### *Analysis by the Legislative Reference Bureau*

Under current law, school boards may enter into contracts to establish charter schools, which operate with fewer constraints than traditional public schools. Current law also permits the University of Wisconsin (UW)–Milwaukee, UW–Parkside, Milwaukee Area Technical College (MATC), and the city of Milwaukee to establish charter schools directly or to contract for the operation of charter schools. A charter school established by an entity other than a school board is known as an independent charter school.

This bill allows each technical college district board, including the MATC district board, to authorize independent charter high schools that provide a curriculum focused on occupational education and training or science, technology, engineering, and math (independent charter technical schools). An independent charter technical school must be located within the boundaries of the authorizer’s technical college district or in a county adjacent to the district. This bill does not

otherwise affect MATC's authority under current law to authorize independent charter schools.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
