Analysis by the Legislative Reference Bureau

This bill requires a school board, governing body of a private school, or operator of a charter school that hosts a youth athletic activity between May 1 and September 30 to ensure that a cold water immersion tub that complies with standards established by the Department of Health Services is available to individuals participating in the youth athletic activity. Under the bill, a youth athletic activity is an organized athletic activity in which the participants, a majority of whom are under 19 years of age, are engaged in an athletic game or competition against another team, club, or entity, or in practice or preparation for an organized athletic game or competition against another team, club, or entity.

The bill also requires DHS to promulgate rules establishing standards, guidelines, and protocols for the cold water immersion tubs required to be made available under the bill.
