Analysis by the Legislative Reference Bureau

Current law requires an agency to suspend working on a permanent rule if it determines that the proposed rule may result in more than \$10,000,000 in implementation and compliance costs over any two-year period. This bill creates an exemption from this requirement for any proposed Department of Natural Resources rule that relates to establishing groundwater protection standards for perfluoroalkyl or polyfluoroalkyl substances (PFAS).

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

5 **SECTION 1.** 227.139 (4) (am) of the statutes is created to read:
6 227.139 (4) (am) This section does not apply to a proposed rule of the
