## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This bill expedites the process for those participating in the statewide pilot program with the Department of Fish and Wildlife (DFW). It changes the timing of the requirements to submit an application and perform site surveys if needed.

The bill does not change the requirement for DAHP to review the project, site surveys, or applications so no change in workload for DAHP staff is anticipated.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1 of this bill directs the modification of the Habitat Recovery Pilot Program (HRPP) by amending RCW 77.55.480. Specifically, the bill directs the following language regarding cultural resource requirements:

In subsection (2)(c)(i) remove “before the project applicant files an application under this section”

In subsection (2)(c)(ii) remove “no fewer than 60 days before the application may be filed with the Department”

Because there is no associated change to Chapter 220-660 WAC required with this modification, there will be no rulemaking required and therefore no fiscal impact in this regard.

Further, while this change to RCW 77.55.480 will require outreach to impacted stakeholders and updates to agency guidance and resources, this is all currently accommodated by the devoted HRPP Coordinator position (Biologist 4) tasked with the development and management of this pilot program and therefore there will be no fiscal impact in this regard.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*
