

## 2013 ASSEMBLY BILL 761

February 13, 2014 – Introduced by Representatives KUGLITSCH, KAHL, KNODL, RIPP and A. OTT. Referred to Committee on Jobs, Economy and Mining.

\*\*\*AUTHORS SUBJECT TO CHANGE\*\*\*

- 1     **AN ACT to create** 238.15 (3) (dm) of the statutes; **relating to:** the allocation of  
2           unused early stage seed investment credits.

---

### *Analysis by the Legislative Reference Bureau*

Under this bill, the Wisconsin Economic Development Corporation (WEDC) may allocate at least 25 percent, but no more than 50 percent, of the unallocated early stage seed investment tax credits to certified investment fund managers so that the fund managers may allocate the credits to persons who make investments in certified businesses for which early stage seed investment credits may be claimed. A fund manager who receives the unallocated credits must allocate the entire amount to investors and no investor may claim the credits unless the total amount committed for investment equals or exceeds 100 percent of the amount of the credits allocated to the fund manager. Under the bill, the fund manager must pay 50 percent of all distributions from the investments as a return of capital, or a return on capital, to the state, less the amount of certain fees and costs.

Under the bill, a fund manager who receives unallocated early stage seed investment credits must report to WEDC the subsequent allocation of those credits no later than 10 days after the fund manager allocates the credits to investors. WEDC then submits the report to the joint committee on finance. The fund manager must also submit an annual report to WEDC that contains the name of each business receiving an investment and the investment amount, the number of jobs created or retained by the business, and any other information required by WEDC. WEDC also submits that report to the joint committee on finance.
