of the statutes; **relating to:** local inspections of rental properties.

Analysis by the Legislative Reference Bureau

Current law limits the authority of a political subdivision to require inspections of rental properties. Generally, under current law, such an inspection must be initiated by a complaint or a special inspection warrant or be performed under a program of inspections that meets a number of requirements specified in the statutes. This bill eliminates these restrictions on a political subdivision's authority to require inspections of rental properties.

For further information see the local fiscal estimate, which will be printed as an appendix to this bill.
