BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. (1) The legislature finds that perpetual management of Washington state natural resources, including sustainable harvesting of minerals, timber, and other forest products, and the preservation and protection of fish and wildlife and recreational opportunities requires clear, efficient, streamlined, and scientific management by a single state agency. Such a consolidation will bring combined resources to bear on securing, managing, and enhancing all of the state's natural resources. It will simplify licensing, amplify research, avoid duplication, and magnify enforcement of laws and rules. It will provide all forest landowners, fishers, hunters, users of recreation, and tribal fisheries comanagers with a single source of consistent policies, procedures, and access.

p. 1 SB 6813

(2) This act abolishes the department of fish and wildlife and the agency known as the state parks and recreation commission and transfers their powers, duties, and functions to the department of natural resources and administratively locates the fish and wildlife commission and the governor-appointed state parks and recreation commission within the department of natural resources. The legislature intends no substantive fish, wildlife, or parks and recreation policy changes and no transfer of powers and duties away from the fish and wildlife commission and the governor-appointed state parks and recreation commission unless specifically stated in this act.
