### *Analysis by the Legislative Reference Bureau*

Current law authorizes dentists to administer COVID-19 and flu vaccines. This bill authorizes dentists to administer the following vaccines: 1) vaccines listed in the current immunization schedules recommended by the federal government; and 2) vaccines administered pursuant to a prescription order, vaccination protocol, or standing order. Under the bill, a dentist may administer a vaccine to a child under the age of six only if the vaccine is administered pursuant to a prescription order and the dentist successfully completes training that includes administering vaccines to children under the age of six.

A dentist who administers a vaccine under the bill must update the Wisconsin Immunization Registry established by the Department of Health Services within seven days of administering the vaccine.
