## 2021 ASSEMBLY BILL 53

February 10, 2021 - Introduced by Representatives CALLAHAN, EDMING, HORLACHER, KURTZ, MAGNAFICI, ROZAR, SKOWRONSKI, SPIROS, TITTL, VANDERMEER, MOSES and BROOKS, cosponsored by Senators STAFSHOLT, COWLES, FELZKOWSKI, PETROWSKI and NASS. Referred to Committee on Sporting Heritage.

\*\*\*AUTHORS SUBJECT TO CHANGE\*\*\*

1 **AN ACT** *to renumber* 29.311; and *to create* 29.311 (2) of the statutes; **relating**  
2 **to:** shot shell restrictions and the hunting of fur-bearing animals.

---

### *Analysis by the Legislative Reference Bureau*

This bill prohibits the Department of Natural Resources from limiting the use of shot shells based on shot size for the hunting of fur-bearing animals, which current law defines to include otter, beaver, mink, muskrat, woodchuck, marten, fisher, skunk, raccoon, fox, weasel, opossum, badger, wolf, coyote, bobcat, cougar, and lynx.

Under current law, DNR is required to regulate the hunting, fishing, and trapping of wild animals. In general, a person may hunt, fish, or trap a wild animal only during the open season for that animal and only with the appropriate approval issued by DNR. However, current law provides that a landowner or occupant may hunt or trap beaver, coyotes, foxes, raccoons, woodchucks, rabbits, and squirrels (commonly referred to as nuisance wildlife) on the land at any time and without a DNR approval.

Under current rules promulgated by DNR, no person while hunting may use, possess, or have under the person's control shot shells containing shot larger than T. Under the bill, DNR may not limit the use, possession, or control of shot shells on the basis of the size of the contained shot for the hunting of a fur-bearing animal
