19 from the cities' statewide fuel tax distributions under RCW
20 46.68.110(2), is for a study to be conducted in 2016 to identify
21 prominent road-rail conflicts, recommend a corridor-based
22 prioritization process for addressing the impacts of projected
23 increases in rail traffic, and identify areas of state public policy
24 interest, such as the critical role of freight movement to the
25 Washington economy and the state's competitiveness in world trade.
26 The study must consider the results of the updated marine cargo
27 forecast due to be delivered to the joint transportation committee on
28 December 1, 2015. In conducting the study, the joint transportation
29 committee must consult with the department of transportation, the

24 committee, with direction from the executive committee, may form a
25 legislative task force at the conclusion of the study to help to
26 inform the legislature of any best practices identified from other
27 states that encourage minority and women-owned businesses'
28 participation in the transportation sector.

29 **Sec. 205.** 2016 c 14 s 205 (uncodified) is amended to read as
30 follows:

31 **FOR THE TRANSPORTATION COMMISSION**

32	Motor Vehicle Account—State Appropriation.	((\$2,667,000))
33		<u>\$2,516,000</u>
34	Motor Vehicle Account—Federal Appropriation.	\$500,000
35	Multimodal Transportation Account—State	
36	Appropriation.	\$112,000
37	TOTAL APPROPRIATION.	((\$3,279,000))
38		<u>\$3,128,000</u>

1 The appropriations in this section are subject to the following
2 conditions and limitations:

3 (1) \$300,000 of the motor vehicle account—state appropriation is
4 provided solely to continue evaluating a road usage charge as an
5 alternative to the motor vehicle fuel tax to fund investments in
6 transportation. The evaluation must include monitoring and reviewing
7 work that is underway in other states and nationally. The commission
8 may coordinate with the department of transportation to jointly
9 pursue any federal or other funds that are or might become available
10 and eligible for road usage charge pilot projects. The commission
11 must reconvene the road usage charge steering committee, with the
12 same membership authorized in chapter 222, Laws of 2014, and report
13 to the governor's office and the transportation committees of the
14 house of representatives and the senate by December 15, 2015.

15 (2) \$150,000 of the motor vehicle account—state appropriation is
16 provided solely for the commission to use an outside survey firm to
17 conduct three transportation surveys during the 2015-2017 fiscal
18 biennium. The commission must consult with the joint transportation
19 committee when deciding on the survey topics and design to ensure the
20 survey results will deliver the data, information, and analysis for
21 future transportation policy and strategic planning decisions in a
22 manner useful to the legislature.

23 (3)(a) The legislature finds that, while some travel times have
24 improved through Interstate 405 between the junctions with Interstate
25 5 on the north end and NE 6th Street in the city of Bellevue on the
26 south end, especially for transit trips, the implementation of the
27 express toll lane system has made travel more difficult for a number
28 of other drivers and trips. To provide some relief to drivers, the
29 legislature encourages the commission to expedite consideration of
30 the elimination of tolls during evening nonpeak hours, weekends, and
31 holidays, to the extent that such a change will improve commuters'
32 experience on this portion of Interstate 405. The legislature further
33 finds that the commission, as the tolling authority of the state,
34 should act swiftly, working in conjunction with the department of
35 transportation's comprehensive effort to tackle obstacles adversely
36 affecting commutes on this portion of Interstate 405, to drive
37 improved results for the users of this critical corridor as soon as
38 is practicable.

1 (b) In accordance with the rule-making authority provided under
2 RCW 34.05.350(1)(a), the legislature deems it necessary, for
3 preservation of the general welfare, that operational changes be made
4 to improve the express toll lane program on Interstate 405 and that
5 the tolling authority use its emergency rule-making authority to
6 effect such changes in accordance with RCW 47.56.850 and 47.56.880.
7 The legislature finds that the need for improvements to the commuter
8 experience on the portion of Interstate 405 identified in (a) of this
9 subsection necessitates that such action be taken in an expedited
10 fashion. The tolling authority, with input from the department of
11 transportation, shall evaluate the hours and days of operation for
12 the express toll lanes and the minimum high occupancy vehicle
13 passenger requirements for using the express toll lanes, taking into
14 consideration the goals of: Reducing travel time on this portion of
15 Interstate 405, including in the general purpose lanes; reducing the
16 cost of traveling within the express toll lanes on this portion of
17 Interstate 405; and maintaining sufficient revenue to pay for this
18 portion of Interstate 405's express toll lane operating costs. This
19 subsection (3) does not create a private right of action.

20 (4)(a) \$500,000 of the motor vehicle account—federal
21 appropriation is provided solely to advance the work completed since
22 2011 in evaluating a road usage charge as an alternative to the motor
23 vehicle fuel tax to fund future investments in transportation by
24 completing the work necessary to launch a road usage charge pilot
25 project, with all implementation details for a pilot project
26 identified and incorporated into a pilot project implementation plan.

27 (i) Pilot project implementation preparation must include
28 identification of all essential agency roles and responsibilities for
29 the pilot project, a selection of the technologies and methodologies
30 to be included, a target number of participants and participant
31 characteristics, rigorous specific evaluation criteria by which the
32 pilot project will be assessed, a communication plan for the pilot
33 project that consists of a participant recruitment plan and a plan
34 for communicating information about the launch and ongoing progress
35 of the pilot project, and pilot project expenditure and revenue
36 estimates.

37 (ii) In developing the road usage charge pilot project
38 implementation plan, the commission shall consult and coordinate with
39 the department of transportation, the department of licensing, the

1 department of revenue, and the office of the state treasurer to
2 establish participation and coordination parameters for the project.

3 (b) The commission shall coordinate with the department of
4 transportation to jointly pursue any federal or other funds that are
5 or might become available to fund a road usage charge pilot project.
6 Where feasible, grant application content prepared by the commission
7 must reflect the direction provided by the road usage charge steering
8 committee on the preferred road usage charge pilot project approach.
9 One or more grant applications may be developed as part of the road
10 usage charge pilot project implementation plan development work, but
11 the pilot project implementation plan must nevertheless include any
12 details necessary for a full launch of the pilot project not required
13 to be included in any grant application.

14 (c) The commission shall reconvene the road usage charge steering
15 committee, with the same membership authorized in chapter 222, Laws
16 of 2014, as well as the addition of a representative from the Puget
17 Sound regional council, and may obtain guidance from the steering
18 committee when it reaches key pilot project implementation plan
19 development milestones. The commission must provide a report on the
20 road usage charge pilot project implementation plan that includes all
21 implementation details for a road usage charge pilot project to the
22 governor's office and the transportation committees of the house of
23 representatives and the senate by November 1, 2016.

24 ~~((5) \$150,000 of the motor vehicle account state appropriation
25 is provided solely for supporting the disadvantaged business
26 enterprise advisory committee established in chapter . . . (Senate
27 Bill No. 6180), Laws of 2016. If chapter . . . (Senate Bill No.
28 6180), Laws of 2016 is not enacted by June 30, 2016, the amount
29 provided in this subsection lapses.))~~

17 high priority.

18 (6) \$25,000 of the motor vehicle account—state appropriation is
19 provided solely for the Northwest avalanche center for an additional
20 forecaster. However, the amount in this subsection is contingent on
21 the state parks and recreation commission receiving funding for its
22 portion of the Northwest avalanche center forecaster in the omnibus

24 the appropriation provided in this subsection lapses.

25 (7) \$1,000,000 of the motor vehicle account—state appropriation

3	Motor Vehicle Account—Private/Local Appropriation.	\$250,000
4	TOTAL APPROPRIATION.	((\$59,952,000))
5		<u>\$59,849,000</u>

6 The appropriations in this section are subject to the following
7 conditions and limitations:

8 (1) \$6,000,000 of the motor vehicle account—state appropriation
9 is provided solely for low-cost enhancements. The department shall
10 give priority to low-cost enhancement projects that improve safety or
11 provide congestion relief. The department shall prioritize low-cost
12 enhancement projects on a statewide rather than regional basis. By
13 September 1st of each even-numbered year, the department shall
14 provide a report to the legislature listing all low-cost enhancement
15 projects prioritized on a statewide rather than regional basis
16 completed in the prior year.

31 purposes of this subsection, "private employer transportation
32 service" means regularly scheduled, fixed-route transportation
33 service that is offered by an employer for the benefit of its
34 employees. Nothing in this subsection is intended to authorize the
35 conversion of public infrastructure to private, for-profit purposes
36 or to otherwise create an entitlement or other claim by private users
37 to public infrastructure.

38 (3) The legislature recognizes that congestion is increasing on
39 southbound Interstate 5 in Lynnwood, between the Lynnwood transit

1 center and the Mountlake Terrace freeway station, and that allowing
2 transit buses to operate on the shoulder would provide congestion
3 relief and more reliable travel times. Therefore, the department
4 shall, within existing resources, implement a transit bus shoulder
5 operations pilot project on southbound Interstate 5 in Lynnwood,
6 between the Lynnwood transit center and the Mountlake Terrace freeway
7 station. The department shall make all necessary changes to handle
8 the increased traffic and provide a ten-foot shoulder for the transit

22 transportation commission takes action to name the facility per
23 Senate Joint Memorial No. 8019 by June 30, 2017.

19 the current apprenticeship programs; (b) preapprenticeship training;
20 and (c) child care, transportation, and other supports that are
21 needed to help women and minorities enter and succeed in

28 recipients to leverage funds other than state funds.

29 (b) At least \$1,600,000 of the amount provided in this subsection
30 must be used for vanpool grants in congested corridors.

10 the projects are making satisfactory progress. Any project that has
11 been awarded funds, but does not report activity on the project
12 within one year of the grant award, must be reviewed by the
13 department to determine whether the grant should be terminated. The
14 department shall promptly close out grants when projects have been
15 completed, and any remaining funds must be used only to fund projects
16 identified in the (~~LEAP~~) OFM transportation document referenced in
17 this subsection. The department shall provide annual status reports
18 on December 15, 2015, and December 15, 2016, to the office of
19 financial management and the transportation committees of the
20 legislature regarding the projects receiving the grants. It is the

5 appropriation and \$754,000 of the state vehicle parking account—state
6 appropriation are provided solely for CTR grants and activities.

14 subsection is contingent on Island Transit charging fares that
15 achieve a farebox recovery ratio similar to comparable transit
16 systems.

17 (b) The amount provided in (a) of this subsection must be held in
18 unallotted status until the office of financial management determines
19 that fares have been both adopted and implemented by Island Transit
20 that achieve a farebox recovery ratio similar to comparable transit
21 systems. Island Transit must notify the office of financial
22 management when it has met the requirements of this subsection.

23 (10)(a) (~~(\$13,890,000)~~) \$12,565,000 of the multimodal
24 transportation account—state appropriation is provided solely for
25 projects identified in (~~LEAP~~) OFM Transportation Document
26 (~~(2016-3)~~) 17GOV001 as developed (~~(March-7)~~) December 14, 2016.
27 Except as provided otherwise in this subsection, funds must first be
28 used for projects that are identified as priority one projects. As
29 additional funds become available or if a priority one project is
30 delayed, funding must be provided to priority two projects. If a
31 higher priority project is bypassed, it must be funded when the
32 project is ready. The department must submit a report annually with
33 its budget submittal that, at a minimum, includes information about
34 the listed transit projects that have been funded and projects that
35 have been bypassed, including an estimated time frame for when the
36 bypassed project will be funded.

37 (b) \$831,000 of the amount provided in (a) of this subsection is
38 provided solely for Skagit transit system enhancements for
39 expenditure in 2015-2017.

2 is provided solely for Island transit's tri-county connector service
3 for expenditure in 2015-2017.

5 the 2017-2019 fiscal biennium and \$6,000,000 in the 2019-2021 fiscal
6 biennium for the Spokane Central city line, in addition to the
7 2015-2017 fiscal biennium funding provided in the ((LEAP)) OFM
8 transportation document identified in (a) of this subsection. It is
9 further the intent of the legislature to provide a total of
10 \$10,000,000 over the 2017-2019 and 2019-2021 fiscal biennia for the
11 Northgate transit center pedestrian bridge.

12 (e) Within existing resources, the public transportation program
13 must develop recommendations regarding potential modifications to the
14 process by which funding is provided to the projects listed in the
15 ((LEAP)) OFM transportation document identified in (a) of this
16 subsection. These modifications should include, but are not limited
17 to, options for accelerating the delivery of the listed projects and
18 options for further prioritizing the listed projects. The department
19 must submit a report regarding its recommendations to the
20 transportation committees of the legislature by November 15, 2016.

21 (11) \$1,000,000 of the multimodal transportation account—state
22 appropriation is provided solely for transit coordination grants.

23 (12) Within the amounts provided in this section, the public
24 transportation program must conduct a study of public transportation
25 agencies in Washington that provide regional public transportation
26 service outside the boundaries of the agency. The study must
27 consider: (a) The cost to provide these existing regional services,
28 the current source of funds for these services, and the applicable
29 ridership data from these existing regional services; (b) the number
30 of trips removed from the state highway system as a result of these
31 regional services; (c) areas of the state highway system that do not
32 have such regional service available; and (d) potential funding
33 sources at the state level to support a portion of current and
34 potential regional services. The public transportation program must
35 provide a report on its findings and recommendations to the
36 transportation committees of the legislature by November 15, 2016.

20 the projects and activities as listed by fund, project, and amount in
21 (~~LEAP~~) OFM Transportation Document (~~(2016-1)~~) 17GOV001 as developed
22 (~~March 7~~) December 14, 2016, Program - Highway Improvements Program
23 (I).

24 (21) It is the intent of the legislature that for the I-5 JBLM
25 Corridor Improvements project (M00100R), the department shall
26 actively pursue \$50,000,000 in federal funds to pay for this project
27 to supplant state funds in the future. \$50,000,000 in connecting
28 Washington account funding must be held in unallotted status during
29 the 2021-2023 fiscal biennium. These funds may only be used after the
30 department has provided notice to the office of financial management
31 that it has exhausted all efforts to secure federal funds from the
32 federal highway administration and the department of defense.

33 (22) Of the amounts allocated to the Puget Sound Gateway project
34 (M00600R) in (~~LEAP~~) OFM Transportation Document (~~(2016-1)~~) 17GOV001
35 as developed (~~March 7~~) December 14, 2016, \$4,000,000 must be used
36 to complete the bridge connection at 28th/24th Street over state
37 route number 509 in the city of SeaTac. The bridge connection must be
38 completed prior to other construction on the state route number 509
39 segment of the project.

1 (23) In making budget allocations to the Puget Sound Gateway
2 project, the department shall implement the project's construction as
3 a single corridor investment. The department shall develop a
4 coordinated corridor construction and implementation plan for state
5 route number 167 and state route number 509 in collaboration with
6 affected stakeholders. Specific funding allocations must be based on
7 where and when specific project segments are ready for construction
8 to move forward and investments can be best optimized for timely
9 project completion. Emphasis must be placed on avoiding gaps in fund
10 expenditures for either project.

11 (24) It is the intent of the legislature that, for the I-5/North
12 Lewis County Interchange project (L2000204), the department develop
13 and design the project with the objective of significantly improving
14 access to the industrially zoned properties in north Lewis
15 county. The design must consider the county's process of
16 investigating alternatives to improve such access from Interstate 5
17 that began in March 2015.

18 (25) (~~(\$1,500,000)~~) \$901,000 of the motor vehicle account—state
19 appropriation is provided solely for the department to complete an
20 interchange justification report (IJR) for the U.S. 2 trestle,
21 covering the state route number 204 and 20th Street interchanges at
22 the end of the westbound structure.

23 (a) The department shall develop the IJR in close collaboration
24 with affected local jurisdictions, including Snohomish county and the
25 cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

26 (b) Within the amount provided for the IJR, the department must
27 address public outreach and the overall operational approval of the
28 IJR.

29 (c) The department shall complete the IJR and submit the final
30 report to the governor and the transportation committees of the
31 legislature by July 1, 2018.

32 (26)(a) The department must conduct outreach to local transit
33 agencies during the planning process for highway construction
34 projects led by the department.

35 (b) The department must develop process recommendations for best
36 practices in minimizing impacts to transit and freight during project
37 construction. A report on best practices must be submitted to the
38 transportation committees of the legislature by December 1, 2016.

39 (27) The legislature finds that project efficiencies and savings
40 may be gained by combining the I-5 Marine Drive project (I5OTC1A1)

1 and the SR 529/I-5 Interchange project (N52900R). The department must
2 deliver them as one project, the I-5 Peak Hour Use Lanes and
3 Interchange Improvements project (L2000229), using a design-build
4 approach.

5 (28) The legislature recognizes that the city of Mercer Island
6 has unique access issues that require the use of Interstate 90 to
7 leave the island and that this access may be impeded by the I-90/Two
8 Way Transit and HOV Improvements project. The department must
9 continue to work with the city of Mercer Island to address potential
10 access solutions as the project nears completion.

11 (29) \$9,500,000 of the Interstate 405 express toll lanes
12 operations account—state appropriation is provided solely for the
13 I-405 NB Hard Shoulder Running - SR 527 to I-5 project (L1000163).

14 specific line-item project appropriations may occur between projects
15 for those amounts listed subject to the conditions and limitations in
16 section ((~~601~~)) 501 of this act.

17 (2) Except as provided otherwise in this section, the entire

23 through efficiencies, adjustments to the federal funds forecast,
24 additional congressional action not related to a specific project or
25 purpose, or the federal funds redistribution process must then be
26 applied to highway and bridge preservation activities. However, no
27 additional federal funds may be allocated to the I-5/Columbia River
28 Crossing project (400506A).

29 (3) Within the motor vehicle account—state appropriation and
30 motor vehicle account—federal appropriation, the department may
31 transfer funds between programs I and P, except for funds that are
32 otherwise restricted in this act.

33 (4) The transportation 2003 account (nickel account)—state
34 appropriation includes up to \$28,032,000 in proceeds from the sale of
35 bonds authorized in RCW 47.10.861.

36 (5) The department shall examine the use of electric arc furnace
37 slag for use as an aggregate for new roads and paving projects in
38 high traffic areas and report back to the legislature by December 1,
39 2015, on its current use in other areas of the country and any

1 characteristics that can provide greater wear resistance and skid
2 resistance in new pavement construction.

3 (6) \$38,142,000 of the motor vehicle account—federal
4 appropriation and \$858,000 of the motor vehicle account—state
5 appropriation are provided solely for the preservation of
6 structurally deficient bridges or bridges that are at risk of
7 becoming structurally deficient. These funds must be used widely

16 (8) It is the intent of the legislature that, with respect to the
17 amounts provided for highway preservation from the connecting
18 Washington account, the department consider the preservation and
19 rehabilitation of concrete roadway on Interstate 5 from the Canadian
20 border to the Oregon border to be a priority within the preservation
21 program.

22 (9) \$5,000,000 of the motor vehicle account—state appropriation
23 is provided solely for extraordinary costs incurred from litigation
24 awards, settlements, or dispute mitigation activities not eligible
25 for funding from the self-insurance fund. The amount provided in this
26 subsection must be held in unallotted status until the department

30 (952515P). These funds are identified in the ((LEAP)) OFM
31 transportation document referenced in subsection (1) of this section.
32 To the greatest extent practicable and within available resources,
33 the department shall design the new terminal to be a net zero energy
34 building. To achieve this goal, the department shall evaluate using
35 highly energy efficient equipment and systems, and the most
36 appropriate renewable energy systems for the needs and location of
37 the terminal.

38 (4) \$7,000,000 of the Puget Sound capital construction account—

17 vessels varies from the current long range plan, the department shall
18 include in its updated long range plan revised estimates for new
19 vessel costs, size, and purchase time frames. Additionally, the long
20 range plan must include a vessel retirement schedule and associated
21 reserve vessel policy recommendations.

23 state appropriation is provided solely for the ferry system to
24 participate in the development of one account-based system for
25 customers of both the ferry system and tolling system. The current

27 and the department is expected to develop a replacement account-based
28 system as part of the new tolling division customer service center
29 toll collection system.

30 (9) Within existing resources, the department must evaluate the
31 feasibility of utilizing the federal EB-5 immigrant investor program
32 for financing the construction of a safety of life at sea (SOLAS)
33 certificated vessel for the Anacortes-Sidney ferry route. The
34 department must establish a group that includes, but is not limited
35 to, the department of commerce and entities or individuals
36 experienced with vessel engineering and EB-5 financing for assistance
37 in evaluating the applicability of the EB-5 immigrant investor

5 pilings sufficient to support a selected terminal design, (c)
6 replacing the timber portion of the dock with a new and reconfigured
7 steel and concrete dock, and (d) other staging and construction work
8 as the amount allows. These funds are identified in the ((LEAP)) OFM
9 transportation document referenced in subsection (1) of this section.

10 (11) It is the intent of the legislature, over the sixteen-year
11 new investment program, to provide \$122,000,000 in state funds to

22 construction account—federal appropriation and ((\$1,366,000))
23 \$889,000 of the Puget Sound capital construction—state appropriation
24 are provided solely for installation of security access control and
25 video monitoring systems, and for enhancing wireless network capacity
26 to handle higher security usage, increase connectivity between
27 vessels and land-based facilities, and isolate the security portion
28 of the network from regular business (project 998925A).

29 (14) The transportation 2003 account (nickel account)—state
30 appropriation includes up to ((\$4,131,000)) \$41,131,000 in proceeds
31 from the sale of bonds authorized in RCW 47.10.861.

11 (1) Except as provided otherwise in this section, the entire
12 appropriations in this section are provided solely for the projects
13 and activities as listed by project and amount in ((~~LEAP~~)) OFM
14 Transportation Document ((~~2016-2 ALL PROJECTS~~)) 17GOV001 as developed
15 ((~~March 7~~)) December 14, 2016, Program - Rail Program (Y).

16 (2) \$5,000,000 of the transportation infrastructure account—state
17 appropriation is provided solely for new low-interest loans approved
18 by the department through the freight rail investment bank (FRIB)
19 program. The department shall issue FRIB program loans with a
20 repayment period of no more than ten years, and charge only so much
21 interest as is necessary to recoup the department's costs to
22 administer the loans. For the 2015-2017 fiscal biennium, the
23 department shall first award loans to 2015-2017 FRIB loan applicants
24 in priority order, and then offer loans to 2015-2017 unsuccessful
25 freight rail assistance program grant applicants, if eligible. If any

27 program and shall evaluate new applications in a manner consistent
28 with past practices as specified in section 309, chapter 367, Laws of
29 2011. The department shall report annually to the transportation
30 committees of the legislature and the office of financial management

1 (b) Of the amounts provided in this subsection, \$367,000 of the
2 transportation infrastructure account—state appropriation and

4 appropriation are provided solely to reimburse Highline Grain, LLC
5 for approved work completed on Palouse River and Coulee City (PCC)
6 railroad track in Spokane county between the BNSF Railway Interchange
7 at Cheney and Geiger Junction and must be administered in a manner
8 consistent with freight rail assistance program projects. The value
9 of the public benefit of this project is expected to meet or exceed
10 the cost of this project in: Shipper savings on transportation costs;
11 jobs saved in rail-dependent industries; and/or reduced future costs
12 to repair wear and tear on state and local highways due to fewer
13 annual truck trips (reduced vehicle miles traveled). The amounts
14 provided in this subsection are not a commitment for future
15 legislatures, but it is the legislature's intent that future
16 legislatures will work to approve biennial appropriations until the
17 full \$7,337,000 cost of this project is reimbursed.

18 (4) (~~(\$487,297,000)~~) \$487,163,000 of the multimodal
19 transportation account—federal appropriation and (~~(\$13,679,000)~~)
20 \$10,991,000 of the multimodal transportation account—state
21 appropriation are provided solely for expenditures related to
22 passenger high-speed rail grants. Except for the Mount Vernon project

24 no more than one and one-half percent of the total project funds, and
25 are provided solely for expenditures that are not eligible for
26 federal reimbursement.

27 (5)(a) \$1,114,000 of the essential rail assistance account—state
28 appropriation, \$766,000 of the multimodal transportation account—
29 state appropriation, and \$68,000 of the transportation infrastructure
30 account—state appropriation are provided solely for the purpose of
31 the rehabilitation and maintenance of the Palouse river and Coulee
32 City railroad line (F01111B).

33 (b) Expenditures from the essential rail assistance account—state
34 in this subsection may not exceed the combined total of:

35 (i) Revenues deposited into the essential rail assistance account

33 The appropriations in this section are subject to the following
34 conditions and limitations:

35 (1) Except as provided otherwise in this section, the entire
36 appropriations in this section are provided solely for the projects
37 and activities as listed by project and amount in (~~LEAP~~) OFM

1 Transportation Document ((~~2016-2 ALL PROJECTS~~)) 17GOV001 as developed
2 ((~~March 7~~)) December 14, 2016, Program - Local Programs Program (Z).

3 (2) The amounts identified in the ((~~LEAP~~)) OFM transportation
4 document referenced under subsection (1) of this section for
5 pedestrian safety/safe routes to school are as follows:

6 (a) ((~~\$20,653,000~~)) \$14,221,000 of the multimodal transportation
7 account—state appropriation and ((~~\$3,579,000~~)) \$2,436,000 of the
8 transportation partnership account—state appropriation are provided
9 solely for pedestrian and bicycle safety program projects (project
10 L2000188).

11 (b) ((~~\$11,400,000~~)) \$6,303,000 of the motor vehicle account—
12 federal appropriation, ((~~\$1,750,000~~)) \$925,000 of the multimodal

14 \$4,690,000 of the highway safety account—state appropriation are

16 ((~~\$8,782,000~~)) \$7,507,000 of the motor vehicle account—federal
17 appropriation, ((~~\$124,000~~)) \$26,000 of the multimodal transportation
18 account—state appropriation, and ((~~\$4,897,000~~)) \$4,569,000 of the
19 highway safety account—state appropriation are reappropriated for
20 safe routes to school projects selected in the previous biennia
21 (project L2000189). The department may consider the special
22 situations facing high-need areas, as defined by schools or project
23 areas in which the percentage of the children eligible to receive
24 free and reduced-price meals under the national school lunch program
25 is equal to, or greater than, the state average as determined by the
26 department, when evaluating project proposals against established
27 funding criteria while ensuring continued compliance with federal
28 eligibility requirements.

29 (3) The department shall submit a report to the transportation
30 committees of the legislature by December 1, 2015, and December 1,
31 2016, on the status of projects funded as part of the pedestrian
32 safety/safe routes to school grant program. The report must include,
33 but is not limited to, a list of projects selected and a brief
34 description of each project's status.

35 (4) \$500,000 of the motor vehicle account—state appropriation is
36 provided solely for the Edmonds waterfront at-grade train crossings
37 alternatives analysis project (L2000135). The department shall work
38 with the city of Edmonds and provide a preliminary report of key

1 findings to the transportation committees of the legislature and the
2 office of financial management by December 1, 2015.

3 (5)(a) (~~(\$9,900,000)~~) \$9,343,000 of the multimodal transportation
4 account—state appropriation is provided solely for bicycle and
5 pedestrian projects listed in (~~LEAP~~) OFM Transportation Document
6 (~~(2016-4)~~) 17GOV001 as developed (~~(March-7)~~) December 14, 2016. Funds
7 must first be used for projects that are identified as priority one
8 projects. As additional funds become available or if a priority one
9 project is delayed, funding must be provided to priority two projects
10 and then to priority three projects. If a higher priority project is
11 bypassed, it must be funded in the first round after the project is
12 ready. If funds become available as a result of projects being
13 removed from this list or completed under budget, the department may
14 submit additional bicycle and pedestrian safety projects for
15 consideration by the legislature. The department must submit a report
16 annually with its budget submittal that, at a minimum, includes
17 information about the listed bicycle and pedestrian projects that
18 have been funded and projects that have been bypassed, including an
19 estimated time frame for when the project will be funded.

20 (b) Within existing resources, the local programs division must
21 develop recommendations regarding potential modifications to the
22 process by which funding is provided to the projects listed in the
23 (~~LEAP~~) OFM transportation document identified in (a) of this
24 subsection. These modifications should include, but are not limited
25 to, options for accelerating delivery of the listed projects and
26 options for further prioritizing the listed projects. The department
27 must submit a report regarding its recommendations to the
28 transportation committees of the legislature by November 15, 2016.

3 **IMPLEMENTING PROVISIONS**

4 **Sec. 501.** 2016 c 14 s 601 (uncodified) is amended to read as
5 follows:

6 **FUND TRANSFERS**

7 (1) The transportation 2003 projects or improvements and the 2005
8 transportation partnership projects or improvements are listed in the
9 ((LEAP)) OFM list titled ((2016-1)) 17GOV001 as developed ((March-7))
10 December 14, 2016, which consists of a list of specific projects by
11 fund source and amount over a sixteen-year period. Current fiscal
12 biennium funding for each project is a line-item appropriation, while
13 the outer year funding allocations represent a sixteen-year plan. The
14 department is expected to use the flexibility provided in this
15 section to assist in the delivery and completion of all
16 transportation partnership account and transportation 2003 account
17 (nickel account) projects on the ((LEAP)) OFM transportation
18 documents referenced in this act. However, this section does not
19 apply to the I-5/Columbia River Crossing project (400506A). For the
20 2015-2017 project appropriations, unless otherwise provided in this
21 act, the director of financial management may authorize a transfer of
22 appropriation authority between projects funded with transportation
23 2003 account (nickel account) appropriations, or transportation
24 partnership account appropriations, in order to manage project
25 spending and efficiently deliver all projects in the respective
26 program under the following conditions and limitations:

27 (a) Transfers may only be made within each specific fund source
28 referenced on the respective project list;

29 (b) Transfers from a project may not be made as a result of the
30 reduction of the scope of a project or be made to support increases
31 in the scope of a project;

32 (c) Each transfer between projects may only occur if the director
33 of financial management finds that any resulting change will not
34 hinder the completion of the projects as approved by the legislature.
35 Until the legislature reconvenes to consider the 2016 supplemental
36 omnibus transportation appropriations act, any unexpended 2013-2015
37 appropriation balance as approved by the office of financial
38 management, in consultation with the legislative staff of the house

1 of representatives and senate transportation committees, may be
2 considered when transferring funds between projects;

3 (d) Transfers from a project may be made if the funds
4 appropriated to the project are in excess of the amount needed to
5 complete the project;

6 (e) Transfers may not occur for projects not identified on the
7 applicable project list;

8 (f) Transfers may not be made while the legislature is in
9 session; and

10 (g) Transfers between projects may be made, without the approval
11 of the director of the office of financial management, by the
12 department of transportation until the transfer amount by project
13 exceeds two hundred fifty thousand dollars, or ten percent of the
14 total project, whichever is less. These transfers must be reported
15 quarterly to the director of financial management and the chairs of
16 the house of representatives and senate transportation committees.

17 (2) At the time the department submits a request to transfer
18 funds under this section, a copy of the request must be submitted to
19 the transportation committees of the legislature.

20 (3) The office of financial management shall work with
21 legislative staff of the house of representatives and senate
22 transportation committees to review the requested transfers in a
23 timely manner.

24 (4) The office of financial management shall document approved
25 transfers and schedule changes in the transportation executive
26 information system, compare changes to the legislative baseline
27 funding and schedules identified by project identification number
28 identified in the ((LEAP)) OFM transportation documents referenced in
29 this act, and transmit revised project lists to chairs of the
30 transportation committees of the legislature on a quarterly basis.

31 **MISCELLANEOUS 2015-2017 FISCAL BIENNIUM**

32 NEW SECTION. **Sec. 601.** A new section is added to 2016 c 14
33 (uncodified) to read as follows:

34 The appropriations to the department of transportation in chapter
35 14, Laws of 2016 and this act must be expended for the programs and
36 in the amounts specified in this act. However, after May 1, 2017,
37 unless specifically prohibited, the department may transfer state
38 appropriations for the 2015-2017 fiscal biennium among operating

1 programs after approval by the director of the office of financial
2 management. However, the department shall not transfer state moneys
3 that are provided solely for a specific purpose. The department shall
4 not transfer funds, and the director of the office of financial
5 management shall not approve the transfer, unless the transfer is
6 consistent with the objective of conserving, to the maximum extent
7 possible, the expenditure of state funds and not federal funds. The
8 director of the office of financial management shall notify the
9 appropriate transportation committees of the legislature before
10 approving any allotment modifications or transfers under this
11 section. The written notification must include a narrative
12 explanation and justification of the changes, along with expenditures
13 and allotments by program and appropriation, both before and after
14 any allotment modifications or transfers.

15 **MISCELLANEOUS**

16 **Sec. 701.** If any provision of this act or its application to any
17 person or circumstance is held invalid, the remainder of the act or
18 the application of the provision to other persons or circumstances is
19 not affected.

20 **Sec. 702.** This act is necessary for the immediate preservation
21 of the public peace, health, or safety, or support of the state
22 government and its existing public institutions, and takes effect
23 immediately.
