## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This bill amends RCW 72.02.100 and 72.66.070 to extend the provisions of the statutes to partial confinement and supervised individuals. The change to current practice is that individuals releasing from custody prior to the expiration of their sentence may be provided gate money.

The proposed substitute differs from the original bill in that it notes that it is a one-time subsistence payment to any person serving a sentence for a term of confinement in a state correctional facility.

Section 1 amends RCW 72.02.100 to provide gate money to individuals releasing from custody prior to the expiration of their sentence. Specifically, gate money may be provided at the moment of transfer to any person who is serving a sentence for a term of confinement in a state correctional facility and is:

- Transferred to community custody under supervision of Department of Corrections (DOC) or in lieu of earned release time.
- Transferred from a DOC correctional facility to partial confinement as home detention in the community as part of the Graduated Reentry (GRE) or Community Parenting Alternative (CPA) program.
- Transferred from a DOC correctional facility to partial confinement in lieu of earned early release or as part of the work release program.
- Or conditionally released by the Indeterminate Sentence Review Board (ISRB) with conditions of community custody

Section 2 amends RCW 72.66.070 and requires DOC to provide or arrange transportation for furloughed incarcerated individuals and provide them with gate money in the sum of no less than \$40.

Effective date is assumed to be 90 days after adjournment of session in which this bill is passed.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

The Department of Corrections (DOC) assumes this bill has no impact.

The DOC has already received funding in relation to the population supported in this legislation.
