If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and

1 clinical input constitute reliable data upon which to determine the
2 payment rates.

3 (4) The department shall to the maximum extent practicable use
4 the same system for delivery of spoken-language interpreter services
5 for social services appointments as the one established for medical
6 appointments in the health care authority. When contracting directly
7 with an individual to deliver spoken language interpreter services,
8 the department shall only contract with language access providers who
9 are working at a location in the state and who are state-certified or
10 state-authorized, except that when such a provider is not available,
11 the department may use a language access provider who meets other
12 certifications or standards deemed to meet state standards, including
13 interpreters in other states.

14 (5) Information technology projects or investments and proposed
15 projects or investments impacting time capture, payroll and payment
16 processes and systems, eligibility, case management, and
17 authorization systems within the department of social and health
18 services are subject to technical oversight by the office of the
19 chief information officer.

20 (6) (a) The department shall facilitate enrollment under the
21 medicaid expansion for clients applying for or receiving state funded
22 services from the department and its contractors. Prior to open
23 enrollment, the department shall coordinate with the health care
24 authority to provide referrals to the Washington health benefit
25 exchange for clients that will be ineligible for medicaid.

26 (b) To facilitate a single point of entry across public and
27 medical assistance programs, and to maximize the use of federal
28 funding, the health care authority, the department of social and
29 health services, and the health benefit exchange will coordinate
30 efforts to expand HealthPlanfinder access to public assistance and
31 medical eligibility staff. The department shall complete medicaid
32 applications in the HealthPlanfinder for households receiving or
33 applying for public assistance benefits.

34 (7) The health care authority, the health benefit exchange, the
35 department of social and health services, the department of health,
36 and the department of children, youth, and families shall work
37 together within existing resources to establish the health and human
38 services enterprise coalition (the coalition). The coalition, led by
39 the health care authority, must be a multi-organization collaborative
40 that provides strategic direction and federal funding guidance for

1 projects that have cross-organizational or enterprise impact,
2 including information technology projects that affect organizations
3 within the coalition. The office of the chief information officer
4 shall maintain a statewide perspective when collaborating with the
5 coalition to ensure that projects are planned for in a manner that
6 ensures the efficient use of state resources and maximizes federal
7 financial participation. The work of the coalition is subject to the
8 conditions, limitations, and review provided in section 701 of this
9 act.

25 these funds to track the following elements related to this
26 requirement: (i) The date on which an individual is determined to no
27 longer require active psychiatric treatment at an inpatient level of
28 care; (ii) the date on which the behavioral health entities and other
29 organizations responsible for resource management services for the
30 person is notified of this determination; and (iii) the date on which

3 fiscal year 2023 are provided solely for the department, in
4 collaboration with the health care authority, to develop and
5 implement a predictive modeling tool which identifies clients who are
6 at high risk of future involvement with the criminal justice system
7 and for developing a model to estimate demand for civil and forensic
8 state hospital bed needs pursuant to the following requirements.

9 (i) The predictive modeling tool must be developed to leverage
10 data from a variety of sources and identify factors that are strongly
11 associated with future criminal justice involvement. The department
12 must submit a report to the office of financial management and the
13 appropriate committees of the legislature which describes the
14 following: (A) The proposed data sources to be used in the predictive
15 model and how privacy issues will be addressed; (B) modeling results
16 including a description of measurable factors most strongly
17 predictive of risk of future criminal justice involvement; (C) an
18 assessment of the accuracy, timeliness, and potential effectiveness
19 of the tool; (D) identification of interventions and strategies that
20 can be effective in reducing future criminal justice involvement of
21 high risk patients; and (E) the timeline for implementing processes
22 to provide monthly lists of high-risk client to contracted managed

24 (ii) The model for civil and forensic state hospital bed need
25 must be developed and updated in consultation with staff from the
26 office of financial management and the appropriate fiscal committees
27 of the state legislature. The model shall incorporate factors for
28 capacity in state hospitals as well as contracted facilities, which
29 provide similar levels of care, referral patterns, wait lists,
30 lengths of stay, and other factors identified as appropriate for
31 predicting the number of beds needed to meet the demand for civil and
32 forensic state hospital services. Factors should include
33 identification of need for the services and analysis of the effect of
34 community investments in behavioral health services and other types
35 of beds that may reduce the need for long-term civil commitment
36 needs. The department must submit a report to the legislature each
37 November 1st through the end of the biennium. The department must
38 continue to update the model on a calendar quarterly basis and
39 provide updates to the office of financial management and the
40 appropriate committees of the legislature accordingly.

1 (h) \$2,199,000 of the general fund—state appropriation for fiscal
2 year 2022 and \$2,199,000 of the general fund—state appropriation for

18 evaluation services for individuals who are in local jails pursuant
19 to chapter 5, Laws of 2015 (timeliness of competency treatment and
20 evaluation services). This funding must be used solely to maintain
21 increases in the number of competency evaluators that began in fiscal
22 year 2016 and further increase the number of staff providing
23 competency evaluation services. During the 2021-2023 fiscal biennium,
24 the department must use a portion of these amounts to increase the
25 number of forensic evaluators pursuant to the settlement agreement
26 under *Trueblood, et al. v. Department of Social and Health Services,*
27 *et al.*, United States District Court for the Western District of
28 Washington, Cause No. 14-cv-01178-MJP.

35 evaluation services). These amounts must be used to maintain
36 increases that began in fiscal year 2016 and further increase the
37 number of forensic beds at western state hospital and eastern state
38 hospital. Pursuant to chapter 7, Laws of 2015 1st sp. sess.
39 (timeliness of competency treatment and evaluation services), the

1 department may contract some of these amounts for services at
2 alternative locations if the secretary determines that there is a
3 need. During the 2021-2023 fiscal biennium, the department must use a
4 portion of these amounts to increase forensic bed capacity at the
5 state hospitals pursuant to the settlement agreement under *Trueblood,*
6 *et al. v. Department of Social and Health Services, et al.*, United
7 States District Court for the Western District of Washington, Cause
8 No. 14-cv-01178-MJP.

9 (k) \$86,705,000 of the general fund—state appropriation for
10 fiscal year 2022 and \$86,705,000 of the general fund—state
11 appropriation for fiscal year 2023 are provided solely for the
12 department to continue to implement an acuity based staffing tool at
13 western state hospital and eastern state hospital in collaboration
14 with the hospital staffing committees.

15 (i) The staffing tool must be designed and implemented to
16 identify, on a daily basis, the clinical acuity on each patient ward
17 and determine the minimum level of direct care staff by profession to
18 be deployed to meet the needs of the patients on each ward. The
19 department must also continue to update, in collaboration with the
20 office of financial management's labor relations office, the staffing
21 committees, and state labor unions, an overall state hospital
22 staffing plan that looks at all positions and functions of the
23 facilities.

24 (ii) Within these amounts, the department must establish,
25 monitor, track, and report monthly staffing and expenditures at the
26 state hospitals, including overtime and use of locums, to the
27 functional categories identified in the recommended staffing plan.
28 The allotments and tracking of staffing and expenditures must include
29 all areas of the state hospitals, must be done at the ward level, and
30 must include contracted facilities providing forensic restoration
31 services as well as the office of forensic mental health services.

32 (iii) Monthly staffing levels and related expenditures at the
33 state hospitals must not exceed official allotments without prior
34 written approval from the director of the office of financial
35 management. In the event the director of the office of financial
36 management approves an increase in monthly staffing levels and
37 expenditures beyond what is budgeted, notice must be provided to the
38 appropriate committees of the legislature within thirty days of such
39 approval. The notice must identify the reason for the authorization
40 to exceed budgeted staffing levels and the time frame for the

1 authorization. Extensions of authorizations under this subsection
2 must also be submitted to the director of the office of financial
3 management for written approval in advance of the expiration of an
4 authorization. The office of financial management must notify the
5 appropriate committees of the legislature of any extensions of
6 authorizations granted under this subsection within thirty days of
7 granting such authorizations and identify the reason and time frame
8 for the extension.

12 department to implement strategies to improve patient and staff
13 safety at eastern and western state hospitals. These amounts must be
14 used for implementing a new intensive care model program at western

18 fiscal year 2023 are provided solely for the department to increase
19 services to patients found not guilty by reason of insanity under the
20 *Ross v. Laswhay* settlement agreement.

21 (n) Within the amounts provided in this subsection, the
22 department must develop and submit an annual state hospital
23 performance report for eastern and western state hospitals. Each
24 measure included in the performance report must include baseline
25 performance data, agency performance targets, and performance for the
26 most recent fiscal year. The performance report must include a one
27 page dashboard as well as charts for each fiscal and quality of care
28 measure broken out by hospital and including but not limited to (i)
29 monthly FTE expenditures compared to allotments; (ii) monthly dollar
30 expenditures compared to allotments; (iii) monthly FTE expenditures
31 per ten thousand patient bed days; (iv) monthly dollar expenditures
32 per ten thousand patient bed days; (v) percentage of FTE expenditures
33 for overtime; (vi) average length of stay by category of patient;
34 (vii) average monthly civil wait list; (viii) average monthly
35 forensic wait list; (ix) rate of staff assaults per 10,000 bed days;
36 (x) rate of patient assaults per 10,000 bed days; (xi) average number
37 of days to release after a patient has been determined to be
38 clinically ready for discharge; and (xii) average monthly vacancy

18 State Appropriation.	\$2,000,000
19 TOTAL APPROPRIATION.	\$3,699,783,000

20 The appropriations in this subsection are subject to the
21 following conditions and limitations:

22 (a) Individuals receiving services as supplemental security
23 income (SSI) state supplemental payments may not become eligible for
24 medical assistance under RCW 74.09.510 due solely to the receipt of
25 SSI state supplemental payments.

26 (b) In accordance with RCW 18.51.050, 18.20.050, 70.128.060, and
27 43.135.055, the department is authorized to increase nursing
28 facility, assisted living facility, and adult family home fees as
29 necessary to fully support the actual costs of conducting the
30 licensure, inspection, and regulatory programs. The license fees may
31 not exceed the department's annual licensing and oversight activity
32 costs and shall include the department's cost of paying providers for
33 the amount of the license fee attributed to medicaid clients.

34 (i) The current annual renewal license fee for adult family homes
35 is \$225 per bed beginning in fiscal year 2022 and \$225 per bed

7 facilities is \$359 per bed beginning in fiscal year 2022 and \$359 per
8 bed beginning in fiscal year 2023.

9 (c) \$3,488,000 of the general fund—state appropriation for fiscal
10 year 2022, \$8,946,000 of the general fund—state appropriation for
11 fiscal year 2023, and \$15,825,000 of the general fund—federal
12 appropriation are provided solely for the implementation of the
13 agreement reached between the governor and the service employees
14 international union healthcare 775nw under the provisions of chapters
15 74.39A and 41.56 RCW for the 2021-2023 fiscal biennium, as provided
16 in section 944 of this act.

17 (d) \$384,000 of the general fund—state appropriation for fiscal
18 year 2022, \$992,000 of the general fund—state appropriation for
19 fiscal year 2023, and \$1,751,000 of the general fund—federal
20 appropriation are provided solely for the homecare agency parity
21 impacts of the agreement between the governor and the service
22 employees international union healthcare 775nw.

23 (e) \$688,000 of the general fund—state appropriation for fiscal
24 year 2022, \$860,000 of the general fund—state appropriation for
25 fiscal year 2023, and \$1,733,000 of the general fund—federal

27 agreement reached between the governor and the adult family home
28 council under the provisions of chapter 41.56 RCW for the 2021-2023
29 fiscal biennium, as provided in section 946 of this act.

30 (f) The department may authorize a one-time waiver of all or any
31 portion of the licensing and processing fees required under RCW
32 70.128.060 in any case in which the department determines that an
33 adult family home is being relicensed because of exceptional
34 circumstances, such as death or incapacity of a provider, and that to
35 require the full payment of the licensing and processing fees would
36 present a hardship to the applicant. In these situations the
37 department is also granted the authority to waive the required
38 residential administrator training for a period of 120 days if

1 necessary to ensure continuity of care during the relicensing
2 process.

3 (g) Community residential cost reports that are submitted by or
4 on behalf of contracted agency providers are required to include

12 facility beds, adult family home beds, skilled nursing facility beds,
13 shared supportive housing beds, state operated living alternative
14 beds, and assisted living facility beds.

15 (ii) Each client must receive an individualized assessment prior
16 to leaving one of the state psychiatric hospitals. The individualized
17 assessment must identify and authorize personal care, nursing care,
18 behavioral health stabilization, physical therapy, or other necessary
19 services to meet the unique needs of each client. It is the
20 expectation that, in most cases, staffing ratios in all community
21 alternative placement options described in (h)(i) of this subsection
22 will need to increase to meet the needs of clients leaving the state
23 psychiatric hospitals. If specialized training is necessary to meet
24 the needs of a client before he or she enters a community placement,
25 then the person centered service plan must also identify and
26 authorize this training.

27 (iii) When reviewing placement options, the department must
28 consider the safety of other residents, as well as the safety of
29 staff, in a facility. An initial evaluation of each placement,
30 including any documented safety concerns, must occur within thirty
31 days of a client leaving one of the state psychiatric hospitals and
32 entering one of the community placement options described in (h)(i)
33 of this subsection. At a minimum, the department must perform two
34 additional evaluations of each placement during the first year that a
35 client has lived in the facility.

36 (iv) In developing bed capacity, the department shall consider
37 the complex needs of individuals waiting for discharge from the state
38 psychiatric hospitals.

39 (i) Sufficient appropriations are provided for discharge case
40 managers stationed at the state psychiatric hospitals. Discharge case

1 managers will transition clients ready for hospital discharge into
2 less restrictive alternative community placements. The transition of
3 clients ready for discharge will free up bed capacity at the state
4 psychiatric hospitals.

5 (j) \$6,000 of the general fund—state appropriation for fiscal
6 year 2022, \$17,000 of the general fund—state appropriation for fiscal
7 year 2023, and \$21,000 of the general fund—federal appropriation are
8 provided solely for a cost of living adjustment to the personal needs
9 allowance pursuant to RCW 74.09.340.

10 (k) The department will work with the health care authority and
11 Washington state's managed care organizations to establish
12 recommendations for clients who live in the community to access the
13 developmental disabilities administration's facility-based
14 professionals to receive care covered under the state plan. If
15 feasible, these recommendations should detail how to enable facility-
16 based professionals to deliver services at mobile or brick-and-mortar
17 clinical settings in the community.

18 (2) INSTITUTIONAL SERVICES

24 The appropriations in this subsection are subject to the
25 following conditions and limitations:

31 year 2022 and \$495,000 of the general fund—state appropriation for
32 fiscal year 2023 are for the department to fulfill its contracts with
33 the school districts under chapter 28A.190 RCW to provide
34 transportation, building space, and other support services as are
35 reasonably necessary to support the educational programs of students
36 living in residential habilitation centers.

37 (c) The residential habilitation centers may use funds
38 appropriated in this subsection to purchase goods, services, and

1 supplies through hospital group purchasing organizations when it is
2 cost-effective to do so.

3 (d) The department is directed to develop a plan to reduce the
4 footprint of the Rainier residential habilitation center.

5 (i) The plan must include the following:

6 (A) Input from interested stakeholders to ensure a thoughtful,
7 safe, and well-supported residential transition to the community.

19 individuals who reside or have resided at Rainier, and current or
20 former staff at Rainier and their respective labor organizations.

34 (14) Appropriations provided in this section are sufficient for

29 the authority to identify how medicaid managed care plans actively
30 case manage and coordinate services for long term care clients and
31 identify opportunities for improved care coordination for individuals
32 whose principal disability is due to their psychiatric diagnosis.
33 These recommendations and options should be reported to the office of
34 financial management, and the appropriate legislative fiscal
35 committees, no later than November 1, 2021.

36 (17) No later than December 31, 2021, the department of social
37 and health services and the health care authority shall submit a
38 waiver request to the federal department of health and human services
39 to authorize presumptive medicaid eligibility determinations for
40 clients preparing for acute care hospital discharge who may need

1 long-term services and supports. The department and the authority
2 shall hold stakeholder discussions, including opportunities for
3 public review and comment, during development of the waiver request.
4 Upon submission of the waiver request, the department and the
5 authority shall submit a report to the governor and the appropriate

25 report to the governor and the legislature on all sources of funding
26 available for both refugee and immigrant services and naturalization
27 services during the current fiscal year and the amounts expended to
28 date by service type and funding source. The report must also include
29 the number of clients served and outcome data for the clients.

30 (5) To ensure expenditures remain within available funds
31 appropriated in this section, the legislature establishes the benefit
32 under the state food assistance program, pursuant to RCW 74.08A.120,
33 to be one hundred percent of the federal supplemental nutrition
34 assistance program benefit amount.

35 (6) The department shall review clients receiving services
36 through the aged, blind, or disabled assistance program, to determine
37 whether they would benefit from assistance in becoming naturalized
38 citizens, and thus be eligible to receive federal supplemental

1 security income benefits. Those cases shall be given high priority
2 for naturalization funding through the department.

3 (7) The department shall continue the interagency agreement with
4 the department of veterans' affairs to establish a process for
5 referral of veterans who may be eligible for veterans' services. This
6 agreement must include out-stationing department of veterans' affairs
7 staff in selected community service office locations in King and
8 Pierce counties to facilitate applications for veterans' services.

17 program and transitional food assistance program for households with
18 children that are recipients of the supplemental nutrition assistance
19 program of the food assistance program but are not recipients of the
20 temporary assistance for needy families program. If the bill is not
21 enacted by June 30, 2021, the amounts provided in this subsection
22 shall lapse.

23 (10) \$77,000 of the general fund—state appropriation is provided
24 solely for the department to conduct a study, jointly with the
25 poverty reduction work group, on the feasibility of implementing a
26 universal basic income pilot program. The study must include research
27 of other universal basic income programs, recommendations for a pilot
28 in Washington, a cost-benefit analysis, operational costs, and an
29 implementation plan. The department shall submit recommendations
30 required by this section to the governor and appropriate legislative
31 committees no later than June 1, 2022.

32 (11)(a) \$77,000 of the general fund—state appropriation is
33 provided solely for the department to conduct a study, jointly with
34 the employment security department, on the feasibility of replicating
35 the unemployment insurance program for and expanding other social net
36 programs to individuals regardless of their citizenship status.

37 (b) In conducting the study required under this section, the
38 department shall meet at least three times with a representative of
39 an organization representing the interests of immigrants in

1 Washington state to discuss the information gathered by the
2 department. The study shall analyze existing programs to assess the
3 legality of expansion to serve undocumented individuals and families,
4 identify programmatic changes that would mitigate barriers to access
5 and reduce fear of participation, and identify the operational and
6 caseload costs associated with replication or expansion. If existing
7 program expansion is not feasible or in compliance with federal law,
8 the study shall assess the creation of similar programs and identify
9 the associated operational and caseload costs.

10 (c) The departments shall develop recommendations to expand
11 existing programs or create similar programs to serve undocumented
12 individuals.

13 (d) The departments shall jointly submit recommendations required
14 by this section to the governor and appropriate legislative
15 committees no later than November 5, 2021.

16 (12) \$236,000 of the general fund—state appropriation for fiscal
17 year 2022 is provided solely for costs in state fiscal year 2022 that
18 are associated with the temporary suspension of mid-certification
19 reviews and extension of the eligibility review between November 2020
20 and June 2021 for the aged, blind, or disabled program.

21 (13) \$391,000 of the general fund—state appropriation for fiscal

11 During the 2021-2023 fiscal biennium, the health care authority
12 shall provide support and data as required by the office of the state

22 technical oversight by the office of the chief information officer.

23 The health care authority shall not initiate any services that
24 require expenditure of state general fund moneys unless expressly
25 authorized in this act or other law. The health care authority may
26 seek, receive, and spend, under RCW 43.79.260 through 43.79.282,
27 federal moneys not anticipated in this act as long as the federal
28 funding does not require expenditure of state moneys for the program
29 in excess of amounts anticipated in this act. If the health care
30 authority receives unanticipated unrestricted federal moneys, those
31 moneys shall be spent for services authorized in this act or in any
32 other legislation providing appropriation authority, and an equal
33 amount of appropriated state general fund moneys shall lapse. Upon
34 the lapsing of any moneys under this subsection, the office of

2 by state funds.

3 The health care authority, the health benefit exchange, the
4 department of social and health services, the department of health,
5 and the department of children, youth, and families shall work

8 the health care authority, must be a multi-organization collaborative
9 that provides strategic direction and federal funding guidance for
10 projects that have cross-organizational or enterprise impact,
11 including information technology projects that affect organizations
12 within the coalition. The office of the chief information officer
13 shall maintain a statewide perspective when collaborating with the
14 coalition to ensure that projects are planned for in a manner that

18 act.

35	Medical Aid Account—State Appropriation.	\$536,000
36	TOTAL APPROPRIATION.	\$18,259,239,000

37 The appropriations in this section are subject to the following
38 conditions and limitations:

1 (1) The authority shall not accept or expend any federal funds
2 received under a medicaid transformation waiver under healthier
3 Washington except as described in subsections (2) and (3) of this
4 section until specifically approved and appropriated by the
5 legislature. To ensure compliance with legislative directive budget
6 requirements and terms and conditions of the waiver, the authority
7 shall implement the waiver and reporting requirements with oversight
8 from the office of financial management. The legislature finds that
9 appropriate management of the innovation waiver requires better
10 analytic capability, transparency, consistency, timeliness, accuracy,
11 and lack of redundancy with other established measures and that the
12 patient must be considered first and foremost in the implementation
13 and execution of the demonstration waiver. In order to effectuate
14 these goals, the authority shall: (a) Require the Dr. Robert Bree
15 collaborative and the health technology assessment program to reduce
16 the administrative burden upon providers by only requiring
17 performance measures that are nonduplicative of other nationally
18 established measures. The joint select committee on health care
19 oversight will evaluate the measures chosen by the collaborative and
20 the health technology assessment program for effectiveness and
21 appropriateness; (b) develop a patient satisfaction survey with the
22 goal to gather information about whether it was beneficial for the
23 patient to use the center of excellence location in exchange for
24 additional out-of-pocket savings; (c) ensure patients and health care
25 providers have significant input into the implementation of the
26 demonstration waiver, in order to ensure improved patient health
27 outcomes; and (d) in cooperation with the department of social and
28 health services, consult with and provide notification of work on
29 applications for federal waivers, including details on waiver
30 duration, financial implications, and potential future impacts on the
31 state budget, to the joint select committee on health care oversight
32 prior to submitting waivers for federal approval.

33 (2) No more than \$99,113,000 of the general fund—federal
34 appropriation and no more than \$82,554,000 of the general fund—local
35 appropriation may be expended for transformation through accountable
36 communities of health described in initiative 1 of the medicaid
37 transformation demonstration wavier under healthier Washington,
38 including preventing youth drug use, opioid prevention and treatment,
39 and physical and behavioral health integration. Under this
40 initiative, the authority shall take into account local input

1 regarding community needs. In order to ensure transparency to the
2 appropriate fiscal committees of the legislature, the authority shall
3 provide fiscal staff of the legislature query ability into any
4 database of the fiscal intermediary that authority staff would be
5 authorized to access. The authority shall not increase general fund—
6 state expenditures under this initiative. The director shall also
7 report to the fiscal committees of the legislature all of the
8 expenditures under this subsection and shall provide such fiscal data
9 in the time, manner, and form requested by the legislative fiscal
10 committees.

11 (3) No more than \$26,837,000 of the general fund—federal
12 appropriation and \$26,839,000 of the general fund—local appropriation
13 may be expended for tailored support for older adults and medicaid
14 alternative care described in initiative 2 of the medicaid
15 transformation demonstration waiver under healthier Washington as
16 well as administrative expenses for initiative 3. The authority shall
17 contract and provide funding to the department of social and health
18 services to administer initiative 2. The director in cooperation with
19 the secretary of the department of social and health services shall
20 report to the office of financial management all of the expenditures
21 of this section and shall provide such fiscal data in the time,
22 manner, and form requested. The authority shall not increase general
23 fund—state expenditures on this initiative.

24 (4) (a) No more than \$74,069,000 of the general fund—federal
25 appropriation and no more than \$22,862,000 of the general fund—local
26 appropriation may be expended for supported housing and employment
27 services described in initiative 3a and 3b of the medicaid
28 transformation demonstration waiver under healthier Washington. Under
29 this initiative, the authority and the department of social and
30 health services shall ensure that allowable and necessary services
31 are provided to eligible clients as identified by the department or
32 its third party administrator. The authority shall not increase
33 general fund—state expenditures under this initiative. The director
34 shall report to the joint select committee on health care oversight
35 no less than quarterly on financial and health outcomes. The director
36 shall also report to the fiscal committees of the legislature all of
37 the expenditures of this subsection and shall provide such fiscal
38 data in the time, manner, and form requested by the legislative
39 fiscal committees.

1 (b) No more than \$243,047,000 of the general fund—federal
2 appropriation and no more than \$99,274,000 of the general fund—local
3 appropriation may be expended for the medicaid quality improvement
4 program. Under federal regulations, the medicaid quality improvement
5 program is authorized and allows states to design quality improvement
6 programs for the medicaid population in ways that support the state's
7 quality goals. Medicaid quality improvement program payments will not
8 count against initiative 1 of the medicaid transformation
9 demonstration waiver spending limit and are excluded from the
10 waiver's budget neutrality calculation. Apple health managed care
11 organizations and their partnering providers will receive medicaid
12 quality improvement program payments as they meet designated
13 milestones. Partnering providers and apple health managed care
14 organizations will work together to achieve medicaid quality
15 improvement program goals according to the performance period
16 timelines and reporting deadlines as set forth by the authority. The
17 authority shall only utilize the medicaid quality improvement program
18 to support the transformation waiver and shall not pursue its use for
19 other purposes. Any programs created or funded by the medicaid
20 quality improvement program do not create an entitlement. The
21 authority shall not increase general fund—state, federal, or local
22 expenditures under this program. The director shall report to the
23 joint select committee on health care oversight not less than
24 quarterly on financial and health outcomes. The director shall report
25 to the fiscal committees of the legislature all of the expenditures
26 under this subsection and shall provide such fiscal data in the time,
27 manner, and form requested by the legislative fiscal committees.

28 (5) Annually, no later than November 1st, the authority shall
29 report to the governor and appropriate committees of the legislature
30 savings attributed to behavioral and physical health integration and
31 the level of savings achieved in areas that have integrated
32 behavioral and physical health.

33 (6) Sufficient amounts are appropriated in this subsection to
34 implement the medicaid expansion as defined in the social security
35 act, section 1902(a)(10)(A)(i)(VIII).

36 (7) The legislature finds that medicaid payment rates, as
37 calculated by the health care authority pursuant to the
38 appropriations in this act, bear a reasonable relationship to the
39 costs incurred by efficiently and economically operated facilities

1 for providing quality services and will be sufficient to enlist
2 enough providers so that care and services are available to the
3 extent that such care and services are available to the general
4 population in the geographic area. The legislature finds that the
5 cost reports, payment data from the federal government, historical
6 utilization, economic data, and clinical input constitute reliable
7 data upon which to determine the payment rates.

8 (8) Based on quarterly expenditure reports and caseload
9 forecasts, if the health care authority estimates that expenditures
10 for the medical assistance program will exceed the appropriations,
11 the health care authority shall take steps including but not limited
12 to reduction of rates or elimination of optional services to reduce
13 expenditures so that total program costs do not exceed the annual
14 appropriation authority.

15 (9) In determining financial eligibility for medicaid-funded
16 services, the health care authority is authorized to disregard
17 recoveries by Holocaust survivors of insurance proceeds or other
18 assets, as defined in RCW 48.104.030.

19 (10) The legislature affirms that it is in the state's interest
20 for Harborview medical center to remain an economically viable
21 component of the state's health care system.

22 (11) When a person is ineligible for medicaid solely by reason of
23 residence in an institution for mental diseases, the health care
24 authority shall provide the person with the same benefits as he or
25 she would receive if eligible for medicaid, using state-only funds to
26 the extent necessary.

27 (12) \$4,261,000 of the general fund—state appropriation for
28 fiscal year 2022, \$4,261,000 of the general fund—state appropriation
29 for fiscal year 2023, and \$8,522,000 of the general fund—federal
30 appropriation are provided solely for low-income disproportionate
31 share hospital payments.

32 (13) Within the amounts appropriated in this section, the health
33 care authority shall provide disproportionate share hospital payments
34 to hospitals that provide services to children in the children's
35 health program who are not eligible for services under Title XIX or
36 XXI of the federal social security act due to their citizenship
37 status.

38 (14) \$7,000,000 of the general fund—federal appropriation is
39 provided solely for supplemental payments to nursing homes operated

1 by public hospital districts. The public hospital district shall be
2 responsible for providing the required nonfederal match for the
3 supplemental payment, and the payments shall not exceed the maximum
4 allowable under federal rules. It is the legislature's intent that
5 the payments shall be supplemental to and shall not in any way offset
6 or reduce the payments calculated and provided in accordance with
7 part E of chapter 74.46 RCW. It is the legislature's further intent
8 that costs otherwise allowable for rate-setting and settlement
9 against payments under chapter 74.46 RCW shall not be disallowed
10 solely because such costs have been paid by revenues retained by the
11 nursing home from these supplemental payments. The supplemental
12 payments are subject to retrospective interim and final cost
13 settlements based on the nursing homes' as-filed and final medicare
14 cost reports. The timing of the interim and final cost settlements
15 shall be at the health care authority's discretion. During either the
16 interim cost settlement or the final cost settlement, the health care
17 authority shall recoup from the public hospital districts the
18 supplemental payments that exceed the medicaid cost limit and/or the
19 medicare upper payment limit. The health care authority shall apply
20 federal rules for identifying the eligible incurred medicaid costs
21 and the medicare upper payment limit.

22 (15) The health care authority shall continue the inpatient
23 hospital certified public expenditures program for the 2021-2023
24 fiscal biennium. The program shall apply to all public hospitals,
25 including those owned or operated by the state, except those
26 classified as critical access hospitals or state psychiatric
27 institutions. The health care authority shall submit reports to the
28 governor and legislature by November 1, 2022, and by November 1,
29 2023, that evaluate whether savings continue to exceed costs for this
30 program. If the certified public expenditures (CPE) program in its
31 current form is no longer cost-effective to maintain, the health care
32 authority shall submit a report to the governor and legislature
33 detailing cost-effective alternative uses of local, state, and
34 federal resources as a replacement for this program. During fiscal
35 year 2022 and fiscal year 2023, hospitals in the program shall be
36 paid and shall retain one hundred percent of the federal portion of
37 the allowable hospital cost for each medicaid inpatient fee-for-
38 service claim payable by medical assistance and one hundred percent
39 of the federal portion of the maximum disproportionate share hospital
40 payment allowable under federal regulations. Inpatient medicaid

1 payments shall be established using an allowable methodology that
2 approximates the cost of claims submitted by the hospitals. Payments
3 made to each hospital in the program in each fiscal year of the
4 biennium shall be compared to a baseline amount. The baseline amount
5 will be determined by the total of (a) the inpatient claim payment
6 amounts that would have been paid during the fiscal year had the
7 hospital not been in the CPE program based on the reimbursement rates
8 developed, implemented, and consistent with policies approved in the
9 2021-2023 biennial operating appropriations act and in effect on July
10 1, 2015, (b) one-half of the indigent assistance disproportionate
11 share hospital payment amounts paid to and retained by each hospital
12 during fiscal year 2005, and (c) all of the other disproportionate
13 share hospital payment amounts paid to and retained by each hospital
14 during fiscal year 2005 to the extent the same disproportionate share
15 hospital programs exist in the 2019-2021 fiscal biennium. If payments
16 during the fiscal year exceed the hospital's baseline amount, no
17 additional payments will be made to the hospital except the federal
18 portion of allowable disproportionate share hospital payments for
19 which the hospital can certify allowable match. If payments during
20 the fiscal year are less than the baseline amount, the hospital will
21 be paid a state grant equal to the difference between payments during
22 the fiscal year and the applicable baseline amount. Payment of the
23 state grant shall be made in the applicable fiscal year and
24 distributed in monthly payments. The grants will be recalculated and
25 redistributed as the baseline is updated during the fiscal year. The
26 grant payments are subject to an interim settlement within eleven
27 months after the end of the fiscal year. A final settlement shall be
28 performed. To the extent that either settlement determines that a
29 hospital has received funds in excess of what it would have received
30 as described in this subsection, the hospital must repay the excess
31 amounts to the state when requested. \$26,204,000 of the general fund—
32 state appropriation for fiscal year 2022 and \$44,788,000 of the
33 general fund—state appropriation for fiscal year 2023 are provided
34 solely for state grants for the participating hospitals.

35 (16) The health care authority shall seek public-private
36 partnerships and federal funds that are or may become available to
37 provide on-going support for outreach and education efforts under the
38 federal children's health insurance program reauthorization act of
39 2009.

1 (17) The health care authority shall target funding for maternity
2 support services towards pregnant women with factors that lead to
3 higher rates of poor birth outcomes, including hypertension, a
4 preterm or low birth weight birth in the most recent previous birth,
5 a cognitive deficit or developmental disability, substance abuse,
6 severe mental illness, unhealthy weight or failure to gain weight,
7 tobacco use, or African American or Native American race. The health
8 care authority shall prioritize evidence-based practices for delivery
9 of maternity support services. To the extent practicable, the health
10 care authority shall develop a mechanism to increase federal funding
11 for maternity support services by leveraging local public funding for
12 those services.

13 (18) The authority shall submit reports to the governor and the
14 legislature by September 15, 2022, and no later than September 15,
15 2023, that delineate the number of individuals in medicaid managed
16 care, by carrier, age, gender, and eligibility category, receiving
17 preventative services and vaccinations. The reports should include
18 baseline and benchmark information from the previous two fiscal years
19 and should be inclusive of, but not limited to, services recommended
20 under the United States preventative services task force, advisory
21 committee on immunization practices, early and periodic screening,
22 diagnostic, and treatment (EPSDT) guidelines, and other relevant
23 preventative and vaccination medicaid guidelines and requirements.

24 (19) Managed care contracts must incorporate accountability
25 measures that monitor patient health and improved health outcomes,
26 and shall include an expectation that each patient receive a wellness
27 examination that documents the baseline health status and allows for
28 monitoring of health improvements and outcome measures.

29 (20) Sufficient amounts are appropriated in this section for the
30 authority to provide an adult dental benefit.

31 (21) The health care authority shall coordinate with the

28 determining payment rates unless including these costs are

4 Additionally, behavioral health entities may use a portion of the
5 state funds allocated in accordance with subsection (6) of this
6 section to earn additional medicaid match, but only to the extent
7 that the application of such funds to medicaid services does not
8 diminish the level of crisis and commitment, community inpatient,

18 plan for using these funds, the numbers of individuals served, and
19 the types of services provided and submit a report to the office of
20 financial management and the appropriate fiscal committees of the
21 legislature by December 1st of each year of the biennium.

22 (11) Within the amounts appropriated in this section, funding is
23 provided for the authority to develop and phase in intensive mental
24 health services for high needs youth consistent with the settlement
25 agreement in *T.R. v. Dreyfus and Porter*.

26 (12) The authority must ensure allocated reserves provided to
27 behavioral health administrative services organizations are
28 maintained in accordance with contract language that clearly states
29 the requirements and limitations. The authority must monitor revenue
30 and expenditure reports and must require a behavioral health
31 administrative services organization to submit a corrective action
32 plan on how it will spend its unspent funding within a reasonable
33 period of time, when its reported reserves exceed maximum levels
34 established under the contract. The authority must review and approve
35 such plans and monitor to ensure compliance. If the authority
36 determines that a behavioral health administrative services
37 organization has failed to provide an adequate excess reserve
38 corrective action plan or is not complying with an approved plan, the
39 authority must reduce payments to the entity in accordance with
40 remedial actions provisions included in the contract. These

1 reductions in payments must continue until the authority determines
2 that the entity has come into substantial compliance with an approved
3 excess reserve corrective action plan.

4 (13) During the 2021-2023 fiscal biennium, any amounts provided
5 in this section that are used for case management services for
6 pregnant and parenting women must be contracted directly between the
7 authority and providers rather than through contracts with behavioral
8 health administrative services organizations.

9 (14) Within the amounts appropriated in this section, the
10 authority may contract with the University of Washington and
11 community-based providers for the provision of the parent-child
12 assistance program or other specialized chemical dependency case
13 management providers for pregnant, post-partum, and parenting women.
14 For all contractors: (a) Service and other outcome data must be
15 provided to the authority by request; and (b) indirect charges for
16 administering the program must not exceed ten percent of the total
17 contract amount.

18 (15) Within the amounts provided in this section, behavioral
19 health entities must provide outpatient chemical dependency treatment
20 for offenders enrolled in the medicaid program who are supervised by
21 the department of corrections pursuant to a term of community
22 supervision. Contracts with behavioral health entities must require
23 that behavioral health entities include in their provider network
24 specialized expertise in the provision of manualized, evidence-based
25 chemical dependency treatment services for offenders. The department
26 of corrections and the authority must develop a memorandum of
27 understanding for department of corrections offenders on active
28 supervision who are medicaid eligible and meet medical necessity for
29 outpatient substance use disorder treatment. The agreement will
30 ensure that treatment services provided are coordinated, do not
31 result in duplication of services, and maintain access and quality of
32 care for the individuals being served. The authority must provide all
33 necessary data, access, and reports to the department of corrections
34 for all department of corrections offenders that receive medicaid
35 paid services.

36 (16) No more than \$1,535,000 of the general fund—federal
37 appropriation and \$810,000 of the general fund—local appropriation

40 demonstration waiver under healthier Washington. Under this

1 initiative, the authority and the department of social and health
2 services shall ensure that allowable and necessary services are
3 provided to eligible clients as identified by the authority or its
4 providers or third party administrator. The department and the
5 authority in consultation with the medicaid forecast work group,
6 shall ensure that reasonable reimbursements are established for
7 services deemed necessary within an identified limit per individual.
8 The authority shall not increase general fund—state expenditures
9 under this initiative. The secretary in collaboration with the
10 director of the authority shall report to the joint select committee
11 on health care oversight no less than quarterly on financial and
12 health outcomes. The secretary in cooperation with the director shall
13 also report to the fiscal committees of the legislature all of the
14 expenditures of this subsection and shall provide such fiscal data in
15 the time, manner, and form requested by the legislative fiscal
16 committees.

34 fiscal year 2022, \$10,015,000 of the general fund—state appropriation
35 for fiscal year 2023, and \$15,025,000 of the general fund—federal
36 appropriation are provided solely for the operation of secure
37 withdrawal management and stabilization facilities. The authority may
38 not use any of these amounts for services in facilities that are
39 subject to federal funding restrictions that apply to institutions

1 for mental diseases, unless they have received a waiver that allows
2 for full federal participation in these facilities. Within these
3 amounts, funding is provided to increase the fee for service rate for
4 these facilities up to \$650 per day. The authority must require in
5 contracts with behavioral health entities that they pay no lower than
6 the fee for service rate. The authority must coordinate with regional
7 behavioral health entities to identify and implement purchasing
8 strategies or regulatory changes that increase access to services for
9 individuals with complex behavioral health needs at secure withdrawal
10 management and stabilization facilities.

18 administrative services organizations to increase their nonmedicaid
19 regional funding allocations and the remainder must be provided to

25 services organizations, this funding must be allocated to each region
26 based upon the population of the region. For managed care
27 organizations, this funding must be provided through the behavioral
28 health portion of the medicaid integrated managed care capitation
29 rates. The authority must require managed care organizations to
30 provide a report that details the methodology the managed care
31 organization used to distribute this funding to their contracted
32 behavioral health providers. The report submitted by behavioral
33 health administrative service organizations and managed care
34 organizations must include mechanisms employed to disperse the
35 funding as well as estimated impacts to behavioral health providers
36 in the community. The authority must submit a report to the
37 legislature by December annually, summarizing the information
38 provided by the managed care organizations regarding the distribution
39 of the funding provided under this section.

34 such subsections;

35 (ii) For each nonhigh school district with an enrollment of more

40 small student enrollments and remote and necessary plants under this

1 subsection (13) shall generate additional MSOC allocations consistent
2 with the nonemployee related costs (NERC) allocation formula in place
3 for the 2010-11 school year as provided section 502, chapter 37, Laws
4 of 2010 1st sp. sess. (2010 supplemental budget), adjusted annually
5 for inflation.

6 (14) Any school district board of directors may petition the
7 superintendent of public instruction by submission of a resolution
8 adopted in a public meeting to reduce or delay any portion of its
9 basic education allocation for any school year. The superintendent of
10 public instruction shall approve such reduction or delay if it does
11 not impair the district's financial condition. Any delay shall not be
12 for more than two school years. Any reduction or delay shall have no
13 impact on levy authority pursuant to RCW 84.52.0531 and local effort
14 assistance pursuant to chapter 28A.500 RCW.

15 (15) The superintendent may distribute funding for the following
16 programs outside the basic education formula during fiscal years 2022
17 and 2023 as follows:

18 (a) \$650,000 of the general fund—state appropriation for fiscal
19 year 2022 and \$650,000 of the general fund—state appropriation for

21 districts located in a fire protection district as now or hereafter
22 established pursuant to chapter 52.04 RCW.

23 (b) \$436,000 of the general fund—state appropriation for fiscal

25 fiscal year 2023 are provided solely for programs providing skills
26 training for secondary students who are enrolled in extended day
27 school-to-work programs, as approved by the superintendent of public
28 instruction. The funds shall be allocated at a rate not to exceed
29 \$500 per full-time equivalent student enrolled in those programs.

33 (17) Funding in this section is sufficient to fund a maximum of
34 1.2 FTE enrollment for career launch students pursuant to RCW
35 28A.700.130. Expenditures for this purpose must come first from the
36 appropriations provided in section 501(5) of this act; funding for
37 career launch enrollment exceeding those appropriations is provided
38 in this section. The office of the superintendent of public
39 instruction shall provide a summary report to the office of the

1 governor and the appropriate committees of the legislature by January
2 1, 2022. The report must include the total FTE enrollment for career
3 launch students, the FTE enrollment for career launch students that
4 exceeded the appropriations provided in section 501(5) of this act,
5 and the amount expended from this section for those students.

6 (18) Students participating in running start programs may be
7 funded up to a combined maximum enrollment of 1.2 FTE including
8 school district and institution of higher education enrollment
9 consistent with the running start course requirements provided in
10 chapter 202, Laws of 2015 (dual credit education opportunities). In
11 calculating the combined 1.2 FTE, the office of the superintendent of
12 public instruction may average the participating student's September
13 through June enrollment to account for differences in the start and
14 end dates for courses provided by the high school and higher
15 education institution. Additionally, the office of the superintendent
16 of public instruction, in consultation with the state board for
17 community and technical colleges, the student achievement council,
18 and the education data center, shall annually track and report to the
19 fiscal committees of the legislature on the combined FTE experience
20 of students participating in the running start program, including
21 course load analyses at both the high school and community and
22 technical college system.

23 (19) If two or more school districts consolidate and each
24 district was receiving additional basic education formula staff units
25 pursuant to subsection (13) of this section, the following apply:

26 (a) For three school years following consolidation, the number of
27 basic education formula staff units shall not be less than the number
28 of basic education formula staff units received by the districts in
29 the school year prior to the consolidation; and

30 (b) For the fourth through eighth school years following
31 consolidation, the difference between the basic education formula
32 staff units received by the districts for the school year prior to
33 consolidation and the basic education formula staff units after
34 consolidation pursuant to subsection (13) of this section shall be
35 reduced in increments of twenty percent per year.

36 (20)(a) Indirect cost charges by a school district to approved

2 separate programs for funding and financial reporting purposes under
3 this section.

4 (b) Career and technical education program full-time equivalent
5 enrollment shall be reported on the same monthly basis as the
6 enrollment for students eligible for basic support, and payments
7 shall be adjusted for reported career and technical education program
8 enrollments on the same monthly basis as those adjustments for
9 enrollment for students eligible for basic support.

10 (21) Funding in this section is sufficient to provide full
11 general apportionment payments to school districts eligible for
12 federal forest revenues as provided in RCW 28A.520.020. For the
13 2021-2023 biennium, general apportionment payments are not reduced
14 for school districts receiving federal forest revenues.

15 (22) \$400,000,000 of the general fund—state appropriation for
16 fiscal year 2022 is provided solely for school districts to provide
17 accelerated learning opportunities, student well-being supports and
18 extra-curricular opportunities, and address student needs that are
19 anticipated due to school closures and extended time in remote
20 learning mode due to the COVID-19 pandemic.

21 (a) The office of the superintendent of public instruction shall
22 allocate these funds based on the following criteria:

23 (i) These funds are solely for additional instruction, student
24 well-being support, and extra-curricular opportunities based on an
25 evaluation of student needs.

26 (ii) School districts must identify specific diagnostic
27 assessment tools and identify student learning and well-being gaps
28 and focus additional time and supports on students that will benefit
29 most from interventions.

30 (iii) Additional criteria based on evidence of positive learning
31 and well-being outcomes may be added by the office of the
32 superintendent of public instruction. This criteria can include, but
33 are not limited to: Balanced calendars, additional school days,
34 and/or additional instructional time.

35 (b) Schools must report progress on meeting learning and well-
36 being gaps in a manner identified by the office of the superintendent
37 of public instruction.

1 (1) The following calculations determine the salaries used in the
2 state allocations for certificated instructional, certificated
3 administrative, and classified staff units as provided in RCW
4 28A.150.260, and under section 504 of this act: For the 2021-22
5 school year and the 2022-23 school year salary allocations for
6 certificated instructional staff, certificated administrative staff,
7 and classified staff units are determined for each school district by
8 multiplying the statewide minimum salary allocation for each staff
9 type by the school district's regionalization factor shown in LEAP
10 Document 3.

11 Statewide Minimum Salary Allocation

12

19 (2) For the purposes of this section, "LEAP Document 3" means the
20 school district regionalization factors for certificated
21 instructional, certificated administrative, and classified staff, as
22 developed by the legislative evaluation and accountability program
23 committee on February 1, 2021, at 5:17 hours.

24 (3) Incremental fringe benefit factors are applied to salary
25 adjustments at a rate of 22.07 percent for school year 2021-22 and
26 22.07 percent for school year 2022-23 for certificated instructional
27 and certificated administrative staff and 19.25 percent for school
28 year 2021-22 and 19.25 percent for the 2022-23 school year for
29 classified staff.

30 (4) The salary allocations established in this section are for
31 allocation purposes only except as provided in this subsection, and
32 do not entitle an individual staff position to a particular paid
33 salary except as provided in RCW 28A.400.200, as amended by chapter
34 13, Laws of 2017 3rd sp. sess. (fully funding the program of basic

17 instructional staff units. Nothing in this section entitles an
18 individual certificated instructional staff to any particular number
19 of professional learning days.

23 value of the public employees' benefits board plan with the largest
24 enrollment. The surcharge payments shall be collected in addition to
25 the member premium payment.

26 (6) The rates specified in this section are subject to revision

30 allocation, it shall provide services through the special education
31 excess cost allocation funded in this section.

23 28A.150.415, which enhancement is within the program of basic
24 education.

25 (b) From July 1, 2021, to August 31, 2021, the superintendent

38 28A.150.390(3) (c) and (d), and shall be calculated in the aggregate
39 rather than individual district units. For purposes of this
40 subsection, the average basic education allocation per full-time

1 equivalent student shall be calculated in the aggregate rather than
2 individual district units.

3 (7) \$94,630,000 of the general fund—state appropriation for
4 fiscal year 2022, \$94,630,000 of the general fund—state appropriation

31 medical center. This amount is in lieu of money provided through the
32 home and hospital allocation and the special education program.

33 (9) The superintendent shall maintain the percentage of federal
34 flow-through to school districts at 85 percent. In addition to other
35 purposes, school districts may use increased federal funds for high-

1 (5) During the 2017-2019 fiscal biennium, the legislature may

5 existence at the time of the fuel purchase, less proper deductions
6 for refunds and costs of collection as provided in RCW 46.68.090.

7 (2) The treasurer must place these funds in the general fund as
8 follows:

9 (a) Thirty-six percent must be credited to the ORV and nonhighway
10 vehicle account and administered by the department of natural
11 resources solely for acquisition, planning, development, maintenance,
12 and management of ORV, nonmotorized, and nonhighway road recreation
13 facilities, and information programs and maintenance of nonhighway
14 roads;

15 (b) Three and one-half percent must be credited to the ORV and
16 nonhighway vehicle account and administered by the department of fish

19 recreation facilities and the maintenance of nonhighway roads;

20 (c) Two percent must be credited to the ORV and nonhighway

24 recreation facilities; and

25 (d) Fifty-eight and one-half percent must be credited to the
26 nonhighway and off-road vehicle activities program account to be
27 administered by the board for planning, acquisition, development,
28 maintenance, and management of ORV, nonmotorized, and nonhighway road
29 recreation facilities and for education, information, and law
30 enforcement programs. The funds under this subsection must be
31 expended in accordance with the following limitations:

32 (i) Not more than thirty percent may be expended for education,
33 information, and law enforcement programs under this chapter;

34 (ii) Not less than seventy percent may be expended for ORV,
35 nonmotorized, and nonhighway road recreation facilities. Except as
36 provided in (d)(iii) of this subsection, of this amount:

37 (A) Not less than thirty percent, together with the funds the
38 board receives under RCW 46.68.045, may be expended for ORV

19 consistent off-road vehicle signage at department-managed recreation
20 sites, and to implement the recreation opportunities on department-
21 managed lands in the Reiter block and Ahtanum state forest, and to
22 the state parks and recreation commission. The legislature finds that
23 the appropriation of funds from the NOVA account during the 2009-2011
24 fiscal biennium for maintenance and operation of state parks or to
25 improve accessibility for boaters and off-road vehicle users at state
26 parks will benefit boaters and off-road vehicle users and others who
27 use nonhighway and nonmotorized recreational facilities. The
28 appropriations under this subsection are not required to follow the
29 specific distribution specified in subsection (2) of this section.

30 (5) During the 2021-2023 fiscal biennium, the legislature may
31 appropriate moneys from the NOVA account to the department of natural
32 resources to support programs that benefit nonhighway road and

34 Sound may be funded under this chapter only if the project is not in
35 conflict with the action agenda developed by the Puget Sound
36 partnership under RCW 90.71.310.

37 **Sec. 965.** RCW 79A.25.210 and 2019 c 415 s 987 are each amended
38 to read as follows:

1 The firearms range account is hereby created in the state general
2 fund. Moneys in the account shall be subject to legislative
3 appropriation and shall be used for purchase and development of land,
4 construction or improvement of range facilities, including fixed
5 structure construction or remodeling, equipment purchase, safety or
6 environmental improvements, noise abatement, and liability protection
7 for public and nonprofit firearm range training and practice
8 facilities.

9 Grant funds shall not be used for expendable shooting supplies,
10 or normal operating expenses. In making grants, the board shall give
11 priority to projects for noise abatement or safety improvement. Grant
12 funds shall not supplant funds for other organization programs.

13 The funds will be available to nonprofit shooting organizations,
14 school districts, and state, county, or local governments on a match
15 basis. All entities receiving matching funds must be open on a
16 regular basis and usable by law enforcement personnel or the general
17 public who possess Washington concealed pistol licenses or Washington
18 hunting licenses or who are enrolled in a firearm safety class.

19 Applicants for a grant from the firearms range account shall
20 provide matching funds in either cash or in-kind contributions. The
21 match must represent one dollar in value for each one dollar of the
22 grant except that in the case of a grant for noise abatement or
23 safety improvements the match must represent one dollar in value for
24 each two dollars of the grant. In-kind contributions include but are
25 not limited to labor, materials, and new property. Existing assets
26 and existing development may not apply to the match.

27 Applicants other than school districts or local or state
28 government must be registered as a nonprofit or not-for-profit
29 organization with the Washington secretary of state. The
30 organization's articles of incorporation must contain provisions for
31 the organization's structure, officers, legal address, and registered
32 agent.

33 Organizations requesting grants must provide the hours of range
34 availability for public and law enforcement use. The fee structure
35 will be submitted with the grant application.

36 Any nonprofit organization or agency accepting a grant under this
37 program will be required to pay back the entire grant amount to the
38 firearms range account if the use of the range facility is
39 discontinued less than ten years after the grant is accepted.

1 Entities receiving grants must make the facilities for which
2 grant funding is received open for hunter safety education classes
3 and firearm safety classes on a regular basis for no fee.

4 Government units or school districts applying for grants must
5 open their range facility on a regular basis for hunter safety
6 education classes and firearm safety classes.

7 The board shall adopt rules to implement chapter 195, Laws of
8 1990, pursuant to chapter 34.05 RCW. During the 2017-2019 and
9 2019-2021 fiscal biennia, expenditures from the firearms range
10 account may be used to implement chapter 74, Laws of 2017 (SHB 1100)
11 (concealed pistol licenses) and chapter 282, Laws of 2017 (SB 5268)
12 (concealed pistol license notices). During the 2021-2023 fiscal
13 biennium, expenditures from the firearms range account may be used to
14 implement chapter 74, Laws of 2017 (SHB 1100) (concealed pistol
15 licenses).

16 **Sec. 966.** RCW 86.26.007 and 2019 c 415 s 991 are each amended to
17 read as follows:

18 The flood control assistance account is hereby established in the
19 state treasury. At the beginning of the 2005-2007 fiscal biennium,
20 the state treasurer shall transfer three million dollars from the
21 general fund to the flood control assistance account. Each biennium
22 thereafter, except for the 2021-2023 biennium, the state treasurer
23 shall transfer four million dollars from the general fund to the
24 flood control assistance account. During the 2021-2023 biennium, the
25 state treasurer shall transfer \$2,000,000 from the model toxics
26 control operating account to the flood control assistance account.
27 Moneys in the flood control assistance account may be spent only
28 after appropriation for purposes specified under this chapter. During
29 the 2017-2019 and 2019-2021 fiscal biennia, the legislature may
30 appropriate moneys from the account for the purposes specified under
31 chapter 90.94 RCW.

32 NEW SECTION. **Sec. 967.** If any provision of this act or its
33 application to any person or circumstance is held invalid, the
34 remainder of the act or the application of the provision to other
35 persons or circumstances is not affected.

36 NEW SECTION. **Sec. 968.** This act is necessary for the immediate
37 preservation of the public peace, health, or safety, or support of

1 the state government and its existing public institutions, and takes
2 effect immediately.
