### *Analysis by the Legislative Reference Bureau*

This bill requires the Department of Natural Resources, under its statewide program to control invasive species, to award up to \$100,000 in each fiscal year in the 2023-25 fiscal biennium in grants to local governments or American Indian tribes or bands that have declared wild parsnip to be a noxious weed for projects on public or private land to map, control, eradicate, monitor, and minimize the spread of wild parsnip. The bill allows a grant recipient to collaborate with a regional conservation organization on a project funded by the grant. Under the bill, an individual grant may not exceed \$10,000 and a grantee may not be awarded more than one grant per grant cycle.

The bill appropriates \$50,000 in each fiscal year in the 2023-25 fiscal biennium to the Bureau of Natural Heritage Conservation.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
