discussion at advisory council meetings, and respond to stakeholder questions throughout the rulemaking process. This would require a Community Outreach and Environmental Educational Specialist 3 (COEES3) 0.08 FTE in FY 2025, 0.10 FTE in FY 2026, and 0.02 FTE in 2027.

Website Developer: A Communications Consultant 3 (CC3) would coordinate with the rulemaking lead on a public website for the rulemaking process. This would require 0.12 FTE in FY 2025, 0.10 FTE in FY 2026, and 0.02 FTE in FY 2027.

The following positions would complete an economic and regulatory analysis of the rule: Economic Analyst 3, 0.13 FTE in FY 2026 and 0.12 FTE in FY 2027; Regulatory Analyst 2, 0.05 FTE each year in FY 2026 and FY 2027.

Ecology would hold two public meetings in FY 2025 and one in FY 2026, two public hearings in FY 2026, and one public hearing in FY 2027 for rulemaking. Goods and services estimates include facility rental costs estimated at \$1,000 per hearing for \$2,000 in FY 2025, \$3,000 in FY 2026, and \$1,000 in FY 2027.

Waste Not Washington Awards (Section 205)

Section 205 would amend RCW 70A.214.100 Waste Not Washington Awards to increase the maximum award amounts from \$5,000 to \$10,000 beginning January 1, 2026, and establish the intent of the Legislature to allocate a minimum of \$1,000,000 per biennium.

Currently, Ecology has an annual budget of \$100,000 (\$200,000 per biennium) for the school awards program. For purposes of this fiscal note, Ecology assumes an additional \$800,000 would be appropriated each biennium beginning in the 2025-27 biennium. Of this budget, \$610,974 per biennium would be available for school awards, as shown in Grants (Object N). Ecology assumes additional outreach and technical assistance would be required to manage the increased funding and number of awards and recipients.

Ecology estimates 0.50 FTE Environmental Specialist (ES4) in FY 2026 and ongoing to administer the expanded grant program, provide technical assistance, and manage grant reporting requirements.

Ecology estimates 0.10 FTE Community Outreach and Environmental Educational Specialist 4 (COEES4) in FY 2026 and ongoing to support social media and outreach to increase awareness of the expanded grant program.

Organic Materials (Section 301)

Section 301 would amend RCW 70A.205.540 to mandate year-round source-separated collection of organic materials for jurisdictions that implement local solid waste plans. Ecology would be authorized to adopt rules to amend jurisdictional organics management requirements if 2030 organic material diversion rates are not met. Ecology would identify which jurisdictions would need to comply with the requirements and create and maintain a map of those jurisdictions. Ecology would develop resources, provide outreach to notify jurisdictions of the requirements, and support with technical assistance needed to comply. Ecology would be authorized to grant waivers to reduce collection frequency requirements to address food waste managed through technologies that reduce food waste by volume or odor and authorized to grant five-year waivers for jurisdictions to exclude them organics collection requirements. Ecology would be required to adopt standards by January 1, 2026, that local jurisdictions may use to exempt persons from this requirement if organic materials will be managed through an alternative mechanism that provides equal or better environmental outcomes. Ecology assumes rulemaking would be required to adopt standards and rulemaking would be adopted by July 1, 2026. Per section 301(1)(e), the standards would take effect on April 1, 2030. .

Ecology estimates 0.25 FTE Environmental Planner 4 (EP4) each year in FY 2025 through FY 2027 to develop new residential guidance for organic materials and the waiver programs with stakeholder engagement, and 0.10 FTE EP4 each year in FY 2028 and ongoing to review and approve waiver applications.

Ecology estimates 0.50 FTE Environmental Specialist 4 (ES4) each year in FY 2025 through FY 2027 to develop resources and provide technical assistance to jurisdictions preparing for compliance. This work would include map development and outreach strategies. Starting FY 2028 and ongoing, the ES4 would maintain 0.50 FTE to continue to provide technical

assistance, maintain and develop maps, and response to requested waivers.

Ecology estimates 0.75 FTE Environmental Specialist (ES4) each year in FY 2026 and FY 2029 to support jurisdictions ahead of the 2027 and 2030 compliance deadlines.

Additional communication staff support is required to implement this section, including 0.05 FTE Communication Consultant 3 (CC3) each year in FY 2026 through FY 2030 to support web updates, publications, and other web-based outreach materials.

Ecology estimates 0.10 FTE Community Outreach and Environmental Educational Specialist 3 (COEES3) each year in FY 2027 through FY 2030 to help facilitate stakeholder engagement and jurisdictional outreach.

Ecology estimates 0.08 FTE Community Outreach and Environmental Educational Specialist 4 (COEES4) each year in FY 2027 and 2028 to increase awareness and assistance through social media.

RULEMAKING: ORGANIC MATERIALS MANAGEMENT TRAINING (Section 301)

Section 301 would require Ecology to add a new section to chapter 173-350 WAC to adopt standards that allow local jurisdictions to exempt persons from subscribing to mandatory collection if they manage organic materials through an alternative mechanism that provides equal or better environmental outcomes.

Ecology assumes rulemaking would be moderately complex and generate public interest and input. Based on our experience, a rulemaking of this level of complexity would require two years, from July 2024 to June 2026. Ecology assumes we would perform an Environmental Justice Assessment in FY 2025 as required under the HEAL Act, Chapter 70A.02 RCW.

Ecology assumes we would create a rule advisory committee to develop draft language throughout the rulemaking process. Based on the Chapter 70A.245 RCW rule, we assume four to six meetings with the rule advisory committee. Ecology would conduct targeted outreach and consult with organization types impacted by the rule as well as overburdened communities and vulnerable populations across the state throughout the rulemaking process.

Rulemaking Administrative Coordinator: A Regulatory Analyst 3 (RA3) would oversee the rulemaking process to comply with the Administrative Procedures Act; coordinate with the rulemaking lead to prepare the rule development and communication plan; coordinate with the agency regulatory staff on the economic and regulatory impact analysis, and support filing the CR-101, CR-102, and the CR-103 for adoption. This would require an estimated workload of 0.12 FTE in FY 2025 and 0.06 FTE in FY 2026.

Rulemaking Lead: An Environmental Planner 4 (EP4) would provide policy expertise and lead the rulemaking effort, draft and revise rule language, lead public meetings and hearings, and work with other program staff as needed to execute the rule development plan, with an estimated workload of 0.50 FTE in FY 2025, and 0.20 FTE in FY 2026.

Technical Support: An Environmental Specialist 4 (ES4) would collect data, support analysis of potential policy outcomes, provide support to the rulemaking lead and subject matter experts, and coordinate with communications staff to provide technical support for public outreach. This includes any need for regional support. This would require 0.25 FTE in FY 2025 and 0.13 FTE in FY 2026.

Communications and outreach support is included to ensure adequate public engagement in the rulemaking process. The following positions would support public engagement:

Communications Lead: A Communications Consultant 5 (CC5) would coordinate an outreach strategy and media

engagement. This would require 0.05 FTE in FY 2025 and 0.04 FTE in FY 2026.

Website Developer: A Communications Consultant 3 (CC3) would coordinate with the rulemaking lead on a public website for the rulemaking process. This would require 0.05 FTE in FY 2025 and 0.04 FTE in FY 2026.

Outreach Coordinator: A Community Outreach and Environmental Educational Specialist 3 (COEES3) would facilitate the pre-proposal and other meetings, manage the rule comments platform, and help with e-mail, website, and public engagement. The estimated workload is 0.10 FTE in FY 2025 and 0.05 FTE in FY 2026.

The following positions would complete an economic and regulatory analysis of the rule: Economic Analyst 3, 0.20 FTE in FY 2026; Regulatory Analyst 2, 0.05 FTE in FY 2026.

Ecology would hold two meetings in FY 2025, and two hearings in FY 2026. Goods and services estimates include facility rental costs estimated at \$1,000 per meeting for \$2,000 each year in FY 2025 and FY 2026.

Verification (Section 302)

Section 302 would authorize Ecology to review and verify a jurisdiction's request to be excluded from business organics management areas. Ecology would verify a jurisdiction's request to determine whether businesses in their jurisdiction are required to arrange for organic collection service.

Ecology estimates 0.05 Environmental Planner 4 (EP4) each year in FY 2025 and ongoing to review and confirm waiver requests.

Ecology estimates 0.05 FTE Environmental Specialist 4 (ES4) each year in FY 2025 and ongoing to support the EP4 and communicate updates with jurisdictions and businesses and provide technical assistance to impacted stakeholders. This staffing need is estimated to remain consistent from FY 2025 until the requirements of RCW 70A.205.540 would fully be implemented in 2030.

Ecology estimates 0.01 FTE Community Outreach and Environmental Educational Specialist 4 (COEES4) each year in FY 2025 to FY 2030 to increase awareness and assistance to businesses including webinars and Ecology's social media and networks.

Collection Containers (Section 303)

Section 303 would standardize the colors of collection containers beginning July 1, 2026. By January 1, 2025, all containers for collection services must bear a clear and conspicuous label on each container or lid specifying what materials are allowed to be placed in each container. Ecology would be authorized to provide model language and graphics for standard labels, and determine by rule, appropriate container, or containers to be used for materials that could conceivably be placed in multiple containers. Ecology would be authorized to adopt rules to prohibit additional waste stream contaminants from being placed in the wrong containers. Ecology assumes rule adoption would not be necessary, but that technical assistance to jurisdictions would be required. Ecology would develop guidance, provide technical assistance to local jurisdictions and solid waste collection service providers, develop model labeling text and resources and a communication plan to ensure jurisdictions and service providers are notified of the new requirements.

Ecology estimates 0.10 FTE Environmental Specialist 4 (ES4) in FY 2026 to develop guidance, provide technical assistance to local jurisdictions and solid waste collection service providers, develop model labeling text and resources, and a communication plan to ensure jurisdictions and service providers are notified of new requirements. Ecology estimates 0.03 FTE ES4 in FY 2027 through 2032 to support the ongoing technical assistance needed to support this new section.

Ecology estimates 0.04 FTE Community Outreach and Environmental Educational Specialist 4 (COEES4) in FY 2025 to

develop materials including model graphics and text that may be used by jurisdictions and service providers.

Produce Sticker Study (Section 401)

Section 401 would require Ecology, in consultation with WSDA, to carry out a study addressing produce sticker technologies including options that do not include plastic stickers or adhesives or that otherwise meet compostability standards. A report would be due to the legislature by September 1, 2025.

Ecology assumes a consultant would be hired FY 2025 to conduct the study of produce sticker technology. WSDA would be consulted in study design and provide comments on the draft. The study would be completed by June 2025 and the report submitted to the Legislature by September 1, 2025.

Based on a past experience, Ecology assumes we would oversee the study and estimates Environmental Planner 4 (EP4) would be required to administer the contracting process, coordinate with the third-party contractor conducting the study, review the draft study in consultation with WSDA, review and finalize the legislative report based on the study's findings and recommendations, and submit the report the legislature. This work would require 0.50 FTE EP4 in FY 2025 and 0.08 FTE EP4 in FY 2026. The estimated contract cost for the third-party consultant is \$150,000 in FY 2025 in Object C.

The legislative report requires the following additional staff:

Environmental Planner 5 (EP5) 0.05 FTE FY 2025 and .01 FTE FY 2026 for policy and technical review of the draft report.

Environmental Planner 4 (EP4) 0.05 FTE FY 2025 and 0.01 FTE FY 2026 for policy and technical review of the draft report.

Communications Consultant 5 (CC5) 0.01 FTE FY 2025 and 0.01 FTE FY 2026 for communications review for content clarity and key messages; the majority of work for the CC5 will occur in FY 2026 prior to publication of the report.

Communications Consultant 2 (CC2) 0.03 FTE FY 2025 and 0.01 FTE FY 2026 for accessibility and plain talk review; the majority of work for the CC2 will occur in FY 2026 prior to publication of the report.

Environmental Planner 5 (EP5) 0.10 FTE FY 2025 and 0.02 FTE FY 2026 for advising the project lead on the program legislative process and coordination with the agency Governmental Relations Office on the review.

AAG Support

The Assistant Attorney General (AAG) has estimated that the following staff time in the Office of the Attorney General (ATG) would be needed to provide legal support to add five new grant programs under Ecology's Center for Sustainable Food Management and advice on rulemaking for adopting standards by which local jurisdictions may exempt individuals from only using curbside collection services to discard organic materials by January 1, 2026..

Estimated workload and costs are 0.06 FTE AAG for a total of \$18,000 in FY 2025, 0.04 FTE AAG for \$11,000 in FY 2026. Costs are included in Object E.

Labeling (Section 504)

Section 504 would define "home compostable," and "home compostable," labeling requirements. Ecology estimates 0.04 FTE Environmental Specialist 4 (ES4) in FY 2025 to develop resources and technical assistance tools to communicate the new definitions.

Compost Procurement Reporting (Section 602)

Section 602 would change the reporting for the compost procurement ordinances to occur annually instead of every other year, as current law requires. Ecology estimates 0.05 FTE Environmental Specialist 4 (ES4) in FY 2026, 0.04 FTE in FY 2028, and 0.02 FTE in FY 2030 and ongoing every even fiscal year thereafter.

Workgroup and Report (Section 702)

Section 702 would require Ecology to establish a food rescue workgroup housed under the Food Center and task Ecology with developing a report to the Legislature by September 1, 2025. The workgroup would address mechanisms to mandate or improve the rescue of edible food waste from commercial generators and must consider criteria in the report development. Ecology assumes the primary work of the workgroup would occur between July 2024 and April 2025. Development and completion of the legislative report would occur between April 2025 through August 2025. All meetings of the workgroup would be conducted virtually.

Ecology estimates 0.90 FTE Environmental Planner 4 (EP4) in FY 2025 and 0.20 FTE in FY 2026 to lead the workgroup development, public process, and all reporting requirements to the Legislature including managing the final review and submittal of the report, using agency guidance. The estimates allow time for coordinating reviews, publishing the final report, and submitting the report to the Legislature.

Ecology estimates additional support to convene the workgroup would require 0.20 FTE Environmental Specialist (ES4) in FY 2025 and 0.02 FTE in FY 2026 to provide additional technical assistance support to the lead, including guidance, data, and review.

0.25 FTE Community Outreach and Environmental Educational Specialist 3 (COEES3) in FY 2025. This support would facilitate meetings, coordinate stakeholder engagement, and consolidate information for the report.

The legislative report requires the following additional staff:

Environmental Planner 5 (EP5) 0.05 FTE in FY 2025 and 0.05 FTE in FY 2026 for policy and technical review of the draft report.

Environmental Planner 4 (EP4) 0.05 FTE in FY 2025 and 0.05 FTE in FY 2026 for policy and technical review of the draft report.

Communications Consultant 5 (CC5) 0.01 FTE in FY 2025 and 0.04 FTE in FY 2026 for communications review for content clarity and key messages. Ecology assumes most of the work for the CC5 would occur in FY 2026 prior to publication of the report.

Communications Consultant 2 (CC2) 0.01 FTE in FY 2025 and 0.04 FTE in FY 2026 for accessibility and plain talk review. Ecology assumes most of the work for the CC2 would occur in FY 2026 prior to publication of the report.

Environmental Planner 5 (EP5) 0.05 FTE in FY 2025 and 0.05 FTE in FY 2026 to advise the project lead on the program legislative process and report and coordinate with the agency Governmental Relations Office on the report review and submittal.

SUMMARY: The expenditure impact to Ecology under this bill is described below.

Part 2: Funding Sustainable Food Management Priorities is estimated to require (Indeterminate costs):

FY 2025: \$688,873 and 3.9 FTEs

FY 2026: \$953,201 and 4.2 FTEs

FY 2027: \$528,908 and 1.5 FTEs

FY 2028: \$400,000 and 0.7 FTE
FY 2029: \$400,000 and 0.7 FTE

Part 3: Amendments to Solid Waste Laws is estimated to require:

FY 2025: \$328,116 and 2.3 FTEs
FY 2026: \$415,691 and 2.9 FTEs
FY 2027: \$178,053 and 1.3 FTEs
FY 2028: \$151,650 and 1.1 FTEs
FY 2029: \$259,806 and 1.9 FTEs

Part 4: Date Labeling Standardization is estimated to require:

FY 2025: \$281,190 and 0.9 FTE
FY 2026: \$24,577 and 0.2 FTE

Part 5: Product Degradability Restrictions is estimated to require:

FY 2025: \$6,391 and 0.0 FTE

Part 6: Compost Purchases is estimated to require:

FY 2026: \$7,989 and 0.1 FTE
FY 2028: \$6,391 and 0.0 FTE

Part 7: Miscellaneous – Workgroup and Legislative Report is estimated to require:

FY 2025: \$253,311 and 1.7 FTEs
FY 2026: \$78,289 and 0.5 FTE

THE TOTAL EXPENDITURE IMPACT to Ecology under this bill is estimated to be:

FY 2025: \$1,557,881 and 8.8 FTEs
FY 2026: \$1,479,747 and 7.9 FTEs
FY 2027: \$706,961 and 2.8 FTEs
FY 2028: \$558,041 and 1.9 FTE
FY 2029: \$659,806 and 2.6 FTE

Notes on costs by object:

Salary estimates are current biennium actual rates at Step L.

Benefits are the agency average of 34.1% of salaries.

Personal Service Contract includes \$150,000 in FY 2025 for a consultant study.

Goods and Services are the agency average of \$6,048 per direct program FTE, includes \$104,000 in FY 2025 for EAGL grant development and rulemaking facility rental costs, \$5,000 in FY 2026, and \$1,000 in FY 2027 for rulemaking facility rental costs, and AAG costs of \$18,000 in FY 2025, \$11,000 in FY 2026.

Travel is the agency average of \$2,205 per direct program FTE.

Grants, Benefits, and Client Services include grant funds of \$305,487 each year in FY 2026 and ongoing for Waste Not Washington Awards.

Equipment is the agency average of \$1,286 per direct program FTE.

Agency Administrative Overhead is calculated at the federally approved agency indirect rate of 29.8% of direct program salaries and benefits, and is shown as object 9. Agency Administrative Overhead FTEs are included at 0.15 FTE per direct program FTE, and are identified as Fiscal Analyst 2 and IT App Development - Journey.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

| Account | Account Title | Type | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|-----------------|----------------------------------------|-------|---------|-----------|-----------|-----------|-----------|
| 23P-1 | Model Toxics Control Operating Account | State | 0 | 1,557,881 | 1,557,881 | 2,186,708 | 1,217,847 |
| Total \$ | | | 0 | 1,557,881 | 1,557,881 | 2,186,708 | 1,217,847 |

In addition to the estimates above, there are additional indeterminate costs and/or savings. Please see discussion.

III. B - Expenditures by Object Or Purpose

| | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|--------------------------------------|---------|-----------|-----------|-----------|-----------|
| FTE Staff Years | | 8.8 | 4.4 | 5.4 | 2.2 |
| A-Salaries and Wages | | 696,885 | 696,885 | 844,486 | 327,554 |
| B-Employee Benefits | | 237,634 | 237,634 | 287,967 | 111,695 |
| C-Professional Service Contracts | | 150,000 | 150,000 | | |
| E-Goods and Other Services | | 168,202 | 168,202 | 73,302 | 23,282 |
| G-Travel | | 16,847 | 16,847 | 20,529 | 8,492 |
| J-Capital Outlays | | 9,823 | 9,823 | 11,974 | 4,953 |
| N-Grants, Benefits & Client Services | | | | 610,974 | 610,974 |
| 9-Agency Administrative Overhead | | 278,490 | 278,490 | 337,476 | 130,897 |
| Total \$ | 0 | 1,557,881 | 1,557,881 | 2,186,708 | 1,217,847 |

In addition to the estimates above, there are additional indeterminate costs and/or savings. Please see discussion.

III. C - Operating FTE Detail: *List FTEs by classification and corresponding annual compensation. Totals need to agree with total FTEs in Part I and Part IIIA*

| Job Classification | Salary | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|--------------------------|---------|---------|---------|---------|---------|---------|
| COM OUTRCH & ENV ED SP 3 | 67,717 | | 0.4 | 0.2 | 0.1 | 0.1 |
| COM OUTRCH & ENV ED SP 4 | 78,476 | | 0.1 | 0.0 | 0.2 | 0.2 |

| Total FTEs | | | 8.8 | 4.4 | 5.4 | 2.2 |

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Section 203 (5) would authorize Ecology to adopt any rules necessary to implement this chapter, including, but not limited to, measures for the Center's performance. Ecology assumes rulemaking would be required to establish the grant programs in sections 201 and 202. Ecology assumes a highly complex rule from October 2024 to September 2026.

Section 301(1)(e) would require Ecology to adopt standards for persons to be exempt from organic material disposal service requirements when using alternative mechanisms that provide equal or better environmental outcomes by January 1, 2026.

Individual State Agency Fiscal Note

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Compared to SHB 2301, P2SHB 2301 (H3133.1) has the following changes as they relate to fiscal impacts for the Washington State Department of Agriculture (WSDA): Section 201 removes the requirement for WSDA consultation for grant program development and implementation. Section 305, which previously banned certain herbicides from compost feedstocks, is removed.

The amendments summarized above would change the fiscal impacts WSDA estimated for the previous version of the proposed legislation.

Under current law, Washington State Department of Agriculture (WSDA) distributes emergency food assistance grant funds to hunger relief organizations through state funded Emergency Food Assistance Program (EFAP) grants and We Feed Washington grants and distributes federal Emergency Food Assistance funding through the U.S. Department of Agriculture. implements food safety and produce inspection regulations in Chapters 15.130 and 15.17 Revised Code of Washington (RCW) and administers compost purchase and use reimbursement grants for farming operations in the state in RCW 15.04.420.

The proposed legislation would create a new Washington Commodities Grant Program, modify food date labeling standards and other food safety provisions, restrict materials treated with certain pesticides from compost feedstocks, modify compost purchase reimbursement grant program requirements, and create a work group to study rescue of commercial food waste.

Section 204 would require WSDA to implement a Washington Commodities Grant Program to procure Washington grown produce, grains, and protein otherwise at risk of becoming food waste for distribution to hunger relief organizations.

Section 401 would require the Department of Ecology to prepare a study on the status of produce stickers with consultation from WSDA.

Section 601 would modify provisions of the Compost Reimbursement Program administered by WSDA.

Section 702 would require WSDA to be a member of a work group to study means of supporting and enhancing food donation by businesses.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The expenditure impact to Washington State Department of Agriculture (WSDA) is estimated to be greater than \$50,000 in fiscal years (FYs) 2025 and ongoing each fiscal year thereafter.

Costs for section 204 and the food safety-related consultation for the study in section 401 are estimated in the state general fund. All other costs are assumed to be in the Model Toxics Control Account-Operating (MTCA-Op), which currently supports WSDA activities to implement organic materials management laws and is the primary account used for WSDA's pesticide management activities under current law.

WSDA assumes implementation would begin July 1, 2024.

Food Waste Reduction through Food Assistance and Hunger Relief (Sections 204 and 702)

Section 204: Washington Commodities Donation Grants

WSDA would develop the Washington Commodities Donation Grant program and issue grants under this section to one or more nonprofit (food cooperative) organizations to acquire food directly from food producers located in Washington.

WSDA assumes funding authority for costs in this section would be state general fund, based on the current funding authority for We Feed Washington grants.

The intended funding level specified for the grants in section 204 would be \$25 million biennially or more. Per section 2 (2) WSDA would be required to rely on existing infrastructure and similar grant programs and give priority to nonprofit food cooperative organizations with five or more years' experience in the collection and transportation of donated agricultural products. WSDA assumes the primary audience for this grant program would be well-connected with WSDA and have adequate administrative capacity to manage a grant award from the state with little to moderate technical assistance. Workload estimates are based on a total of twenty-five awards, with biennial pass-through funding of at least \$23.75 million, and are based on WSDA's experience implementing the We Feed Washington grant program, which commenced in the 2021-23 biennium.

WSDA assumes 0.25 FTE Commerce Specialist 5 (CS5) in FY 2025 to solicit community input, design the grant program and criteria, with 0.04 FTE (88 hours) Food Policy Advisor (WMS3) for leadership to engage in design and stakeholder engagement processes.

Travel includes estimated costs for the CS5 and policy advisor for 10 outreach sessions, for a total of \$8,400 in FY 2025.

Cost estimates in professional services contracts include an estimate of \$40,000 in FY 2025 for community engagement services.

Necessary ongoing staffing includes one full-time CS5 to oversee the grant program, lead stakeholder relations, and manage staff, as well as two full-time CS2 positions to oversee invoice processing and grant agreement compliance as grant specialists, and 0.01 FTE each of the Food Policy Advisor (WMS3) and a Management Analyst 3 (MA3) to support program operations. Based on the assumption grants would begin halfway through FY 2025, estimated staffing by fiscal year is as follows:

0.5 FTE CS5 in FY 2025, and 1.0 FTE CS5 in FY 2026 and ongoing each fiscal year thereafter.

1.0 FTE CS2 in FY 2025, and 2.0 FTE CS2 in FY 2026 and ongoing each fiscal year thereafter.

0.01 FTE WMS3 in in FY 2025 and ongoing each fiscal year thereafter; and

0.01 FTE MA3 in in FY 2025 and ongoing each fiscal year thereafter.

Translation and language access services are estimated at \$10,000, and grant management software license fees are estimated to be \$17,000, for a total of \$27,000 annually in Goods and services, starting in FY 2025. Estimates are based on comparable costs for We Feed Washington grants.

The Attorney General's Office (ATGO) assumes legal advice would be needed during development and initial implementation of the new grant program. Estimated costs are based on experience with the We Feed Washington grant program. One-time costs in FY 2025 for initial grant program development. Estimated costs are \$86,000 in FY 2025, \$69,000 in FY 2026 and ongoing every even-numbered fiscal year thereafter, and \$49,000 in FY 2027 ongoing every

odd-numbered fiscal year thereafter.

Indeterminate costs:

Section 204 (5) would establish the intent of the Legislature to allocate at least \$25,000,000 per biennium for the program established in this section. Based on an assumption of funding at a level of \$12,500,000 per fiscal year, beginning in FY 2025, this fiscal note estimates available grant capacity, based on estimated costs for grant development and ongoing implementation. Estimated grant funding is as follows, and is not included in the fiscal note tables:

FY 2025: \$12,056,621

FY 2026 and ongoing each even-numbered fiscal year thereafter: \$11,948,232

FY 2027 and ongoing each odd-numbered fiscal year thereafter: \$11,969,232

Total estimated grant development and administration costs for section 204 in the fiscal note tables are as follows:

FY 2025: \$443,379 and 1.81 FTE

FY 2026 and ongoing each even-numbered fiscal year thereafter: \$551,768 and 3.02 FTE

FY 2027 and ongoing each odd-numbered fiscal year thereafter: \$530,768 and 3.02 FTE

Section 702: Work Group to Study Food Donation by Businesses

By September 2025, the work group established in this section would be required to submit a consensus-driven report of recommendations based on the criteria specified in this section to the Legislature. The work group would be led by Ecology’s Center for Sustainable Food Management, and WSDA would be a member of the work group.

WSDA received funding in the 2022 Supplemental Operating Budget for a Food Waste Reduction Coordinator. Because of the short-term nature and fast turn-around timeline for this work group, WSDA would use this position’s expertise and ability to consult with leaders across WSDA’s diverse portfolio of programs that impact and support farm and food businesses. Based on this, WSDA assumes the workload for section 702 could be performed with existing resources.

Status Assessment of Produce Sticker Technologies (Section 401)

WSDA would provide consultation support to Washington State Department of Ecology (Ecology) as needed. Based on an assumption of time spent consulting with producers and industry groups on current use of produce stickers and logistical considerations for using different materials and labeling methods, and time spent sharing information with Ecology and reviewing the draft study, WSDA estimates 16 hours each for Fruit and Vegetable and Food Safety Program Managers in FY 2025. Costs are estimated in the Fruit and Vegetable Inspection Account and the state general fund.

Total estimated costs for section 401 are as follows:

FY 2025: \$3,981 and 0.02 FTE

Compost Reimbursement Program (Section 601)

For section 601 (3) and 601 (5) (e), Washington Department of Ecology has a list of eligible compost facilities which would be used to update program documents. After the initial updates, WSDA assumes minimal workload needed for periodic maintenance.

Based on the assumptions above, WSDA estimates 60 hours (0.03 FTE) Environmental Specialist 3 (ES3) in FY 2025 to update the map to show eligible facilities and update the drop-down lists of facilities in the eligibility review and reimbursement applications.

Section 601 (5) (c) would change how the compost reimbursement amount is calculated. WSDA assumes minimal time would be needed to calculate the grant amount that a farm is eligible to receive. This extra step will occur when applications are being processed, which only takes place a few times a year. There may also be some added work processing reimbursements. The additional administrative work associated with these changes would likely be minimal and occur sporadically.

The Attorney General’s Office (ATGO) assumes legal advice would be provided for the changes to the Compost Reimbursement Grants. The ATGO estimates 12 hours of AAG time would be needed, and the estimated cost is \$2,000 in FY 2025 and included in Goods and Services.

Total estimated costs for section 601 are as follows:

FY 2025: \$6,234 and 0.03 FTE

Total estimated costs for the proposed legislation are as follows:

FY 2025: \$453,593 and 1.86 FTE

FY 2026: \$551,768 and 3.02 FTE

FY 2027 and ongoing every odd-numbered fiscal year thereafter: \$530,768 and 3.02 FTE

FY 2028 and ongoing every even-numbered fiscal year thereafter: \$551,768 and 3.02 FTE

Summary of cost assumptions by object:

Salary estimates are current biennium actual rates at Step L.

Benefits are calculated based on current standard statewide benefit rates.

Professional Services includes \$40,000 in FY 2025 for community engagement.

Goods and Services are the agency average of \$8,600 per direct program FTE. Goods and Services also include building lease costs, estimated at \$3,800 per FTE per year, professional development costs estimated at \$500 per FTE per year, and personnel services charges, estimated to be 0.347% of salaries. Goods and services also includes \$88,000 in FY 2025, \$69,000 in FY 2026 and ongoing every even-numbered fiscal year thereafter, and \$49,000 in FY 2027 ongoing every odd-numbered fiscal year thereafter for ATGO support. Also included are estimated translation and grant software license costs totaling \$27,000 in FY 2025 and ongoing.

Travel includes costs for grant program outreach and community engagement in FY 2025.

Agency Administrative Overhead is calculated based on a rate of 24.6% of direct program salaries and benefits.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

| Account | Account Title | Type | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|-----------------|----------------------------------------|------------------|---------|---------|---------|-----------|-----------|
| 001-1 | General Fund | State | 0 | 445,502 | 445,502 | 1,082,536 | 1,082,536 |
| 23P-1 | Model Toxics Control Operating Account | State | 0 | 6,233 | 6,233 | 0 | 0 |
| 516-6 | Fruit and Vegetable Inspection Account | Non-Appropriated | 0 | 1,858 | 1,858 | 0 | 0 |
| Total \$ | | | 0 | 453,593 | 453,593 | 1,082,536 | 1,082,536 |

III. B - Expenditures by Object Or Purpose

| | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|--------------------------------------|---------|---------|---------|-----------|-----------|
| FTE Staff Years | | 1.9 | 0.9 | 3.0 | 3.0 |
| A-Salaries and Wages | | 157,912 | 157,912 | 491,774 | 491,774 |
| B-Employee Benefits | | 55,067 | 55,067 | 175,166 | 175,166 |

| N-Grants, Benefits & Client Services | | | | | |
| 9-Agency Administrative Overhead | | 52,393 | 52,393 | 164,068 | 164,068 |
| Total \$ | 0 | 453,593 | 453,593 | 1,082,536 | 1,082,536 |

III. C - Operating FTE Detail: *List FTEs by classification and corresponding annual compensation. Totals need to agree with total FTEs in Part I and Part IIIA*

| Job Classification | Salary | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
|----------------------------|---------|---------|---------|---------|---------|---------|
| COMMERCE SPECIALIST 2 | 70,800 | | 1.0 | 0.5 | 2.0 | 2.0 |
| COMMERCE SPECIALIST 5 | 95,184 | | 0.8 | 0.4 | 1.0 | 1.0 |
| ENVIRONMENTAL SPECIALIST 3 | 72,552 | | 0.0 | 0.0 | | |
| MANAGEMENT ANALYST 3 | 74,376 | | 0.0 | 0.0 | 0.0 | 0.0 |
| WMS BAND 2 | 102,115 | | 0.0 | 0.0 | | |
| WMS BAND 3 | 119,706 | | 0.1 | 0.0 | 0.0 | 0.0 |
| Total FTEs | | | 1.9 | 1.0 | 3.0 | 3.0 |

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

WSDA assumes the requirements and criteria for the grant program in section 204 could be established without a formal rulemaking.
