LRB Number	23-4831/1	Introduction Number	SB-0619	Estimate Type	Original
Description a transition to grass pilot program and making an appropriation					

Assumptions Used in Arriving at Fiscal Estimate

The bill creates a transition to grass pilot program. The program would provide grants to farmers who implement new grass-based managed grazing systems or practices for their livestock. Grants would be capped at \$40,000. These grants would be distributed 75 percent in year one, 12.5 percent in year two, and 12.5 percent in year three. Managed grazing systems are alternatives to continuous grazing with the goal of improving conservation through controlling the density of livestock to maintain perennial grass-based vegetation, ensure regular access to fresh forage, and to reduce soil compaction and erosion.

The bill would create a 0.5 full-time equivalent (FTE) position to support the new pilot program. The pilot program would be funded with a newly created SEG annual appropriation funded at \$500,000 with revenue from the Environmental Fund.

Long-Range Fiscal Implications

The bill would provide \$500,000 for the pilot program annually. The department believes the program could be supported with the 0.5 FTE authorized in the bill.
