Referred to Committee on Ways and Means.

1 **To create** section 11 of article VIII of the constitution; **relating to:** the dissolution
2 of state funds and accounts and prohibiting the state from changing the
3 purpose of any state fund or program revenue appropriation account (first
4 consideration).

Analysis by the Legislative Reference Bureau

This constitutional amendment, proposed to the 2011 legislature on first consideration, provides that the legislature may not abolish by law a state fund, or program revenue appropriation account thereof, other than a fund or account related solely to the issuance or payment of public debt or other obligation, unless two-thirds of all the members elected to each house concur therein.

Any state fund, or program revenue appropriation account thereof, created by law before, on, or after the date of ratification of this amendment remains in effect until abolished by law, and the purpose of the fund or account may not be changed by law.

The proposal also provides that moneys in a state fund, or program revenue appropriation account thereof, that is created by law before, on, or after the date of ratification of this amendment may not be lapsed, transferred, or expended in any manner that would conflict with the purpose of the fund or account. If a state fund, or program revenue appropriation account thereof, is abolished, all unencumbered moneys in the fund or account as of the date the fund or account is abolished are transferred to the general fund of the state.

A constitutional amendment requires adoption by two successive legislatures, and ratification by the people, before it can become effective.

22 sequencing and the numbering of the provisions whose numbers conflict.
