Analysis by the Legislative Reference Bureau

PAY FOR PERFORMANCE GRANT REQUIREMENTS

Under current law, the Department of Administration administers a number of grant programs having the purpose of alleviating homelessness. This bill establishes “pay for performance” requirements for certain grants issued under those programs to grant recipients. For each eligible grant to a grant recipient, DOA must withhold between 10 and 50 percent of the amount of the eligible grant for at least six months after the award. DOA may then pay the amount withheld to the grant recipient only if the recipient demonstrates that it has met one or more of the following performance objectives compared to a base year, as determined by DOA:

1. Increased the number of homeless individuals and families securing permanent housing after participation in programs offered by the grant recipient.
2. Increased the number of homeless individuals securing part-time or full-time employment after participation in programs offered by the grant recipient.
3. Reduced the number of homeless individuals and families returning to homelessness after participation in programs offered by the grant recipient.

STRUCTURED CAMPING FACILITIES

This bill authorizes DOA and, under the circumstances described below, cities, villages, towns, and counties (political subdivisions) to designate public property,

other than county fairgrounds and public parks, for use as a “structured camping facility” at which DOA may assign a homeless individual or family a specific location for the purpose of allowing the individual or family to set up temporary residence at the facility. DOA may allow homeless individuals and families assigned to a structured camping facility to bring camping equipment and other personal items onto the facility. Additionally, DOA must provide for public safety at structured camping facilities and must ensure that potable water and adequate sanitary facilities are available at each facility.

Also, under the bill, if a resident of a political subdivision petitions the political subdivision to designate public property of the political subdivision as a structured camping facility, the political subdivision may make a designation and must provide DOA notice of the designation. If the political subdivision fails to make a designation within 12 months after the resident’s petition, DOA may designate public property of the political subdivision as a structured camping facility without the political subdivision’s approval, but only if the political subdivision had a homeless population above the per capita statewide average for political subdivisions in any of the immediately preceding two statewide counts of homeless population in the state, as determined by DOA. Otherwise, the bill provides that DOA may designate the public property of a political subdivision as a structured camping facility only with the approval of the political subdivision.

The bill also prohibits the setting up of a temporary residence on public property that is not designated for recreational camping or as a structured camping facility under the bill. A person who violates the prohibition is guilty of a Class C misdemeanor and may be subject to a fine of not more than \$500, imprisonment for not more than 30 days, or both, unless the person has no other reasonable options for obtaining shelter or the person has been or would be denied admission to a homeless shelter because the shelter is at capacity.

Finally, under the bill, DOA must condition a homeless individual’s or family’s temporary residence at a structured camping facility on the completion of mental health or substance use evaluations, and DOA may expel individuals who fail to comply with DOA instructions.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
