
SUBSTITUTE HOUSE BILL 1208

State of Washington

67th Legislature

2021 Regular Session

By House Education (originally sponsored by Representatives Santos, Steele, Lekanoff, Paul, Callan, Ortiz-Self, Bergquist, and Harris-Talley)

1 AN ACT Relating to modifying the learning assistance program to
2 enable school districts to focus on identifying and addressing
3 student academic deficits in basic skills resulting from or
4 exacerbated by the COVID-19 pandemic by granting greater local
5 control over, accountability for, and flexibility with program funds,
6 and to authorize continued flexible use of program funds through the
7 framework of the Washington integrated student supports protocol;
8 amending RCW 28A.300.139, 28A.165.005, 28A.165.015, 28A.165.065,
9 28A.165.100, 28A.300.130, 28A.305.130, 28A.320.190, and 28A.710.280;
10 adding new sections to chapter 28A.165 RCW; creating new sections;
11 repealing RCW 28A.165.035; providing a contingent effective date;
12 providing a contingent expiration date; and declaring an emergency.

13 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

14 NEW SECTION. **Sec. 1.** (1) The legislature acknowledges that the
15 learning assistance program was developed to provide supplemental
16 instruction and services for public school students who are not
17 meeting academic standards. Initially, school districts were allowed
18 to use learning assistance program funds in a flexible manner to
19 support students participating in the program. Over time, the
20 legislature restricted, and established priorities for, the use of
21 learning assistance program funds. The legislature finds that it is

1 time to restore flexibility to the use of learning assistance program
2 funds; however, local control must be balanced with accountability
3 for improvement in the academic achievement of students participating
4 in the program.

5 (2) (a) The legislature expects that the learning assistance
6 program will continue to be used to fund supplemental instruction and
7 service to eligible students who are not meeting academic standards.

8 (b) However, the legislature intends to immediately remove
9 restrictions on the use of learning assistance program funds so that
10 school districts can flexibly use these funds to identify and address
11 the academic and nonacademic needs of students resulting from and
12 exacerbated by the COVID-19 pandemic. Removal of the restrictions
13 does not mean that learning assistance programs cannot continue to
14 use the best practices and strategies included on the state menus or
15 the services and activities listed in RCW 28A.165.035, as repealed by
16 this act.

17 (3) (a) Beginning September 1, 2025, or following the end of the
18 state of emergency declared by the governor due to COVID-19,
19 whichever is later, the legislature intends to continue the flexible
20 use of learning assistance program funds but require that budgeting
21 and expenditure of these funds occur through the framework of the
22 Washington integrated student supports protocol, established by the
23 legislature in 2016.

24 (b) To ease the transition, the legislature recommends that
25 school district boards of directors begin budgeting and expending
26 learning assistance program funds using the Washington integrated
27 student supports protocol as soon as possible.

28 (c) Under the protocol, before engaging in the process of
29 budgeting and expending learning assistance program funds, the
30 legislature expects school district boards of directors to perform
31 needs assessments and use data to map the resources of the school
32 district, each school, and the community. School boards are expected
33 to identify gaps in the coordination and integration of academic and
34 nonacademic supports and to engage community partners in strategic
35 planning that prioritizes the needs of students. Each school in the
36 district is also expected to use needs assessments and data to
37 determine how to best engage community partners to address the
38 academic and nonacademic needs of its students in an integrated and
39 coordinated manner. Finally, the legislature expects that schools and
40 school districts will use data in an iterative process to drive

1 decisions about how learning assistance program funds continue to be
2 used, and to determine whether decisions about the use of program
3 funds resulted in improvement in students' academic achievement.

4 NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.165
5 RCW to be codified between RCW 28A.165.005 and 28A.165.065 to read as
6 follows:

7 (1) Immediately upon the effective date of this section and
8 through the later of: (a) The expiration or termination of
9 Proclamation 20-05, and any subsequent orders extending or amending
10 the proclamation, declaring a state of emergency on February 29,
11 2020, for all counties in Washington due to COVID-19; or (b)
12 September 1, 2025, school districts must budget and expend the
13 appropriations for the learning assistance program, under RCW
14 28A.165.005 through 28A.165.065, to identify and address the academic
15 and nonacademic needs of students resulting from and exacerbated by
16 the COVID-19 pandemic.

17 (2) During the time period described in subsection (1) of this
18 section, school districts are encouraged to budget and expend the
19 appropriations for the learning assistance program, under RCW
20 28A.165.005 through 28A.165.065, using the framework of the
21 Washington integrated student supports protocol, established under
22 RCW 28A.300.139.

23 NEW SECTION. **Sec. 3.** A new section is added to chapter 28A.165
24 RCW to be codified between RCW 28A.165.005 and 28A.165.065 to read as
25 follows:

26 (1) While the state allocations for the learning assistance
27 program under this chapter are intended to be flexible dollars within
28 the control of the public school and school district, this local
29 control must be balanced with local accountability for improvement in
30 student achievement.

31 (2) School district boards of directors must budget and expend
32 the appropriations for the learning assistance program, under RCW
33 28A.165.005 through 28A.165.065, using the framework of the
34 Washington integrated student supports protocol, established under
35 RCW 28A.300.139.

36 **Sec. 4.** RCW 28A.300.139 and 2016 c 72 s 801 are each amended to
37 read as follows:

1 (1) (~~Subject to the availability of amounts appropriated for~~
2 ~~this specific purpose, the~~) The Washington integrated student
3 supports protocol is established. The protocol shall be developed by
4 the center for the improvement of student learning, established in
5 RCW 28A.300.130, based on the framework described in this section.
6 The purposes of the protocol include:

7 (a) Supporting a school-based approach to promoting the success
8 of all students by coordinating academic and nonacademic supports to
9 reduce barriers to academic achievement and educational attainment;

10 (b) Fulfilling a vision of public education where educators focus
11 on education, students focus on learning, and auxiliary supports
12 enable teaching and learning to occur unimpeded;

13 (c) Encouraging the creation, expansion, and quality improvement
14 of community-based supports that can be integrated into the academic
15 environment of schools and school districts;

16 (d) Increasing public awareness of the evidence showing that
17 academic outcomes are a result of both academic and nonacademic
18 factors; and

19 (e) Supporting statewide and local organizations in their efforts
20 to provide leadership, coordination, technical assistance,
21 professional development, and advocacy to implement high-quality,
22 evidence-based, student-centered, coordinated approaches throughout
23 the state.

24 (2)(a) The Washington integrated student supports protocol must
25 be sufficiently flexible to adapt to the unique needs of schools and
26 districts across the state, yet sufficiently structured to provide
27 all students with the individual support they need for academic
28 success.

29 (b) The essential framework of the Washington integrated student
30 supports protocol includes:

31 (i) Needs assessments: A system-level needs assessment with
32 resource mapping must be conducted in order to identify academic and
33 nonacademic supports that are currently available or lacking in
34 schools, school districts, and the community. A student-level needs
35 assessment must be conducted for all at-risk students in order to
36 develop or identify the needed academic and nonacademic supports
37 within the students' school and community. These supports must be
38 coordinated to provide students with a package of mutually
39 reinforcing supports designed to meet the individual needs of each
40 student.

1 (ii) Integration and coordination: The school and district
2 leadership and staff must ~~((develop close relationships))~~ establish
3 clear, cooperative policies and procedures with community-based and
4 other out-of-school providers of academic and nonacademic supports to
5 enhance the effectiveness of the protocol.

6 (iii) Community partnerships: Community partners must be engaged
7 to provide academic, nonacademic, and social-emotional supports to
8 reduce barriers to students' academic success, including supports to
9 students' families.

10 (iv) Data driven: Students' needs and outcomes must be tracked
11 over time to determine student progress and evolving needs.

12 (c) The framework must facilitate the ability of any academic or
13 nonacademic provider to support the needs of at-risk students,
14 including, but not limited to: Out-of-school providers, social
15 workers, mental health counselors, physicians, dentists, speech
16 therapists, and audiologists.

17 **Sec. 5.** RCW 28A.165.005 and 2017 3rd sp.s. c 13 s 403 are each
18 amended to read as follows:

19 ~~((1))~~ This chapter is designed to: ~~((a))~~ (1) Promote the use
20 of data when developing programs to assist students who are not
21 meeting academic standards ~~((and reduce disruptive behaviors in the~~
22 ~~classroom))~~; and ~~((b))~~ (2) guide school districts in providing the
23 most effective and efficient practices when implementing supplemental
24 instruction and services to assist students who are not meeting
25 academic standards ~~((and reduce disruptive behaviors in the~~
26 ~~classroom))~~.

27 ~~((2) School districts implementing a learning assistance program~~
28 ~~shall focus first on addressing the needs of students in grades~~
29 ~~kindergarten through four who are deficient in reading or reading~~
30 ~~readiness skills to improve reading literacy.))~~

31 **Sec. 6.** RCW 28A.165.015 and 2017 3rd sp.s. c 13 s 404 are each

36 as well as readiness associated with these skills.

37 (2) ~~((("Participating student" means a student in kindergarten~~
38 ~~through grade twelve who scores below standard for his or her grade~~

2 statewide student assessments or other assessments and performance
3 measurement tools administered by the school or district and who is
4 identified by the district to receive services.

5 ~~(3))~~ "Statewide student assessments" means one or more of the
6 assessments administered by school districts as required under RCW
7 28A.655.070.

12 **Sec. 7.** RCW 28A.165.065 and 2013 2nd sp.s. c 18 s 206 are each
13 amended to read as follows:

15 this chapter, the superintendent of public instruction shall monitor
16 learning assistance programs using, at minimum, data reported as
17 required under RCW 28A.165.100, no less than once every four years.
18 The primary purpose of program monitoring is to evaluate the
19 effectiveness of a school district's allocation and expenditure of
20 resources and monitor school district fidelity in implementing best
21 practices using the framework of the Washington integrated student
22 supports protocol, established under RCW 28A.300.139. The office of
23 the superintendent of public instruction may provide technical
24 assistance to school districts to improve the effectiveness of a

7 public instruction to demonstrate the efficacy of the learning
8 assistance program expenditures to show student academic growth gains
9 including indicators aligned with the accountability framework for
10 schools receiving support under RCW 28A.657.110.

11 (3) By January 1, 2020, and each January 1st thereafter, the
12 office of the superintendent of public instruction shall compile the
13 school district data reported as required by subsection (2) of this
14 section, and report, in compliance with RCW 43.01.036, to the
15 appropriate committees of the legislature with the annual and
16 longitudinal gains for the specific practices, activities, and
17 programs used by the school districts and schools to show which are
18 the most effective. The data must be disaggregated by student
19 subgroups as described in RCW 28A.300.042(1) for student-level data.

20 **Sec. 9.** RCW 28A.300.130 and 2016 c 72 s 804 are each amended to
21 read as follows:

23 subject to the availability of amounts appropriated for these
24 specific purposes.

33 public education system.

34 **Sec. 10.** RCW 28A.305.130 and 2019 c 252 s 112 are each amended
35 to read as follows:

36 The purpose of the state board of education is to provide
37 advocacy and strategic oversight of public education; implement a
38 standards-based accountability framework that creates a unified
39 system of increasing levels of support for schools in order to

1 improve student academic achievement; provide leadership in the
2 creation of a system that personalizes education for each student and
3 respects diverse cultures, abilities, and learning styles; and
4 promote achievement of the goals of RCW 28A.150.210. In addition to
5 any other powers and duties as provided by law, the state board of
6 education shall:

7 (1) Hold regularly scheduled meetings at such time and place
8 within the state as the board shall determine and may hold such
9 special meetings as may be deemed necessary for the transaction of
10 public business;

11 (2) Form committees as necessary to effectively and efficiently
12 conduct the work of the board;

13 (3) Seek advice from the public and interested parties regarding
14 the work of the board;

15 (4) For purposes of statewide accountability:

16 (a) Adopt and revise performance improvement goals in reading,
17 writing, science, and mathematics, by subject and grade level, once
18 assessments in these subjects are required statewide; academic and
19 technical skills, as appropriate, in secondary career and technical
20 education programs; and student attendance, as the board deems
21 appropriate to improve student learning. The goals shall be
22 consistent with student privacy protection provisions of RCW
23 28A.655.090(7) and shall not conflict with requirements contained in
24 Title I of the federal elementary and secondary education act of
25 1965, or the requirements of the Carl D. Perkins vocational education
26 act of 1998, each as amended. The goals may be established for all
27 students, economically disadvantaged students, limited English
28 proficient students, students with disabilities, and students (~~from~~
29 ~~disproportionately academically underachieving racial and ethnic~~
30 ~~backgrounds~~) who are not meeting academic standards as defined in
31 RCW 28A.165.015, disaggregated as described in RCW 28A.300.042(1) for
32 student-level data. The board may establish school and school
33 district goals addressing high school graduation rates and dropout
34 reduction goals for students in grades seven through twelve. The
35 board shall adopt the goals by rule. However, before each goal is
36 implemented, the board shall present the goal to the education
37 committees of the house of representatives and the senate for the
38 committees' review and comment in a time frame that will permit the
39 legislature to take statutory action on the goal if such action is
40 deemed warranted by the legislature;

1 (b) (i) (A) Identify the scores students must achieve in order to
2 meet the standard on the statewide student assessment, and the SAT or
3 the ACT if used to demonstrate career and college readiness under RCW
4 28A.655.250. The board shall also determine student scores that
5 identify levels of student performance below and beyond the standard.
6 The board shall set such performance standards and levels in
7 consultation with the superintendent of public instruction and after
8 consideration of any recommendations that may be developed by any
9 advisory committees that may be established for this purpose;

10 (B) To permit the legislature to take any statutory action it
11 deems warranted before modified or newly established scores are
12 implemented, the board shall notify the education committees of the
13 house of representatives and the senate of any scores that are
14 modified or established under (b) (i) (A) of this subsection on or
15 after July 28, 2019. The notifications required by this subsection
16 (4) (b) (i) (B) must be provided by November 30th of the year proceeding
17 the beginning of the school year in which the modified or established
18 scores will take effect;

19 (ii) The legislature intends to continue the implementation of
20 chapter 22, Laws of 2013 2nd sp. sess. when the legislature expressed
21 the intent for the state board of education to identify the student
22 performance standard that demonstrates a student's career and college
23 readiness for the eleventh grade consortium-developed assessments.
24 Therefore, by December 1, 2018, the state board of education, in
25 consultation with the superintendent of public instruction, must
26 identify and report to the governor and the education policy and
27 fiscal committees of the legislature on the equivalent student
28 performance standard that a tenth grade student would need to achieve
29 on the state assessments to be on track to be career and college
30 ready at the end of the student's high school experience;

31 (iii) The legislature shall be advised of the initial performance
32 standards and any changes made to the elementary, middle, and high
33 school level performance standards. The board must provide an
34 explanation of and rationale for all initial performance standards
35 and any changes, for all grade levels of the statewide student
36 assessment. If the board changes the performance standards for any
37 grade level or subject, the superintendent of public instruction must
38 recalculate the results from the previous ten years of administering
39 that assessment regarding students below, meeting, and beyond the
40 state standard, to the extent that this data is available, and post a

1 comparison of the original and recalculated results on the
2 superintendent's web site;

3 (c) Annually review the assessment reporting system to ensure
4 fairness, accuracy, timeliness, and equity of opportunity, especially
5 with regard to schools with special circumstances and unique
6 populations of students, and a recommendation to the superintendent
7 of public instruction of any improvements needed to the system; and

8 (d) Include in the biennial report required under RCW
9 28A.305.035, information on the progress that has been made in
10 achieving goals adopted by the board;

11 (5) Accredite, subject to such accreditation standards and
12 procedures as may be established by the state board of education, all
13 private schools that apply for accreditation, and approve, subject to
14 the provisions of RCW 28A.195.010, private schools carrying out a
15 program for any or all of the grades kindergarten through twelve.
16 However, no private school may be approved that operates a
17 kindergarten program only and no private school shall be placed upon
18 the list of accredited schools so long as secret societies are
19 knowingly allowed to exist among its students by school officials;

20 (6) Articulate with the institutions of higher education,
21 workforce representatives, and early learning policymakers and
22 providers to coordinate and unify the work of the public school
23 system;

24 (7) Hire an executive director and an administrative assistant to
25 reside in the office of the superintendent of public instruction for
26 administrative purposes. Any other personnel of the board shall be
27 appointed as provided by RCW 28A.300.020. The board may delegate to
28 the executive director by resolution such duties as deemed necessary
29 to efficiently carry on the business of the board including, but not
30 limited to, the authority to employ necessary personnel and the
31 authority to enter into, amend, and terminate contracts on behalf of
32 the board. The executive director, administrative assistant, and all
33 but one of the other personnel of the board are exempt from civil
34 service, together with other staff as now or hereafter designated as
35 exempt in accordance with chapter 41.06 RCW; and

36 (8) Adopt a seal that shall be kept in the office of the
37 superintendent of public instruction.

38 **Sec. 11.** RCW 28A.320.190 and 2019 c 252 s 113 are each amended
39 to read as follows:

1 (1) The extended learning opportunities program is created for
2 eligible (~~eleventh and~~) ninth through twelfth grade students who
3 are not on track to meet local or state graduation requirements as
4 well as eighth grade students who need additional assistance in order
5 to have the opportunity for a successful entry into high school. The
6 program shall provide early notification of graduation status and
7 information on education opportunities including preapprenticeship
8 programs that are available.

9 (2) Under the extended learning opportunities program and to the
10 extent funds are available for that purpose, districts shall make
11 available to students in grade twelve who have failed to meet one or
12 more local or state graduation requirements the option of continuing
13 enrollment in the school district in accordance with RCW 28A.225.160.
14 Districts are authorized to use basic education program funding to
15 provide instruction to eligible students under RCW 28A.150.220(5).

16 (3) Under the extended learning opportunities program,
17 instructional services for eligible students can occur during the
18 regular school day, evenings, on weekends, or at a time and location
19 deemed appropriate by the school district, including the educational
20 service district, in order to meet the needs of these students.
21 Instructional services provided under this section do not include
