

FISCAL NOTE

This bill creates the illegal dumping remediation account. Funds within the account are continuously appropriated to the Department of Environmental Quality (Department) for the purposes of awarding grants to local government entities to remediate illegal dumping.

	FY 2025	FY 2026	FY 2027
NON-ADMINISTRATIVE IMPACT			
Anticipated Revenue increase/(decrease)			
ILLEGAL DUMPING REMEDIATION	\$250,000	\$250,000	\$250,000
SOLID WASTE LANDFILL REMEDIATION	(\$250,000)	(\$250,000)	(\$250,000)

Source of revenue increase(decrease):

The new illegal dumping remediation account would receive up to \$250,000 on July 1 each year of funds in the corrective action account created in W.S. 35-11-1424 in excess of expected expenditures from the corrective action account. Through fiscal year (FY) 2029, those funds would come from the current transfer from the corrective action account to the solid waste landfill remediation account. For FY 2030 and after, the funds would come from either the transfer to the solid waste landfill remediation account or the transfer to the orphan site remediation account.

Assumptions:

The \$250,000 is a maximum transfer, made at the discretion of the director of the Department and based on the needs of the corrective action account. The table above assumes that the maximum amount would be transferred to the new illegal dumping remediation account on July 1 each year.

NOTICE-AGENCY ESTIMATE OF ADMINISTRATIVE IMPACT REQUESTED

This bill has administrative impact that appears to increase duties or responsibilities of one or more state agencies and may impact agency spending or staffing requirements. As introduced, the bill does not modify any state agency budget or current personnel authorizations.

The following state agencies will be asked to provide their estimate of the administrative fiscal impact prior to the first committee meeting held to consider the bill:

Dept. of Environmental Quality
