## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This bill requires the Secretary of State to add a constitutional amendment to the 2023 General Election.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

#### Voters' pamphlet

This bill requires OSOS to print the constitutional amendment in the voters' pamphlet. Printing the constitutional amendment, estimated to be 8 pages, has a projected cost of approximately \$59,453 which is comprised of \$49,476 for printing, \$5,040 for composition, and \$4,937 for language translation. Postage costs are not included for odd-year pamphlets because those costs are fixed for voters' pamphlets below 88 pages (less than 4oz, per the USPS). The additional 8 pages are not expected to push an odd-year voters' pamphlet over 88 pages.

#### Odd-Year election costs

Adding an additional issue for the state results in increased odd-year election costs of \$64,428. This amount was calculated by adding an additional issue the state proration for each of the 39 counties 2019 odd-year election costs; the resulting change between the base and the base + 1 is the cost seen here. All other factors were held constant.

#### Legal advertisements

The Office of the Secretary of State operating budget includes funding for the publication of notices in every legal newspaper in the state four times prior to the general election. This fiscal note does not assume additional cost to publish this measure because the notices would be customized such that they remain within the authorized budget for legal advertising.

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

SJR 8201 creates the public works assistance revolving account.

Assumptions:

- The voters will ratify the constitutional amendment.
- The legislature will address where the earnings from investments are to be credited in subsequent years.
- The office of financial management will assign the department of commerce as the administering agency of the new account.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

Projected cash flows are currently unavailable; therefore, estimated earnings from investments are indeterminable.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

The joint resolution to amend the Washington State Constitution creates a new Public Works Assistance Revolving Account (PWARA) dedicated to local government grants and loans. It requires all loan repayments from PWARA and all loan repayments from the Public Works Assistant Account (PWAA) to be deposited into it. It includes an effective date of July 1, 2025 if the legislation is enacted and a subsequent vote of the people to amend the constitution is successful.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

The proposed legislation does not have a revenue impact to the Department of Commerce (department).

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

The proposed constitutional amendment would neither have a direct expenditure impact on the department, nor require the department to undertake any additional work.

If the proposed constitutional amendment is passed and if the subsequent measure were approved by voters at the next general election, then the department would be able to absorb management of the new account created with current staff. The department would update its financial tracking tools to maintain appropriate fiscal controls over the new PWARA and the level of expected loan repayments from the PWAA that are intended for the PWARA.

NONE

**IV. D - Capital FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

The proposed legislation would neither have a capital budget impact, nor change the level of funding available for appropriation.

**Part V: New Rule Making Required**

*Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.*
