2021 SENATE BILL 356

1　　AN ACT *to repeal* 341.25 (1) (L); and *to create* 341.25 (1) (m) of the statutes;

2　　　　**relating to:** registration surcharges for electric vehicles and vehicles over

3　　　　4,500 pounds.

Analysis by the Legislative Reference Bureau

This bill eliminates the surcharges for registering electric automobiles and motor trucks and creates a surcharge of $5 for registering automobiles and motor trucks weighing over 4,500 pounds.

Under current law, a motor vehicle may not be operated upon a highway without a current, valid registration. In general, vehicles must be registered on an annual basis by payment of a specified fee to the Department of Transportation. For motor trucks and automobiles that are hybrid electric vehicles or nonhybrid electric vehicles, a surcharge of $75 and $100, respectively, is added to the annual registration fee.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
