Analysis by the Legislative Reference Bureau

Under current law, laundry services performed by the consumer of the laundry services are subject to the sales tax and the use tax, unless the services are performed through the use of coin-operated, self-service machines. Under this bill, an individual may claim an income tax credit in an amount equal to the amount of the sales and use taxes that the individual paid in the taxable year on laundry services performed by the individual through the use of self-service machines.
