### *Analysis by the Legislative Reference Bureau*

Under current law, no person may operate a retail food establishment unless the person has a license issued by the Department of Agriculture, Trade and Consumer Protection (DATCP). Current law defines a retail food establishment to include a permanent or mobile food processing facility where food processing is conducted primarily for direct retail sale to consumers at the facility, but to exclude restaurants and other establishments holding a permit issued by the Department of Health Services (DHS). Each license issued to a retail food establishment under this requirement is valid for one year and must expire on June 30. Current law permits DATCP to enter into an agreement with a local health department having a jurisdictional population of 5,000 or more under which the local health department serves as DATCP's agent. Under such an agreement, the local health department may issue the required license.

This bill permits a local health department, located in a city of the first class (currently, only the city of Milwaukee) and that has entered into an agreement with DATCP to serve as DATCP's agent, to issue a license to a retail food establishment at any time during the year, and requires such a license to expire one year from the date of issuance.

**ASSEMBLY BILL 589**

Also under current law, no person may conduct, maintain, manage, or operate a restaurant or bed and breakfast establishment unless the person has a permit issued by DHS. Each permit issued to a restaurant or bed and breakfast establishment under this requirement is valid for one year and expires on June 30, except that permits initially issued during the period beginning on April 1 and ending on June 30 expire on June 30 of the following year. Current law permits DHS to enter into an agreement with a local health department having a jurisdictional population of 5,000 or more under which the local health department serves as DHS's agent. Under such an agreement, the local health department may issue the required permit.

This bill permits a local health department, located in a city of the first class and that has entered into an agreement with DHS to serve as DHS's agent, to issue a permit to a restaurant or bed and breakfast establishment at any time during the year, and requires such a permit to expire one year from the date of issuance.
