Analysis by the Legislative Reference Bureau

Under this bill, assessors may not do any of the following when assessing the value of real property for property tax purposes:

1. Use mortgages or bank appraisals, or any portion thereof, to determine the assessed value.
2. Use projected rents and other future or anticipated benefits to determine fair market value.
3. Use list and asking prices or rents to determine fair market value.
4. Use price trends to determine fair market value in order to increase the value of multiple properties by a general amount or percentage.
5. Consider the value of a club house, swimming pool, or other amenity that is part of a multifamily property when assessing the multifamily property if the club house receives minimal or no rental income, regardless of whether the club house is located on a separate lot.

The bill also provides that when there is an inconsistency or ambiguity between the Wisconsin Property Assessment Manual and a statute, the statute controls the practices of the assessor.
