-------------------------------	--	---

## Part I: Estimates

**No Fiscal Impact**

### Estimated Cash Receipts to:

ACCOUNT	FY 2024	FY 2025	2023-25	2025-27	2027-29
OFM Central Service Account-State 468-1	188,000	178,000	366,000	356,000	356,000
<b>Total \$</b>	188,000	178,000	366,000	356,000	356,000

### Estimated Operating Expenditures from:

	FY 2024	FY 2025	2023-25	2025-27	2027-29
FTE Staff Years	1.0	1.0	1.0	1.0	1.0
<b>Account</b>					
OFM Central Service Account-State 468-1	188,000	178,000	366,000	356,000	356,000
<b>Total \$</b>	188,000	178,000	366,000	356,000	356,000

### Estimated Capital Budget Impact:

NONE

*The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.*

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

OFM Review: Cheri Keller	Phone: (360) 584-2207	Date: 02/14/2023

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Changes in this substitute version compared to the original: this substitute version changes some of the definitions for the new required dashboard metrics and the due date for posting the dashboard on OFM's website from December 1st to January 15th. These changes do not change OFM's fiscal impact assumptions from the original fiscal note.

Substitute version:

The Education Research & Data Center (ERDC) at OFM develops and maintains the public four-year dashboard for institutions of higher education within Washington. Section 1 of this bill would increase the information and data collected and displayed by the dashboard to include several new items:

- o Ratio of fall headcount students to fall headcount faculty appointments.
- o Annualized ratio of full-time equivalent students to annualized full-time equivalent nonfaculty positions.
- o Net position for the academy.
- o Annual primary reserve ratio as measured by expendable net assets to total expenses.
- o Cash on hand ratio.
- o Viability ratio as measured by unrestricted and expendable net assets, not including capital projects expendable net assets, divided by total debt.
- o Ratio of total expendable new assets.
- o Total market value of college or university endowment holdings.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

OFM distributes costs incurred in fund 468 OFM Central Service Account through the central service model. Any assumed increase in the account would be matched by an increase in the OFM Central Services fee.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

To display the new metrics required by this bill on the Dashboard, the Education Research & Data Center (ERDC) would have to develop and maintain a new annual data collection system with the six public 4-year institutions, develop metric definitions, and expand the public 4-year dashboard to include the additional metrics. The Public Centralized Higher Education Enrollment System (PCHEES) data system, which collects student data and is maintained by ERDC, collects neither faculty nor fiscal data. Additionally, neither the faculty or fiscal data is currently available at the state-level or through OFM systems and because most of the data required for the metrics is not student data; the PCHEES data collection system would not work to collect this data.

To complete this additional workload, OFM will need 1.0 ERDC Education Data Visualization Analyst for the following activities:

- o design, implement, and maintain a data collection system across the six 4-year Washington Public Institutions to support the creation of the new metrics
- o use the additional data collected to create a data summary/visualization with the required metrics and disaggregations

1.0 FTE ERDC Education Data Visualization Analyst cost assumptions:

- o Salaries and benefits: ERDC Education Data Visualization Analyst (Exempt) at \$140,000 annually, ongoing.

- o Goods and services: supplies, communications services, lease space, training, software licensing at \$4,000 per FTE annually, ongoing.
- o Travel: travel associated with this position at \$4,000 per FTE annually, ongoing.
- o Capital Outlays: a workstation, furniture, and computer at \$10,000 per FTE.
- o Shared Service Costs: administrative support, IT support, budget and accounting services, facilities support, and human resource assistance at \$30,000 per FTE annually, ongoing.

**Part III: Expenditure Detail**

**III. A - Operating Budget Expenditures**

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29
468-1	OFM Central Service Account	State	188,000	178,000	366,000	356,000	356,000
<b>Total \$</b>			188,000	178,000	366,000	356,000	356,000

**III. B - Expenditures by Object Or Purpose**

	FY 2024	FY 2025	2023-25	2025-27	2027-29
FTE Staff Years	1.0	1.0	1.0	1.0	1.0

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

S SB 5512 makes the following changes to the underlying bill:

- Specifies that the measures are specific to the academic enterprise.
- Clarifies definitions and uses the National Center for Education Statistics definitions where appropriate.
- Modifies the reporting date.

#### FISCAL IMPACTS RESULTING FROM CHANGES:

The University of Washington (UW) does not anticipate any changes to our ‘no impact’ assessment for purposes of this fiscal note.

Overall SB 5512 adds several financial and non-financial metrics to the required data points submitted by Washington state Institutions of Higher Education (IHE) and published to the public four-year dashboard.

Production of the financial metrics noted in 5512 SB would entail a review of guidance from the State for specific detailed inclusions or exclusions (if any) aside the basic accounting elements outlined in the bill language and an analysis of the UW’s financial system of record. This is expected to immaterially increase the level of effort on agency operations and could be absorbed within existing roles and resources.

For the purposes of this fiscal note, the UW assumes the additional student/faculty ratio data reporting requirements would be submitted to the Education Research & Data Center (ERDC) in aggregate. Based on this assumption, we anticipate this would require a negligible amount of additional work to determine definitions, pull, and report this data, which could be absorbed within existing roles and resources. However, if this assumption were incorrect, and the interpretation from the ERDC was to require individualized data sets to calculate these ratios, there would be fiscal impacts resulting from a new DSA and data feed.

Based on our assumptions and interpretation of this legislation the UW assumes no fiscal impacts of S SB 5512.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

S SB 5512 would require public four-year institutions of higher education to report additional metrics to the Education Research and Data Center.

For purposes of the fiscal note, WSU assumes the financial metrics described can be collected from its financial statements. WSU assumes that metrics described in Sections 1.2(s) and 1.2(t) can utilize aggregated headcount numbers and the institutions of higher education can use a standard set of data definitions for this purpose. WSU therefore estimates no fiscal impact as a result of the bill.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

SSB 5512 amends RCW 28B.77.090 to add financial transparency reporting requirements to the public four-year dashboard, including the following:

- Ratio of fall headcount students to fall headcount faculty
- Annualized ratio of FTE students to FTE nonfaculty positions
- Net position as defined by the NCES integrated postsecondary data system glossary
- Annual primary reserve ratio
- Cash on hand
- Viability ratio
- Ratio of total expendable net assets as defined by the NCES integrated postsecondary data system glossary
- Total market value of university endowment holdings

Eastern would encourage standard definitions so the ratios are comparable for all higher education institutions.

EWU currently calculates these metrics internally and presents them to the Board of Trustees, as such there is no additional fiscal impact.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

SB 5512 amends section one by expanding the reporting requirements related to the annual report submitted to the Education Data Center. The substitute bill adds specific financial reporting requirements to that section, which are fairly standard and some are already being provided for other purposes. Central Washington University has considered the requirements of the bill and has determined that any effort required to implement the proposed legislation would be allocated among existing resources.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part III: Expenditure Detail

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

S SB 5512 relates to adding financial transparency requirements to the public four-year dashboard.

Section 1 (2) (u) removes the proposed annual operating margin from the list of reported indicators and replaces it with: “Net position for the academy as defined by the national center for educational statistics, IPEDS data glossary.”

Section 1 (2) (w) revises “minimum reserves” to “cash on hand calculated by the total cash on hand for the academy divided by operating expenses for the academy minus noncash expenses divided by 365.”

Section 1 (2) (y) revises “ratio of total financial resources” to ratio of total expendable net assets for the academy as defined by the IPEDS data glossary per FTE.

Section 1 (4) revises the date on which institutions must display this data on the OFM website from December 1st to January 15th.

The revised bill changes some of the titles for data we already collect. This would require a reporting change which is minimal. Therefore, we feel this revision has no fiscal impact.

\*\*\*\*\*

SB 5512 relates to adding financial transparency reporting requirements to the public four-year dashboard.

Section 1 (2) (s) adds the ratio of fall headcount students to fall headcount faculty appointments

Section 1 (2) (t) adds an annualized ratio of full-time equivalent students to annualized full-time equivalent nonfaculty positions.

Section 1 (2) (u) adds an annual operating margin as measured by the percent of all annual university revenues against annual university expenses.

Section 1 (2) (v) adds an annual primary reserve ratio as measured by expendable net assets to total expenses.

Section 1 (2) (w) adds minimum reserves as measured by the number of days the college or university can operate and cover its unrestricted operating expense with cash.

Section 1 (2) (x) adds a Viability ratio as measured by unrestricted and expendable net assets, not including capital projects expendable net assets, divided by total debt.

Section 1 (2) (y) adds a ratio of total financial resources per full-time equivalent students.

Section 1 (2) (z) adds the total market value of college or university endowment holdings.

Most of the measures and data described in the bill are already collected and aggregated, so fiscal impact should be minimal.

However, for any individual-level data, it would be more efficient for the Education Research and Data Center to run the process and calculations. This may necessitate additional data sharing agreement work with the 4-years, which could have a fiscal impact.

## **II. B - Cash receipts Impact**

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

## **II. C - Expenditures**

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## **Part III: Expenditure Detail**

### **III. A - Operating Budget Expenditures**

NONE

### **III. B - Expenditures by Object Or Purpose**

NONE

**III. C - Operating FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

### **III. D - Expenditures By Program (optional)**

NONE

## **Part IV: Capital Budget Impact**

### **IV. A - Capital Budget Expenditures**

NONE

### **IV. B - Expenditures by Object Or Purpose**

NONE

### **IV. C - Capital Budget Breakout**

*Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.*

NONE

**IV. D - Capital FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

## **Part V: New Rule Making Required**

*Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.*

# Individual State Agency Fiscal Note

<b>Bill Number:</b> 5512 S SB	<b>Title:</b> Higher ed. financial reports	<b>Agency:</b> 380-Western Washington University
-------------------------------	--	--

## Part I: Estimates

**No Fiscal Impact**

**Estimated Cash Receipts to:**

NONE

**Estimated Operating Expenditures from:**

NONE

**Estimated Capital Budget Impact:**

NONE

*The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.*

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This is a substitute bill (first). The major changes, as compared to the original SB?5512, are in Section?1(2)(u) through (y) pertaining to ratios to measure the financial health of the institution. The ratio definitions have been updated to use current terminology and standardized IPEDS data definitions which help clarify the required information. Furthermore, the due date has been changed from Dec 1 to Jan 15 which is more realistic from a financial statement preparation and audit completion perspective.

We anticipate some initial lift to develop the financial and student metrics; however, if we use commonly accepted definitions of data we already provide to IPEDS, then there will be little ongoing fiscal impact. We further presume that OFM will be the lead agency and will help refine the metric definitions where needed through coordination with the impacted institutions. Ongoing efforts to provide the required data would have minimal to no fiscal impact.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part III: Expenditure Detail

### III. A - Operating Budget Expenditures

NONE

### III. B - Expenditures by Object Or Purpose

NONE

**III. C - Operating FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

### III. D - Expenditures By Program (optional)

NONE

## Part IV: Capital Budget Impact

### IV. A - Capital Budget Expenditures

NONE

### IV. B - Expenditures by Object Or Purpose

NONE

### IV. C - Capital Budget Breakout

*Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.*

NONE

**IV. D - Capital FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

## **Part V: New Rule Making Required**

*Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.*
