Analysis by the Legislative Reference Bureau

This bill creates an appropriation to make payments from the ambulance service provider trust fund to eligible ambulance service providers as specified under 2021 Wisconsin Act 228. Act 228 implemented an ambulance service provider assessment on private ambulance service providers for supplemental reimbursements under the Medical Assistance program and a supplemental reimbursement under the Medical Assistance program to public ambulance service providers through certified public expenditures. Currently, the Department of Health Services administers the Medical Assistance program, which is a joint federal and state program that provides health services to individuals who have limited financial resources. Generally, under the Medical Assistance program, the state provides its share of the funding for benefits and the federal government then contributes its designated share of funding, also known as federal financial participation. Act 228 imposes on each private ambulance service provider a fee for the privilege of doing business in Wisconsin and established an ambulance service provider trust fund for the fees collected.

The bill also requires DHS to transfer moneys annually from the ambulance service provider trust fund to cover the administrative costs associated with

administering the ambulance assessment and making supplemental reimbursements to ambulance providers.
