4 individual and corporate income and franchise tax credit for a small business
5 that pays personal property taxes.

Analysis by the Legislative Reference Bureau

This bill creates a nonrefundable individual income tax credit and a corporate income and franchise tax credit for a small business that is equal to the amount the small business paid in a taxable year for personal property taxes assessed to the small business. Under the bill, “small business” means a person engaging in any activity, enterprise, or business in this state employing 50 or fewer individuals on a permanent basis with gross receipts of no greater than \$1,000,000 in the taxable year for which the credit is claimed.

The credit is nonrefundable, meaning that it may be claimed only up to the amount of a taxpayer’s income or franchise tax liability. If the amount of the credit for which a small business is eligible exceeds its tax liability, the small business may carry forward the excess credit amount for up to the following 15 taxable years.
