1 **AN ACT** *to create* 20.435 (4) (cm), 49.79 (7m), 227.01 (13) (tm) and 253.06 (9) of
2 the statutes; **relating to:** limiting the foods that may be purchased under

Analysis by the Legislative Reference Bureau

Under current law, the federal food stamp program, now known as the Supplemental Nutrition Assistance Program (SNAP) and called FoodShare in this state, assists eligible low-income individuals (recipients) to purchase food. SNAP benefits are paid entirely with federal moneys. The cost of administration is split between the federal and state governments; the program is administered in this state by the Department of Health Services (DHS).

Under this bill, DHS must require that not less than 67 percent of the SNAP benefits used by a recipient in a month be used to purchase any of the following foods: foods that are on the list of foods authorized for the federal special supplemental nutrition program for women, infants, and children (WIC foods); beef; pork; chicken; fish; fresh produce; and fresh, frozen, and canned white potatoes. In addition, DHS must prohibit using SNAP benefits for the purchase of crab, lobster, shrimp, or any other shellfish. To facilitate compliance with the requirements, DHS may authorize

ASSEMBLY BILL 177

grocers and other retailers that sell food to recipients (retailers) to swipe a recipient's benefit card before scanning any items that the recipient is purchasing.

Under the bill, DHS is required to reimburse retailers and warehouse suppliers in this state for their initial implementation costs associated with the new requirements. Before implementing the new requirements, DHS must determine what the implementation and compliance costs associated with the new requirements will be to retailers and warehouse suppliers in this state and must submit a report with that cost determination to the Joint Committee on Finance.

If DHS determines that a federal waiver is needed to implement the food limitation requirements or the authorization to pre-swipe benefit cards under the bill, it must request the waiver and may not implement the requirements or the pre-swipe authorization unless the waiver is granted. DHS must implement the requirements within three years after the bill is enacted or, if a waiver is necessary, within two years after the waiver is granted.

The bill requires DHS annually to review, and to update as appropriate, its list of WIC foods and to publish a current list of WIC foods on its Internet site. DHS also must publish on its Internet site a list of the foods for which 67 percent of a recipient's benefits must be used.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
